Gregor, 2014-02-19 An assessment of the influence of the Marxism of Karl Marx and Friedrich Engels on revolutionary developments in China The work covers the period from the first appearance of the Chinese Communist Party under Mao Zedong until its full transformation by Deng Xiaoping into a nationalist developmental single party developmental dictatorship **The Making of Chicana/o Studies** Rodolfo Acuña, 2011 The Making of Chicana o Studies traces the philosophy and historical development of the field of Chicana o studies from precursor movements to the Civil Rights era to today focusing its lens on the political machinations in higher education that sought to destroy the discipline As a renowned leader activist scholar and founding member of the movement to establish this curriculum in the California State University system which serves as a model for the rest of the country Rodolfo F Acu a has for more than forty years battled the trend in academia to deprive this group of its academic presence The book assesses the development of Chicana o studies an area of studies that has even more value today than at its inception myths about its epistemological foundations have remained uncontested Acu a sets the record straight challenging those in the academy who would fold the discipline into Latino studies shadow it under the dubious umbrella of ethnic studies or eliminate it altogether Building the largest Chicana o studies program in the nation was no easy feat especially in an atmosphere of academic contention In this remarkable account Acu a reveals how California State University Northridge was instrumental in developing an area of study that offers more than 166 sections per semester taught by 26 tenured and 45 part time instructors He provides vignettes of successful programs across the country and offers contemporary educators and students a game plan the

mechanics for creating a successful Chicana o studies discipline and a comprehensive index of current Chicana o studies programs nationwide Latinas os of which Mexican Americans are nearly seventy percent comprise a complex sector of society projected to be just shy of thirty percent of the nation s population by 2050 *The Making of Chicana o Studies* identifies what went wrong in the history of Chicana o studies and offers tangible solutions for the future *Making Histories* CCCS,2013-12-16 First published in 2006 Routledge is an imprint of Taylor Francis an informa company *Louis Althusser and the Traditions of French Marxism* William S. from the beginning came to the conclusion that this ambitious vision could not be realized immediately the financial situation of the member organizations of the ESF also deteriorated making a cautious approach a necessary virtue The solution ultimately adopted by the last of the working parties the Ad Hoc Committee for Comparative Law and submitted to the General Assembly of the ESF in 1979 called for the launching of four pilot projects In November 1980 the Assembly approved detailed plans for two of these projects The first of these dealing with medical responsibility has already been presented in an impressive volume E Deutsch and H L Schreiber editors Medical Responsibility in Western Europe

Making Transformative Geographies Benedikt Schmid, 2020-06-03 In the light of social and environmental unsustainability and injustice the continuing attachment to the idea that a growth based economy is reconcilable with human prosperity and ecological limits seems increasingly implausible Tracing and dissecting the complexities of social change Making Transformative Geographies speaks about the development of visions alternatives and strategies for a radical transformation beyond accumulation and growth Covering an empirical sample of 24 eco social organizations projects and groupings in the city of Stuttgart Germany the book drills down into the social spatial and strategic dimensions of transformation It advances a conceptually and empirically grounded assessment of the possibilities and limitations of community activism and civic engagement for shifting transformative geographies towards a degrowth trajectory

Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does
