Building the Prison State Heather Schoenfeld, 2024-05-31 The United States incarcerates more people per capita than any other industrialized nation in the world about 1 in 100 adults or more than 2 million people while national spending on prisons has catapulted 400 percent Given the vast racial disparities in incarceration the prison system also reinforces race and class divisions How and why did we become the world s leading jailer And what can we as a society do about it Reframing the story of mass incarceration Heather Schoenfeld illustrates how the unfinished task of full equality for African Americans led to a series of policy choices that expanded the government s power to punish even as they were designed to protect individuals from arbitrary state violence Examining civil rights protests prison condition lawsuits sentencing reforms the War on Drugs and the rise of conservative Tea Party politics Schoenfeld explains why politicians veered from skepticism of prisons to an embrace of incarceration as the appropriate response to crime To reduce the number of people behind bars Schoenfeld argues that we must transform the political incentives for imprisonment and develop a new ideological basis for punishment **Breaking the Pendulum** Philip Goodman, Joshua Page, Michelle Phelps, 2017-03-20 The history of criminal justice in the U S is often described as a pendulum swinging back and forth between strict punishment and lenient rehabilitation While this view is common wisdom it is wrong In Breaking the Pendulum Philip Goodman Joshua Page and

Michelle Phelps systematically debunk the pendulum perspective showing that it distorts how and why criminal justice changes The pendulum model blinds us to the blending of penal orientations policies and practices as well as the struggle between actors that shapes laws institutions and how we think about crime punishment and related issues Through a re analysis of more than two hundred years of penal history starting with the rise of penitentiaries in the 19th Century and ending with ongoing efforts to roll back mass incarceration the authors offer an alternative approach to conceptualizing penal development Their agonistic perspective posits that struggle is the motor force of criminal justice history Punishment expands contracts and morphs because of contestation between real people in real contexts not a mechanical swing of the pendulum This alternative framework is far more accurate and empowering than metaphors that ignore or downplay the importance of struggle in shaping criminal justice This clearly written engaging book is an invaluable resource for teachers students and scholars seeking to understand the past present and future of American criminal justice By demonstrating the central role of struggle in generating major transformations *Breaking the Pendulum* encourages combatants to keep fighting to change the system

Place Management and Crime John E. Eck, Shannon J. Linning, Tamara D. Herold, 2023-03-22 This brief describes the theory and evidence of a form of social control known as place management Created by property owners place management is an alternative to the two other domains of social control formally created by the state and informally created by residents It helps explain the high concentration of crime and disorder at a relatively small proportion of addresses and facilities This volume examines the specifics of place management and extends it in three ways to show how high crime places may radiate crime into their surroundings to reveal networks of places that create crime hotspot spanning blocks to demonstrate how networks of place managers influence crime throughout neighborhoods Finally it shows that the policy implications of place management extend far beyond the police and should include regulatory policies

Language of the Gun Bernard E. Harcourt, 2006-02-15 In this book the author recounts in depth interviews with youths detained at an all male correctional facility exploring how they talk about guns and what meanings they ascribe to them in a broader attempt to understand some of the assumptions implicit in current handgun policies

From Enforcers to Guardians Hannah L. F. Cooper, Mindy Thompson Fullilove, 2020-01-14 A public health approach to understanding and eliminating excessive police violence Excessive police violence and its disproportionate targeting of minority communities has existed in the United States since police forces first formed in the colonial period A personal tragedy for its victims for the people who love them and for their broader communities excessive police violence is also a profound violation of human and civil rights Most public discourse about excessive police violence focuses understandably on the horrors of civilian deaths In *From Enforcers to Guardians* Hannah L F Cooper and Mindy Thompson Fullilove approach the issue from a radically different angle as a public health problem By using a public health framing this book challenges readers to recognize that the suffering created by excessive police violence extends far outside of death to include sexual psychological neglectful and

nonfatal physical violence as well. Arguing that excessive police violence has been deliberately used to marginalize working class and minority communities, Cooper and Fullilove describe what we know about the history, distribution, and health impacts of police violence from slave patrols in colonial times to war on drugs policing in the present-day United States. Finally, the book surveys efforts including Barack Obama's 2015 creation of the Task Force on 21st Century Policing to eliminate police violence and proposes a multisystem, multilevel strategy to end marginality and police violence and to achieve guardian policing. Aimed at anyone seeking to understand the causes and distributions of excessive police violence and to develop interventions to end it, *From Enforcers to Guardians* frames excessive police violence so that it can be understood, researched, and taught about through a public health lens. **Lockdown America** Christian Parenti, 2000. *Lockdown America* documents the horrors and absurdities of militarized policing, prisons, a fortified border, and the war on drugs. Its accessible and vivid prose makes clear the links between crime and politics in a period of gathering economic crisis.

