Making Of Europe An Introduction To The History Of European Unity:

The Making of Europe Christopher Dawson, 2002 Christopher Dawson concludes that the period of the fourth to the eleventh centuries commonly known as the Dark Ages is not a barren prelude to the creative energy of the medieval world. Instead, he argues that it is better described as ages of dawn for it is in this rich and confused period that the complex and creative interaction of the Roman empire, the Christian Church, the classical tradition, and barbarous societies provided the foundation for a vital unified European culture. In an age of fragmentation and the emergence of new nationalist forces, Dawson argued that if our civilization is to survive, it is essential that it should develop a common European consciousness and sense of historic and organic unity. But he was clear that this unity required sources deeper and more complex than the political and economic movements on which so many had come to depend, and he insisted prophetically that Europe would need to recover its Christian roots if it was to survive. In a time of cultural and political ambiguity, *The Making of Europe* is an indispensable work for understanding not only the rich sources but also the contemporary implications of the very idea of Europe.

THE MAKING OF EUROPE. AN INTRODUCTION TO THE HISTORY OF EUROPEAN UNITY. BY CHRISTOPHER DAWSON. Christopher Dawson, 1939 **MAKING OF EUROPE** CHRISTOPHER. DAWSON, 2018 *The Making of Europe* Christopher Dawson, 2017-07-23

Excerpt from *The Making of Europe: An Introduction to the History of European Unity*. The art of the catacombs is the first outward manifestation of Christian culture and shows in a remarkable way how the external forms of the old Roman Hellenistic culture were assimilated and modified by the new spiritual forces. Early Christian art took over the traditional commonplaces of the Hellenistic house decorator and infused them with a profound spiritual meaning. The subjects are mere generalised types or symbols: a fish, a dove, or a figure borrowed from heathen mythology, the value of which consists entirely in their hieratic and mystical significance to the initiated. Of these figures the most popular is that of a woman in an attitude of prayer, the orans, a figure that symbolised at once the soul of the deceased, the freed and enlightened spirit of man, and also the Virgin Church, the Bride of the Spirit. The Making of Europe Jay A. Berzofsky, 1974 **The Making of Europe** Christopher Dawson, 1932 **Business Ethics in a New Europe** John Mahoney, Elizabeth Vallance, 1992-09-30

The new business opportunities and prospects emerging in Europe within the Common Market and other Western and European countries also raise important ethical challenges. This work comprises a collection of ethical insights to enhance the conduct of business in an evolving Europe.

The Catholic Church Through the Ages John Vidmar, 2014

The Rise of Western Christendom Peter

Brown, 2013-02-04 This tenth anniversary revised edition of the authoritative text on Christianity's first thousand years of history features a new preface, additional color images, and an updated bibliography. The essential general survey of medieval European Christendom, Brown's vivid prose charts the compelling and tumultuous rise of an institution that came to wield enormous religious and secular power. Clear and vivid history of Christianity's rise and its pivotal role in the making of Europe. Written by the celebrated Princeton scholar who originated the field of study known as late antiquity. Includes a fully updated bibliography and index.

Guillaume Faye and the Battle of Europe Michael O'Meara, 2013 Europe is at war and does not know it. She is overrun by invaders from the Global South who seek to replace those who have inhabited her lands for at least the last 30,000 years. She is subject to an American overlord whose world system dictates her de-Europeanization and globalization. She is mismanaged and betrayed by EU technocrats, corrupt politicians, and plutocratic elites. Without a revolutionary mobilization in her defense, the thousand-year-old civilization that grew out of the medieval *Respublica Christiana* and that we today associate with Europe, along with the unique genetic heritage of her peoples, will forever cease to exist. Guillaume Faye, a doctorate from one of France's most prestigious schools, a social philosopher, author of numerous books and articles, is the Cassandra warning Europeans of their approaching extinction and the need to prepare for the impending Battle of Europe. Michael O'Meara, Ph.D., studied social theory at the *École des Hautes Études en Sciences Sociales* and modern European history at the University of California. He is the author of *New Culture, New Right: Anti-Liberalism in Postmodern Europe*, 2004.

Europe Sven Tägil, 2001-01-01 This anthology gives an overview and an in-depth description of Europe in historical terms, providing explanation for the current period of dramatic development and integration process that has led to the increased strength of the European Union. It also explores the simultaneous trend towards disintegration with an increased number of nationalist strivings of the traditional kind attempting to foresee the future structures by understanding the underlying processes through an analysis of the historical background.

