*Storytelling in Jazz and Musicality in Theatre* Sven Bjerstedt, 2021-05-25 Art forms tend to mirror themselves in each other In order to understand literature and fine arts better we often turn to music speaking of the tone in a book and of the rhythm in a painting In attempts to understand music better we turn instead to the narrative arts speaking of the story of a musical piece This book focuses on two examples of such conceptual mirror reflexivity narrativity in jazz music and musicality in spoken theatre These intermedial metaphors are shown to be significant to the practice and reflection of performing artists through their ability to mediate holistic views of what is considered to be of crucial importance in artistic practice analysis and education This exploration opens up possibilities for new theoretical and practical insights with regard to how the borderland between temporal art forms can be conceptualized The book will be of interest not only to scholars of music and theatre but also to those who work in the fields of aesthetics intermedial studies cognitive linguistics arts theory communication theory and cultural studies     Expertise in Jazz Guitar Improvisation Stein Solstad, 2020-04-21 Expertise in Jazz Guitar Improvisation is an examination of musical interplay and the ways implicit sub conscious and explicit conscious knowledge appear during improvisation The practice based research inquiry includes interviews and interplay with five world class jazz guitarists Lage Lund Jack Wilkins Ben Monder Rez Abbasi and Adam Rogers a modal matrix for analyzing structure time and form in jazz guitar improvisation and musical analysis based on cognitive theories By explaining the cognitive and musical foundations for expertise in jazz guitar improvisation this book illuminates how jazz guitarists strategies are crucially dependent on context style and type of interplay With accompanying video provided as an e resource this material will be of interest to anyone fascinated by Jazz and Psychology of Music     Making Music Together Peter Reinholdsson, 1998     **The Oxford Handbook of the Phenomenology of Music Cultures** Harris M. Berger, Friedlind Riedel, David VanderHamm, 2024 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online     **Interactive Storytelling** Ido A Iurgel, Nelson Zagalo, Paolo Petta, 2009-11-24 The rich programme of ICIDS 2009 comprising invited talks technical presentations and posters demonstrations and co located post conference workshops clearly underscores the event s status as premier international meeting in the domain It thereby confirms the decision taken by the Constituting Committee of the conference series to take the step forward out of the national cocoons of its precursors ICVS and TIDSE and towards an itinerant platform reflecting its global constituency This move reflects the desire and the will to take on the challenge to stay on the lookout critically reflect upon and integrate views and ideas findings and experiences and to promote interdisciplinary exchange while ensuring overall coherence and maintaining a sense of direction This is a signi

cant enterprise The challenges sought are multifarious and must be addressed consistently at all levels The desire to involve all research communities and stakeholders must be matched by acknowledging the differences in established practises and by providing suitable means of guidance and introduction exposition and direct interaction at the event itself and of lasting and increasingly living documentation of which the present proceedings are but an important part

**The Anthropology of Intentions** Alessandro Duranti, 2015-01-08 How and to what extent do

people take into account the intentions of others Alessandro Duranti sets out to answer this question showing that the role of intentions in human interaction is variable across cultures and contexts Through careful analysis of data collected over three decades in US and Pacific societies Duranti demonstrates that in some communities social actors avoid intentional discourse focusing on the consequences of actions rather than on their alleged original goals In other cases he argues people do speculate about their own intentions or guess the intentions of others including in some societies where it was previously assumed they avoid doing so To account for such variation Duranti proposes an intentional continuum a concept that draws from phenomenology and the detailed analysis of face to face interaction A combination of new essays and classic re evaluations the book draws together findings from anthropology linguistics and philosophy to offer a penetrating account of the role of intentions in defining human action Narrative in Music and Interaction Irène Deliège,2008 Dutch journal of music theory ,2008 **Bibliographic Guide to Music** New York Public Library.