Capitalist Punishment Alex Friedman, 2010-04-28. Over 100,000 people in the U.S. are incarcerated in prisons owned and operated by private corporations, a booming business. But how are the human rights of prisoners and prison employees affected when prisons are run for profit? An accomplished group of human rights writers and activists explores the historical, political, and economic context of private prisons. How are prisoners' lives affected by privatization? How does it impact prison labor and prison employees? How and why are private prisons becoming transnational? Are women, children, and African and Native Americans affected differently from other populations? How is privatization connected to the war on drugs, the criminalization of poverty, and tough on crime politics? The preface is by Sir Nigel Rodley, Professor of Law at the University of Essex, former United Nations Special Rapporteur for Torture, and knighted in 1999 for recognition of services to human rights and international law. **Deviance and Social Control: A Sociological Perspective** Michelle Inderbitzin, Kristin A.

In the late 1960s, protests led by students roiled high schools across the country. As school desegregation finally took place on a wide scale, students of color were particularly vocal in contesting the racial discrimination they saw in school policies and practices. And yet these young people had no legal right to express dissent at school. It was not until 1969 that the Supreme Court would recognize the First Amendment rights of students in the landmark *Tinker v. Des Moines* case. A series of students' rights lawsuits in the desegregation era challenged everything from school curricula to disciplinary policies. But in casting students as troublemakers or as culturally

deficient school authorities and other experts persuaded the courts to set limits on rights protections that made students of color disproportionately vulnerable to suspension and expulsion *Troublemakers* traces the history of black and Chicano student protests from small town Mississippi to metropolitan Denver and beyond showcasing the stories of individual protesters and demonstrating how their actions contributed to the eventual recognition of the constitutional rights of all students Offering a fresh interpretation of this pivotal era *Troublemakers* shows that when black and Chicano teenagers challenged racial discrimination in American public schools they helped remake American constitutional law and establish protections of free speech due process equal protection and privacy for students *The Road to Abolition?* Charles J.

Ogletree, Jr., Austin Sarat, 2009-11-01 At the start of the twenty first century America is in the midst of a profound national reconsideration of the death penalty There has been a dramatic decline in the number of people being sentenced to death as well as executed exonerations have become common and the number of states abolishing the death penalty is on the rise The essays featured in *The Road to Abolition* track this shift in attitudes toward capital punishment and consider whether or not the death penalty will ever be abolished in America The interdisciplinary group of experts gathered by Charles J Ogletree Jr and Austin Sarat ask and attempt to answer the hard questions that need to be addressed if the death penalty is to be abolished Will the death penalty end only to be replaced with life in prison without parole Will life without the possibility of parole become in essence the new death penalty For abolitionists might that be a pyrrhic victory The contributors discuss how the death penalty might be abolished with particular emphasis on the current debate over lethal injection as a case study on why and how the elimination of certain forms of execution might provide a model for the larger abolition of the death penalty *Caught on Screen* James Findlay, 2025-09-18 From innocent criminals to radical revolutionaries feisty

feminists to manly pioneers egalitarian settlers to violent invaders *Caught on Screen* shows how over successive generations the shape shifting convict emerged on screen as a potent historical symbol Convicts loom large in Australian history As transported criminals and the first European settlers they have shackled the nation to a curious and contested origin story Historians were largely silent on their exploits until the second half of the twentieth century but before then a tradition of convict representation on screen appeared with the rise of cinema taking hold of the popular imagination From silent films to more recent television series screen culture has elevated the convict experience to become a key historical narrative through which filmmakers and audiences have repeatedly reframed and challenged an understanding of Australia s colonial past *Caught on Screen* traverses this history of convict representation for the first time Through detailed archival research into their production and reception the book explores engaging case studies produced in Australia and internationally including the work of Douglas Sirk Alfred Hitchcock and Jennifer Kent It illuminates the fact that the convict as historical symbol is one that intersected with and helped to direct major debates about nationalism the legacies of colonisation Aboriginal dispossession and the origins and character of Australian society **Why Are So Many Black Men in Prison?** Demico

Boothe, 2007 African American males are being imprisoned at an alarming and unprecedented rate. Out of the more than 11 million black adult males in the U.S. population, nearly 1.5 million are in prisons and jails, with another 3.5 million more on probation or parole or who have previously been on probation or parole. Black males make up the majority of the total prison population, and due to either present or past incarceration, they are the most socially disenfranchised group of American citizens in the country today. This book, which was penned by Boothe while he was still incarcerated, details the author's personal story of a negligent upbringing in an impoverished community, his subsequent engagement in criminal activity, drug dealing, his incarceration, and his release from prison and experiencing of the crippling social disenfranchisement that comes with being an ex-felon. The author then relates his personal experiences and realizations to the seminal problems within the African American community, federal government, and criminal justice system that cause his own experiences to be the same experiences of millions of other young black men. This book focuses on the totality of how and why the U.S. prison system became the largest prison system in the world and is filled with relevant statistical and historical references and controversial facts and quotes from notable persons and sources.

