**Asia in the Making of Europe** Donald F. Lach,1993 *Jacques Offenbach and the Making of Modern Culture* Laurence Senelick,2017-09-21 Offenbach's operas were a significant force for cultural change both in his own time and in the decades to follow In this book Laurence Senelick demonstrates the ways in which this musical phenomenon took hold globally with Offenbach's work offering an alternative irreverent sexualized view of life which audiences found liberating both personally and socially In the theatre the composer also inspired cutting edge innovations in stagecraft and design and in this book he is recognized as a major cultural influence with an extensive impact on the spheres of literature art film and even politics Senelick argues that Offenbach's importance spread far beyond France and that his provocative and entertaining works often seen as being more style than substance influenced numerous key artists writers and thinkers and made a major contribution to the development of modern society

**The Making of Feudal Agricultures?** Miquel Barceló,François Sigaut,2004-02-01 Was there a discernible set of changes in the techniques of arable farming animal husbandry and their associated technologies at the end of antiquity which marked a clear break with an established ancient world economy and ushered in the new agricultures of the early middle ages Were such changes not already visible in antiquity And what was the impact of political economic social and environmental change in these processes The 6 papers in this volume reject simple evolutionary models charting progress from protohistory to the Roman period to the Dark Ages to the Middle Ages and insisted rather on the notion of inheritance so that the farming economy laid down in protohistoric times continued to exist during the early Middle Ages The collapse of a capitalistic commercial economy of the later Roman Empire though accompanied by political and military crises did not entail a regression of the farming economy The growth in farming in the 8th 9th C resting on a demographic increase combined with intensive land clearance episodes owed much to the preceding centuries the change resides more in an intensification than in the introduction of new features With contributions by Pascal Reigniez Catherine Rommelaere Georges Raepsaet G Comet Aline Durand and Philippe Leveau

***Making Money in Sixteenth-Century France*** Jotham Parsons, 2015-02-06 Coinage and currency abstract and socially created units of value and power were basic to early modern society By controlling money the people sought to understand and control their complex expanding and interdependent world In *Making Money in Sixteenth Century France* Jotham Parsons investigates the creation and circulation of currency in France The royal Cour des Monnaies centralized monetary administration expanding its role in the emerging modern state during the sixteenth century and assuming new powers as an often controversial repository of theoretical and administrative expertise The Cour des Monnaies Parsons shows played an important role in developing the contemporary understanding of money as a source of both danger and opportunity at the center of economic and political life More practically the Monnaies led generally successful responses to the endemic inflation of the era and the monetary chaos of a period of civil war Its work investigating and prosecuting counterfeiters shone light into a picaresque world of those who used the abstract and artificial nature of money for their own ends Parsons's broad multidimensional portrait of money in early modern France also encompasses the literature of the age in which money's arbitrary and dangerous power was a major theme

The Twenty-fourth Edition, Etc** Abel BOYER, 1783      **Oceanic Encounters** Margaret Jolly, Serge Tcherkézoff, Darrell Tryon, 2009-07-01 This volume the result of ongoing collaborations between Australian and French anthropologists historians and linguists explores encounters between Pacific peoples and foreigners during the long duration of European exploration colonisation and

settlement from the sixteenth century to the twentieth century It deploys the concept of encounter rather than the more common idea of first contact for several reasons Encounters with Europeans occurred in the context of extensive prior encounters and exchanges between Pacific peoples manifest in the distribution of languages and objects and in patterns of human settlement and movement The concept of encounter highlights the mutuality in such meetings of bodies and minds whereby preconceptions from both sides were brought into confrontation dialogue mutual influence and ultimately mutual transformation It stresses not so much prior visions of strangers or others but the contingencies in events of encounter and how senses other than vision were crucial in shaping reciprocal appraisals But a stress on mutual meanings and interdependent agencies in such cross cultural encounters should not occlude the tumultuous misunderstandings political contests and extreme violence which also characterised Indigenous European interactions over this period

Josephin Madan Rachilde and Henri de Regnier Several of these authors feature as the lords of islands visited by the pataphysician Dr Faustroll in his curious voyage around Paris In conjunction with Jarry s own works the contemporary livres pairs serve to illustrate the vibrant and experimental atmosphere in which these authors worked
