Bushman, 2007-02-13 The eminent historian Richard Bushman here reflects on his faith and the history of his religion By describing his own struggle to find a basis for belief in a skeptical world Bushman poses the question of how scholars are to write about subjects in which they are personally invested Does personal commitment make objectivity impossible Bushman explicitly and at points confessionally explains his own commitments and then explores Joseph Smith and the Book of Mormon from the standpoint of belief Joseph Smith cannot be dismissed as a colorful fraud Bushman argues nor seen only as a restorer of religious truth Entangled in nineteenth century Yankee culture including the skeptical Enlightenment Smith was nevertheless an original who cut his own path And while there are multiple contexts from which to draw an understanding of

Joseph Smith including magic seekers the Second Great Awakening communitarianism restorationism and more Bushman suggests that Smith stood at the cusp of modernity and presented the possibility of belief in a time of growing skepticism When examined carefully the Book of Mormon is found to have intricate subplots and peculiar cultural twists Bushman discusses the book's ambivalence toward republican government explores the culture of the Lamanites the enemies of the favored people and traces the book's fascination with records translation and history Yet Believing History also sheds light on the meaning of Joseph Smith and the Book of Mormon today How do we situate Mormonism in American history Is Mormonism relevant in the modern world Believing History offers many surprises Believers will learn that Joseph Smith is more than an icon and non-believers will find that Mormonism cannot be summed up with a simple label But wherever readers stand on Bushman's arguments he provides us with a provocative and open look at a believing historian studying his own faith

The Raiders and Writers of Cervantes' Archive Paul Kong, 2016-12-05 Within the context of Miguel de Cervantes Saavedra and his influence on Jorge Luis Borges Manuel Puig and Gabriel Marquez Paul Kong brings a variety of theoretical perspectives to bear as he analyzes the concepts of the archive and the manuscript Setting the stage with an exploration of the intricate and intriguing relationship between the archive and the manuscript Kong questions the apparently natural association between the two In the light of Kong s historically contextualized and patient exegesis the ideological nature of the archive evident in its charge to serve as a totalizing habitat stands in contrast with the manuscript that resists attempts to contain it The playful responses of Borges Puig and Marquez as they mine the archive of Cervantes works support the anti colonial dimension of Latin American literature and further problematize the relationship between archive and manuscript The book concludes with a discussion of the future of archival discourse especially in the setting of the virtual reality of the Internet and of globalization Carefully grounded by Kong s close readings and supported by a wealth of astute references and allusions to writers as diverse as Virgil Wordsworth and Dickens The Raiders and Writers of Cervantes Archive is sure to provoke and intrigue Latin American scholars narrative theorists archivists and those interested in issues related to cultural

Building the Body of Christ Daniel C. Cochran, 2020-11-17 In Building the Body of Christ Daniel C Cochran argues that monumental Christian art and architecture played a crucial role in the formation of individual and communal identities in late antique Italy The ecclesiastical buildings and artistic programs that emerged during the fourth and fifth centuries not only reflected Christianity s changing status within the Roman Empire but also actively shaped those who used them Emphasizing the importance of materiality and the body in early Christian thought and practice Cochran shows how bishops and their supporters employed the visual arts to present a Christian identity rooted in the sacred past but expressed in the present through church unity and episcopal authority He weaves together archaeological and textual evidence to contextualize case studies from Rome Aquileia and Ravenna showing how these sites responded to the diversity of early Christianity as expressed through private rituals and the imperial appropriation of the saints Cochran shows how these early ecclesiastical buildings and artistic programs worked in conjunction with the liturgy to

persuade individuals to adopt alternative beliefs practices and values that contributed to the formation of institutional Christianity and the Christianization of late antique Italy
