## **Making Of A World Power:**

**India - From Regional to World Power** Ashok Kapur,2006-04-18 This book provides an in depth account of India s role in world politics at the beginning of the twenty first century The author shows how the approach laid down by Nehru and followed by his successors an approach that included nuclear self restraint the search for friendly relations with Pakistan and China seeking the high ground in moral and diplomatic spheres and giving a lead to the non aligned Third World has been replaced The new more self confident and assertive approach of this book is based on India s growing economic strength and has a more strategic and pro Western orientation Meticulous in approach this book discusses this change shows how it has come about and explores how India s role in world politics might develop going forward This book will be of interest to students and scholars of South Asian studies Asian politics international relations and security studies **State, Power and**

**Politics in the Making of the Modern Middle East** Roger Owen,2013-01-11 Roger Owen has fully revised and updated his authoritative text to take into account the latest developments in the Middle East This book continues to serve as an excellent introduction for newcomers to the modern history and politics of this fascinating region This third edition continues to explore the emergence of individual Middle Eastern states since the fall of the Ottoman Empire at the end of the First World War and the key themes that have characterized the region since then World Power Trends And U.S. Foreign

Policy For The 1980s Ray S. Cline,2019-07-15 This book based on information consolidated to cover the calendar years 1978 and 1979 assesses the power of nations in the international context as a basis for planning American defense and foreign policy It suggests a realistic way of thinking about the balance of power in the 1980s *The British Empire as a World*

**Would-be World Power** Giandomenico Majone,2009-07-23 Giandomenico Majone explores the reasons behind the failure of the EU system to deliver satisfactory growth performance 1 Corinthians (Baker Exegetical Commentary on the New

Testament) David E. Garland,2003-11-01 Paul s first letter to the Corinthians is one of the most important epistles in the New Testament David Garland s thoughtful new commentary draws on extensive research and engages the best of contemporary scholarship while providing a readable study that will be accessible to thoughtful readers as well as students pastors and scholars After considering the context of the letter and the social and cultural setting of Corinth Garland turns to his exegetical work An introduction to each major unit of thought is followed by the author s own translation of the Greek text In the course of his verse by verse commentary he incorporates references to other ancient writings that help explain particular aspects of Paul s meaning or provide information on the social and cultural context He also refers to the work of other commentators and provides extensive notes for further reading and research *Multinationals and the Constitutionalization*

*of the World Power System* Jean-Philippe Robe,Antoine Lyon-Caen,Stéphane Vernac,2016-06-03 This collection offers a

powerful and coherent study of the transformation of the multinational enterprise as both an object and subject of law within and beyond States The study develops an analysis of the large firm as being a system of organization exercising vast powers through various instruments of private law such as property rights contracts and corporations The volume focuses on the firm as the operational unit of governance within emerging systems of globalization whilst exploring in depth the forms within which the firm might be regulated as against the inhibiting parameters of national law It connects through the ordering concept of the firm in globalization the distinct regimes of constitutionalization national and international law The study will be of interest to students and academics in globalization and the regulation of multinational corporations as well as law economics and politics on a global scale It will also interest government leaders and NGOs working in the areas of MNE regulations

**The English and Their History** Robert Tombs, 2015-10-27 A New York Times 2016 Notable Book Robert Tombs s momentous The English and Their History is both a startlingly fresh and a uniquely inclusive account of the people who have a claim to be the oldest nation in the world The English first came into existence as an idea before they had a common ruler and before the country they lived in even had a name They have lasted as a recognizable entity ever since and their defining national institutions can be traced back to the earliest years of their history The English have come a long way from those first precarious days of invasion and conquest with many spectacular changes of fortune Their political economic and cultural contacts have left traces for good and ill across the world This book describes their history and its meanings from their beginnings in the monasteries of Northumbria and the wetlands of Wessex to the cosmopolitan energy of today s England Robert Tombs draws out important threads running through the story including participatory government language law religion the land and the sea and ever changing relations with other peoples Not the least of these connections are the ways the English have understood their own history have argued about it forgotten it and yet been shaped by it These diverse and sometimes conflicting understandings are an inherent part of their identity Rather to their surprise as ties within the United Kingdom loosen the English are suddenly embarking on a new chapter The English and Their History the first single volume work on this scale for more than half a century and which incorporates a wealth of recent scholarship presents a

