The Rise of Common-Sense Conservatism Antti Lepistö,2021-04-20 In the years following the election of Donald Trump a victory that hinged on the votes of white Midwesterners who were both geographically and culturally distant from the media s coastal concentrations there has been a flurry of investigation into the politics of the so called common man The notion that the salt of the earth purity implied by this appellation is best understood by conservative politicians is no recent development though As Antti Lepist shows in his timely and erudite book the intellectual wellsprings of conservative common sense discourse are both older and more transnational than has been thought In considering the luminaries of American neoconservative thought

among them Irving Kristol Gertrude Himmelfarb James Q Wilson and Francis Fukuyama Lepist argues that the centrality of their conception of the common man accounts for the enduring power and influence of their thought Intriguingly Lepist locates the roots of this conception in the eighteenth century Scottish Enlightenment revealing how leading neoconservatives weaponized the ideas of Adam Smith Thomas Reid and David Hume to denounce postwar liberal elites educational authorities and social reformers Their reconfiguration of Scottish Enlightenment ideas ultimately gave rise to a defining force in modern conservative politics the common sense of the common man Whether twenty first century politicians who invoke the grievances of the people are conscious of this unusual lineage or not Lepist explains both the persistence of the trope and the complicity of some conservative thinkers with the Trump regime *Dissemination of Criminal Justice Information United States. Congress. House. Committee on the Judiciary. Subcommittee on Civil Rights and Constitutional Rights,1974* The Chicago Trunk Murder Elizabeth Dale,2011-09-01 On November 14 1885 a cold autumn day in the City of Broad Shoulders an enthusiastic crowd of several hundred watched as three Sicilians Giovanni Azari Agostino Gelardi and Ignazio Silvestri were hanged in the courtyard of the Cook County Jail The three had only recently come to the city but not long after they were arrested tried and convicted for murdering Filippo Caruso stuffing his body into a trunk and shipping it to Pittsburgh Historian and legal expert Elizabeth Dale brings the Trunk Murder case vividly back to life painting an indelible portrait of nineteenth century Chicago ethnic life there and a murder trial gone seriously awry Along the way she reveals a Windy City teeming with street peddlers crooked cops earnest reformers and legal activists all of whom play a part in this gripping tale The Chicago Trunk Murder shows how the defendants in the case were arrested on dubious evidence and held some for weeks without access to lawyers or friends The accused finally confessed after being interrogated repeatedly by men who did not speak their language They were then tried before a judge who had his own view and ruled accordingly The Chicago Trunk Murder revisits these abject breaches of justice and uses them to consider much larger problems in late nineteenth century criminal law Written with a storyteller s flair for narrative and brimming with historical detail this book will be must reading for true crime buffs and aficionados of Chicago lore alike
