authors were too polite to contradict others in the field In most cases when you are developing your negotiation skills this leaves you with a stark choice pick a single technique and ignore the rest Until now Kennedy on Negotiation is an authoritative and comprehensive guide to negotiation skills training and practice Dr Kennedy uses the well established Four Phases model as the structure around which he critiques constructively the numerous competing theories and models Gavin Kennedy s book is everything you would expect from one of the most respected writers on negotiation It is a readable and reliable guide to all that is best in the various contributions to negotiation training from authors such as John Nash Walton and McKersie Atkinson Nierenberg Rubin and Brown Gottschalk Karass Fisher and Ury and many more including Gavin Kennedy himself

e-Negotiations Nicholas Harkiolakis,Daphne Halkias,2016-04-29 Practical negotiating skills including those needed for cross cultural negotiations have long been taught in classrooms along with some of the theory that underpins them Most of this has been based on the notion that negotiation will be interpersonal and face to face In recent years though globalization the telecommunications boom and the ever increasing need for today s professionals to conduct cross cultural business transactions has led to a new way of negotiating bargaining and resolving disputes In e Negotiations Nicholas Harkiolakis and his co authors highlight the challenge that awaits the young professionals who are today training in business schools Future dispute resolutions and bargaining will take place between faceless disputants involved in a new kind of social process Any adolescent with a mobile phone and Internet access knows that most of today s social transactions take place via a hand held or other electronic device In a world of video conferences chat rooms Skype Facebook and MySpace critical financial business and political decisions are made through interaction between two dimensional characters on screens Here the authors compare and contrast e negotiation as it currently is with traditional face to face negotiation Case studies illustrate how cross cultural negotiations can be managed through modern channels of social influence and information sharing and shed light on the critical social cognitive and behavioral role of the negotiator in resolving on line cross cultural conflicts and disputes and generally in bargaining and negotiation This book with its practical exercises will be of immense help to students and professionals needing to practice with the new negotiating media

The Secrets of Gaining the Upper Hand in High Performance Negotiations Manon Schonewille,Felix Merks,2011 Although negotiations are an ever present part of our everyday lives many of us know little as to why we sometimes get our way while on other occasions we walk away feeling frustrated that we did not reach the desired agreement or we may have left too much value on the table Knowing how to gain the upper hand to get what is necessary from a negotiation is particularly important when the stakes are high especially in a situation where a negotiator feels the options and choices are limited yet something must be achieved A negotiation can cause a lot of stress making the stakes even higher and the negotiation dynamics more difficult to manage New communication technologies play an increasingly important role in day to day negotiations It is important to be aware of these situations in order to know what works and what does not work and how to

maximize the outcome in such negotiation situations The contributions in this book as well as the exclusive interview with Chris Voss an international business negotiator capture the key concepts and the most important learning points on how to gain the upper hand in high stake negotiations The book deals in a concise way with proven tools such as recognizing escalation mechanisms and the techniques on how to de escalate or deal with emotions Readers will gain access to crucial insights from professionals like the FBI or US army negotiators who are experienced in negotiating under extreme pressure in situations where lives are literally on the line The book covers newer developments such as involving a deal facilitator and conducting e negotiations The book also includes an example of role playing a negotiation in a conflict situation where the stakes are high and a lot of emotions are present on both sides of the table