challenging modern account of this immense and continuing story bringing out the strength and resilience of English government the deep patterns of division and also the persistent capacity to come together in the face of danger *Who's Making Foreign Agricultural Policy?* United States. extent the quality of their decisions This book provides the most comprehensive analysis available of the elements that influence risk judgments and preferences The book has two dimensions theoretical and comparative historical The study of risk taking behavior has been dominated by the rational choice approach Instead the author adopts a socio cognitive approach involving a multivariate theory integrating contextual cognitive motivational and personality factors that affect an individual decisionmaker s judgment and preferences the social interaction and structural effects of the decisionmaking group and its organizational setting and the role of cultural societal values and norms that sanction or discourage risk taking behavior The book s theoretical approach is applied and tested in five historical case studies of foreign military interventions The richly detailed empirical data on the case studies make them metaphorically speaking an ideal laboratory for applying a process tracing approach in studying judgment and decision processes at varying risk levels The case studies analyzed are U S interventions in Grenada in 1983 and Panama in 1989 both low risk Soviet intervention in Czechoslovakia in 1968 moderate risk U S intervention in Vietnam in 1964 68 high risk and Israel s intervention in Lebanon in 1982 83 high risk

China: From Poverty to World Power Paolo Urio, 2024-10-19 The second edition of this book updated to February 24 2024 presents a comprehensive evaluation of the strategy implemented by China to manage its modernization process The author evaluates to what extent the economy has been developed whether the imbalances due to the priority given to economic development have been corrected and whether the improvements of science and technology have allowed China to develop world class high tech sectors and a modern defence Clearly the end of the XX Century saw the fulfilment of Zhou En Lai four modernizations i e the acquisition of power resources that fulfilled Mao s proud 1949 statement we stood up thereby projecting China into the international arena as a re emerging world power The author insists on the fundamental difference between American and Chinese ideologies as the main drivers of their foreign policy i e the extreme rigidity of the former compared to the remarkable flexibility and adaptability of the latter He further explains the consequences of the increasingly aggressive American foreign policy i e the US pretence to act as the leader of the existential struggle between democracy and dictatorship This posture reached its apex during the Ukrainian and the Middle East crises that unveiled the irreversible decline of the West and have become two formidable accelerators of the transition from the unipolar world America made to the multipolar world promoted by China Russia and the BRICS

**The Making of India** Ranbir Vohra, 2012-12-19 Designed for undergraduate and graduate courses in Indian civilization and history this text provides a sweeping look at the long and varied history of India and how this complex legacy has shaped and is shaping the nation s modern polity It offers unique political historical coverage of India from pre history into the 21st century Part I offers an overview of Pre modern India from pre history to 1857 Part II covers India under the British from 1859 to 1947 Part III

the major portion of the text looks at Independent India after 1947 An Epilogue brings the book full circle with a portrait of modern India contrasted to modern China mirroring the comparison of traditional India with traditional China in the opening chapters     **Decision-Making for Defense** ,     *Balance of Power in World History* S. Kaufman,R. Little,W.

Wohlforth,2007-08-22 The balance of power is one of the most influential ideas in international relations yet it has never been comprehensively examined in pre modern or non European contexts This book redresses this imbalance The authors present eight new case studies of balancing and balancing failure in pre modern and non European international systems     *The*

*Making of Eurosceptic Britain* Chris Gifford,2008 Populist Euroscepticism has become fundamental to constituting Britain and Britishness in a post imperial context despite membership of the European Union This book is organized chronologically providing overviews of key periods in the British European Union relationship     *Immortaleism* Vul Impera,2020-02-28

Vul Impera investigates the fundamental philosophical aspects of power demonstrating fundamental aspects of the relationship of power itself and the relationship of power to human nature Examining what power is Vul proceeds to discuss what power is to people and in a convincing argument illustrates how to increase in power and also to determine if one is powerful In the second writing of Immortaleism Vul illuminates the philosophy of empire Concerned with the element of rulership which was discussed in power Vul provides a beginning for the philosophy of empire which he simply uses as an empirical demonstration of power indicating it is written to be an appendix demonstrating power in organisation Lastly Vul relates a spiritual book called Immortale which was produced through a spiritual endeavour that lasted thirteen years from the time Vul was eighteen Attempting many religions experiences and philosophies Vul communicates his spirituality which he has founded and established as his own religion which in eventuality includes all three written works into a paradigm that Vul labels Immortaleism Vul provides spiritual answers that surround the notion of the holy grail in the final book All three writings are transmitted through his personal experience on the subjects and are a product of his life circumstances
