**Nineteenth-Century British Literature Then and Now** Simon Dentith, 2016-05-06

Envisioning today s readers as poised between an impossible attempt to read texts as their original readers experienced them and an awareness of our own temporal moment Simon Dentith complicates traditional prejudices against hindsight to approach issues of interpretation and historicity in nineteenth century literature Suggesting that the characteristic aesthetic attitude encouraged by the backward look is one of irony rather than remorse or regret he examines works by Charles Dickens George Eliot Anthony Trollope William Morris and John Ruskin in terms of their participation in significant histories that extend to this day Liberalism class gender political representation and notions of progress utopianism and ecological concern as currently understood can be traced back to the nineteenth century Just as today s critics strive to respect the authenticity of nineteenth century writers and readers who responded to these ideas within their historical world so too do those nineteenth century imaginings persist to challenge the assumptions of the present It is therefore possible Dentith argues to conceive of the act of reading historical literature with an awareness of the historical context and of the difference between the past and the present while allowing that friction or difference to be part of how we think about a text and how it communicates His book summons us to consider how words travel to the reality of the reader s own time and how engagement with nineteenth century writers anticipation of the judgements of future generations reveal hindsight s capacity to transform our understanding of the past in the light of subsequent knowledge

**The Flight of Icarus** James S.

Amelang, 1998-08-01 Exploring autobiographical texts written by European urban craftsmen from the fifteenth to the eighteenth centuries this wide ranging book studies memoirs diaries family chronicles travel narratives and other forms of

personal writings from Spain France Italy Germany and England In the process it considers the motivations of the authors the changing forms and emphases of artisan narratives and more generally the significance of written self expression in early modern popular culture By analyzing reading and writing as practices laden with social meaning this work aims to illuminate the changing role of the lower classes and other groups considered marginal in the history of literature and literacy It uncovers an Icarian logic by which writing about the self and one's immediate and private world developed as a complex response to widely shared expectations regarding the cultural and political subordination of craftsmen and others relegated to the margins of public life and discourse The book also contributes to the contemporary interdisciplinary debate concerning the nature and evolution of autobiographical writing It draws upon those currents within literary studies such as feminist criticism which favor a more flexible approach to the study of first person narrative than that adopted by traditional literary critics and historians of ideas It also argues for revising the standard history of autobiography eschewing the teleological presentation of a small handful of classic texts in favor of a more nuanced trajectory in which a wide range of social actors helped shape the emerging patterns of modern self understanding and expression

**Shame** Bogdan Popa, 2017-04-28 Shame has often been considered a threat to democratic politics and was used to degrade and debase sex radicals and political marginals But certain forms of shame were also embraced by 19th century activists in an attempt to reverse entrenched power dynamics Bogdan Popa brings together Ranciere's techniques of disrupting inequality with a queer curiosity in the performativity of shame to show how 19th century activists denaturalised conventional beliefs about sexuality and gender This study fills a glaring absence in political theory by undertaking a genealogy of radical queer interventions that predate the 20th century
