key crises of our time finance and the environment and identifies strong similarities between the key analytical questions that have been debated in each case

CHENG, 2015-07-10 MAO Zedong was a Chinese communist leader and founder of the People's Republic of China He developed his own ideology and methodology known as Maoism or Mao Zedong Thought and his thought has a great influence in China or even overseas This book aims at bringing together a group of scholars to address the uses of Mao in China PRC today with special reference to the Bo Xilai case It also provides insights and detail on how and what we know about modern China Contributing authors including a number of French scholars illustrate how Maoism influences and engages in government business sector or social life This timely volume will be of considerable interest to scholars journalists and those keen to better understand the changing values in China today Louis Althusser and the Traditions of French Marxism William Lewis, 2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e.g. Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Khrushchev exposed Stalin's atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin's excesses were somehow encouraged or supported through Marx's

thought When in the mid 1960s Louis Althusser first offered his re readings of Marx s philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike Sartre at the end of his life did not abandon communism to for instance existentialism In Louis Althusser and the Traditions of French Marxism William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser s thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns
