our interrelation with indeed our inseparability from others with all the care and constraint that entails while accepting difference and conflict as integral to our communion For Nelson thinking publicly through the knots in our culture from recent art world debates to the turbulent legacies of sexual liberation from the painful paradoxes of addiction to the lure of despair in the face of the climate crisis is itself a practice of freedom a means of forging fortitude courage and company On Freedom is an invigorating essential book for challenging times

**Teaching Toward Freedom** William Ayers, 2004 For William Ayers noted educator and activist the allure of teaching that ineffable magic drawing me back to the classroom again and again issues from an ideal that lies directly at its heart Teaching at its best is an enterprise that helps human beings reach the full measure of their humanity In Teaching Toward Freedom Ayers illuminates the hope as well as the conflict that characterize the entire project of education how it can be used in authoritarian and dehumanizing ways in the service of the state the church or a restrictive existing social order an idea he abhors or as he envisions it as an undertaking to help students become more fully human more engaged more participatory more free Drawing on his own classroom experiences and those of his many colleagues as well as on popular culture film poetry and novels Ayers redraws the lines concerning how we teach and why and the surprising things we uncover when we allow students to become visible vocal authors of their own texts and creators of their own lives Committed and aware teachers Ayers argues must endeavor to accomplish two crucial tasks One is to convince students that there is no such thing as receiving an education as a passive receptor or an inert vessel in that direction lies nothing but subservience indoctrination and worse All real education is and must always be self education The second task is to demonstrate to students that they are valued that their humanity is honored and that their growth enlightenment and liberation are the paramount concern We take the side of the student This lucid and inspiring book will help teachers at every level to realize that ideal