Anglo-Saxon Culture and the Modern Imagination David Clark, Nicholas Perkins, 2010 The Anglo-Saxon world continues to be a source of fascination in modern culture. Its manifestations in a variety of media are here examined. *T. S. Eliot, Dante, and the Idea of Europe* Paul Douglass, 2011-05-25 T. S. Eliot greatly enhanced Dante's profound influence on European literature. The essays in this volume explore Dante's importance through a focus on Eliot. Probing the questions: what Eliot made of Dante and what Dante meant to Eliot, the essays here assess the legacy of modernism by engaging its classicist roots, covering a wide spectrum of topics stemming from Dante's relevance to the poetry and criticism of Eliot. The essays reflect on Eliot's aesthetic, philosophical, and religious convictions in relation to Dante, his influence upon literary modernism through his embracing and championing of the Florentine, and his desire to promote European unity. The first section of the book deals with aesthetic and philosophical issues related to Eliot's engagement with Dante, beginning with Jewel Spears Brooker's

masterful essay on the concepts of immediate experience and primary consciousness in Eliot's work and moving on to essays considering his idea of a unified sensibility as well as Eliot's engagement with Hindu Buddhist and Christian themes and motifs. The second part of the book focuses on Dante's importance to Eliot's founding work in the modernist movement. In what ways did Dante directly and indirectly influence the exemplary path that Eliot blazed for his contemporaries especially Ezra Pound? How early did Dante's influence show itself in Eliot's work? Why was he unable to complete the great trilogy he seems to have sought to write based on Dante's *Inferno*, *Purgatorio* and *Paradiso*? These questions and their answers lead to the book's final section which considers Eliot's and Dante's role in the formation of a twentieth century concept of Europe. Incisive essays on Eliot's varied sources of tradition in his attempt to promote the idea of a European union and his anxiety over the heritage of Romanticism are capped by a magisterial contribution from Dominic Manganiello showing precisely how Eliot's reformulation of the Dantesque European Epic continues to influence the work of Anglo European and Commonwealth writers.

The Philosophy of Japanese Wartime Resistance David Williams, 2014-04-16. The transcripts of the three Kyoto School roundtable discussions of the theme of the standpoint of world history and Japan may now be judged to form the key source text of responsible Pacific War revisionism. Published in the pages of *Chuo Koron*, the influential magazine of enlightened elite Japanese opinion during the twelve months after Pearl Harbor, these subversive discussions involved four of the finest minds of the second generation of the Kyoto School of philosophy. Tainted by controversy and shrouded in conspiratorial mystery, these transcripts were never republished in Japan after the war and they have never been translated into English except in selective and often highly biased form. David Williams has now produced the first objective, balanced and close interpretative reading of these three discussions in their entirety since 1943. This version of the wartime Kyoto School transcripts is neither a translation nor a paraphrase but a fuller rendering in reader friendly English that is convincingly faithful to the spirit of the original texts. The result is a masterpiece of interpretation and inter cultural understanding between the Confucian East and the liberal West. Seventy years after Tojo came to power, these documents of the Japanese resistance to his wartime government and policies exercise a unique claim on students of Japanese history and thought today because of their unrivalled revelatory potential within the vast literature on the Pacific War. **The Philosophy of Japanese Wartime Resistance** may therefore stand as the most trenchant analysis of the political, philosophic and legal foundations of the place of the Pacific War in modern Japanese history yet to appear in any language.

The Germanization of Early Medieval Christianity James C. Russell, 1996. Discusses German influence on the development of early medieval Christianity.

Finding Europe Anthony Molho, Diogo Ramada Curto, Niki Koniordos, 2007. In the last decade or so many books have been devoted to the history of Europe. Two conceptual axes predominate in a large number of these accounts: a discourse focusing on Europe's values and another discourse fashioned largely in opposition to the first which emphasizes the process of European construction. The first conceives of Europe's past teleologically as a process by which

certain values Christian ethics individualism capitalism tolerance republicanism due process etc were affirmed and came to define European culture The second approach rejects the discourse on values emphasizes the post Enlightenment emergence of the concept of Europe and the political and ideological implications in its continuous redefinitions and re elaborations during the past two or more centuries This volume offers new approaches that integrate the long temporal dimension of the values based approach albeit devoid of its teleological element with the constructivist interpretation The Boundaries of Europe Pietro Rossi, 2015-04-24 Europe s boundaries have mainly been shaped by cultural religious and political conceptions rather than by geography This volume of bilingual essays from renowned European scholars outlines the transformation of Europe s boundaries from the fall of the ancient world to the age of decolonization or the end of the explicit endeavor to Europeanize the world From the decline of the Roman Empire to the polycentrism of today s world the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from mare nostrum to a frontier between nations Scandinavia eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration migratory movements cultural exchanges and war The Boundaries of Europe edited by Pietro Rossi is the first installment in the ALLEA book series Discourses on Intellectual Europe which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region The American Ecclesiastical Review Herman Joseph Heuser, 1946 **The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950** George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries
