Making It Crazy Ethnography Of Psychiatric Clients:

Making It Crazy Sue E. Estroff, 1985-06-06 Estroff describes a group of chronic psychiatric clients as they attempt life outside a mental hospital

Making it Crazy Sue E. Estroff, 1985 **Making it Crazy** Sue Ellen Estroff, 1978 **Our Most Troubling Madness** Prof. T.M. Luhrmann, Jocelyn Marrow, 2016-09-27 Schizophrenia has long puzzled researchers in the fields of psychiatric medicine and anthropology Why is it that the rates of developing schizophrenia long the poster child for the biomedical model of psychiatric illness are low in some countries and higher in others And why do migrants to Western countries find that they are at higher risk for this disease after they arrive T M Luhrmann and Jocelyn Marrow argue that the root causes of schizophrenia are not only biological but also sociocultural This book gives an intimate personal account of those living with serious psychotic disorder in the United States India Africa and Southeast Asia It introduces the notion that social defeat the physical or symbolic defeat of one person by another is a core mechanism in the increased risk for psychotic illness Furthermore care as usual treatment as it occurs in the United States actually increases the likelihood of social defeat while care as usual treatment in a country like India diminishes it

Creating Mental Illness Allan V. Horwitz, 2002-01-15 In this surprising book Allan V Horwitz argues that our current conceptions of mental illness as a disease fit only a small number of serious psychological conditions and that most conditions currently regarded as mental illness are cultural constructions normal reactions to stressful social circumstances or simply forms of deviant behavior Thought provoking and important Drawing on and consolidating the ideas of a range of authors Horwitz challenges the existing use of the term mental illness and the psychiatric ideas and practices on which this usage is based Horwitz enters this controversial territory with confidence conviction and clarity Joan Busfield American Journal of Sociology Horwitz properly identifies the financial incentives that urge therapists and drug companies to proliferate psychiatric diagnostic categories He correctly identifies the stranglehold that psychiatric diagnosis has on research funding in mental health Above all he provides a sorely needed counterpoint to the most strident advocates of disease model psychiatry Mark Sullivan Journal of the American Medical Association Horwitz makes at least two major contributions to our understanding of mental disorders First he eloquently draws on evidence from

the biological and social sciences to create a balanced integrative approach to the study of mental disorders Second in accomplishing the first contribution he provides a fascinating history of the study and treatment of mental disorders from early asylum work to the rise of modern biological psychiatry Debra Umberson Quarterly Review of Biology