Crimes of Punishment Theodore L. Dorpat, 2007 This groundbreaking book by an award-winning psychoanalyst and forensic psychiatrist presents a comprehensive exploration of a timely but often taboo topic: the failure of punishment to deter crime and violence, an issue that affects us both individually and as a culture. Written at the culmination of the author's fifty-year career as a psychoanalyst, forensic psychologist, and scholar, this wide-ranging work identifies the origins of violence and investigates the surprising consequences of punishment from a multitude of perspectives. In his treatment of the topic, Dr. Dorpat utilizes scientific research, ethical reasoning, and his vast clinical experience and insight. He also suggests the benefits of new and emerging humane alternatives to the revenge punishment model currently entrenched in our society, such as restorative justice. In contrast to most contemporary measures, these new approaches, while still imprisoning dangerous individuals, effectively stress reparation and forms of sanctioning other than incarceration. When restitution replaces revenge, everyone benefits. Crimes of Punishment examines four key interrelated social methods of punishment. These are: 1) the corporal punishment of children, 2) the incarceration of adults in prisons, 3) capital punishment (the death penalty), and 4) emotional/verbal abuse. As he elucidates and analyzes each of these forms of punishment, Dr. Dorpat clearly and logically makes the case that punishment is not only ineffectual but that it also engenders more of what it ostensibly aims to stop: violence and misbehavior. Both children and adults who are subjected to punishment tend to become more violent individuals. In covering the full scope of our contemporary justice system, Dr. Dorpat brings to the forefront those who are often overlooked or dismissed: the victims of crime. His concluding chapters present and clarify the psychological wounds and needs of these individuals and demonstrate how restorative justice is effective in attending to victims in an ethical and healing manner. In a humane and ethically evolved society, restitution replaces punishment.

Market Comparison Crimes of Punishment is unique in that it covers not just one but four different types of

punishment the corporal punishment of children the incarceration of adults the death penalty and verbal emotional abuse Two earlier books written by psychiatrists expose the terrible conditions in America's prisons They are *The Crime of Punishment* New York Viking 1968 by Karl Menninger and *Prison Madness* by Terry Kupers San Francisco Jossey Bass 1999 This book differs in two important ways from the books written by Menninger and Kupers First *The Crimes of Punishment* covers other kinds of punishment while those authors deal only with the punishment of incarceration Secondly the reforms they recommend are merely piecemeal modifications of the present criminal justice systems whereas Dr Dorpat argues for a radical change that includes the abolition of today's punitive prison Retributive Justice system and the establishment of a new and different system namely Restorative justice a system that has been developed over the past decade in Australia and New Zealand *The Crimes of Punishment* differs from Menninger's book in covering the many changes that have occurred in prisons since 1968 In several short chapters on restorative justice the book also explores this exciting new approach and serves as an informed introduction to a new important and effective moral approach to the treatment of criminals [Race to Incarcerate](#) Marc Mauer, 2010-11-29 In this revised edition of his seminal book on race class and the criminal justice system Marc Mauer executive director of one of the United States leading criminal justice reform organizations offers the most up to date look available at three decades of prison expansion in America Including newly written material on recent developments under the Bush administration and updated statistics graphs and charts throughout the book tells the tragic story of runaway growth in the number of prisons and jails and the overreliance on imprisonment to stem problems of economic and social development Called sober and nuanced by Publishers Weekly *Race to Incarcerate* documents the enormous financial and human toll of the get tough movement and argues for more humane and productive alternatives [A Place to Live](#) Vuyisile Msila, 2014-12-01 *A Place to Live* provides captivating insights into the rich tapestry of meaning that fashioned the Red Location into the township that it became and the many stalwarts that contributed to its vibrant and interesting history Vuyisile Msila has masterfully interwoven history with visual images and actual accounts of people's lived experiences to relate the picturesque and colourful story of the Red Location from the colonial to apartheid and post apartheid eras spanning a period of a hundred and ten years from 1903 to 2013 *Still a House Divided* Desmond King, Rogers M. Smith, 2013-12-08 Why race remains the central political issue in America today Why have American policies failed to reduce the racial inequalities still pervasive throughout the nation Has President Barack Obama defined new political approaches to race that might spur unity and progress *Still a House Divided* examines the enduring divisions of American racial politics and how these conflicts have been shaped by distinct political alliances and their competing race policies Combining deep historical knowledge with a detailed exploration of such issues as housing employment criminal justice multiracial census categories immigration voting in majority minority districts and school vouchers Desmond King and Rogers Smith assess the significance of President Obama's election to the White House and the prospects for achieving constructive racial policies for

America's future Offering a fresh perspective on the networks of governing institutions political groups and political actors that influence the structure of American racial politics King and Smith identify three distinct periods of opposing racial policy coalitions in American history The authors investigate how today's alliances pit color blind and race conscious approaches against one another contributing to political polarization and distorted policymaking Contending that President Obama has so far inadequately confronted partisan divisions over race the authors call for all sides to recognize the need for a balance of policy measures if America is to ever cease being a nation divided Presenting a powerful account of American political alliances and their contending racial agendas Still a House Divided sheds light on a policy path vital to the country's future
