*The Making of Contemporary Europe* R. Ben Jones, 1980-01-01      **Contemporary Europe** William Outhwaite, 2016-10-04 Europe is one of the most dynamic and interesting areas of the world pioneering in the European Union a new form of governance for half a billion people represented in the world's first directly elected transnational parliament This book situates the European Union in a broader European global historical and geographical context providing a readable presentation of the most important facts and drawing on the theoretical approaches which have transformed the study of contemporary Europe over the past two decades The European Union is still on the road to what has been called an unknown destination and this book presents its economic political legal and social trajectory from the middle of the last century to the present Contemporary Europe covers some of these issues in an interdisciplinary framework aiming to situate the development of the European Union in a broader context of pan European and global processes Europe has been cut down to size but it does not have to become a global backwater and the study of contemporary Europe's institutional reality does not have to be boring The book counters this misperception conveying the essential facts and theories of contemporary European reality in a clear and approachable analysis It will serve as a readable introduction both to the academic field of European studies and to contemporary Europe itself      *The Making of Europe's Critical Infrastructure* P. Högselius, A. Hommels, A. Kaijser, E. van der Vleuten, Erik van der Vleuten, 2013-11-26 Europe's critical infrastructure is a key concern to policymakers NGOs companies and citizens today A 2006 power line failure in northern Germany closed lights in Portugal in a matter of seconds Several Russian Ukrainian gas crises shocked politicians entrepreneurs and citizens thousands of kilometers away in Germany France and Italy This book argues that present day infrastructure vulnerabilities resulted from choices of infrastructure builders in the past It inquires which and whose vulnerabilities they perceived negotiated prioritized and inscribed in Europe's critical infrastructure It does not take Europe for granted but actively investigates which countries and peoples were historically connected in joint interdependency and why In short this collection unravels the simultaneous historical shaping of infrastructure common vulnerabilities and Europe

**Migration and the Crisis of Democracy in Contemporary Europe** Christoph M. Michael, 2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other

Dynamics of Memory and Identity in Contemporary Europe Eric Langenbacher, Bill Niven, Ruth Wittlinger, 2013-03-01 The collapse of the Iron Curtain the renationalization of eastern Europe and the simultaneous eastward expansion of the European Union have all impacted the way the past is remembered in today s eastern Europe At the same time in recent years the Europeanization of Holocaust memory and a growing sense of the need to stage a more self critical memory has significantly changed the way in which western Europe commemorates and memorializes the past The increasing dissatisfaction among scholars with the blanket undifferentiated use of the term collective memory is evolving in new directions This volume brings the tension into focus while addressing the state of

memory theory itself      **Nation and Identity in Contemporary Europe** Brian Jenkins, Spyros A. Sofos, 2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavia and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but constructed forms of social identity whose future will be determined in the social arena      Contemporary European Playwrights Maria M. Delgado, Bryce Lease, Dan Rebellato, 2020-07-22 Contemporary European Playwrights presents and discusses a range of key writers that have radically reshaped European theatre by finding new ways to express the changing nature of the continent's society and culture and whose work is still in dialogue with Europe today Traversing borders and languages this volume offers a fresh approach to analyzing plays in production by some of the most widely performed European playwrights assessing how their work has revealed new meanings and theatrical possibilities as they move across the continent building an unprecedented picture of the contemporary European repertoire With chapters by leading scholars and contributions by the writers themselves the chapters bring playwrights together to examine their work as part of a network and genealogy of writing examining how these plays embody and interrogate the nature of contemporary Europe Written for students and scholars of European theatre and playwriting this book will leave the reader with an understanding of the shifting relationships between the subsidized and commercial the alternative and the mainstream stage and political stakes of playmaking in European theatre since 1989      **Making European Space** Ole Brandt Jensen, Tim Richardson, 2004 Making European Space crystallises and critically examines the key policy ideas emerging in the new field of European spatial planning and explores the arguments surrounding policy themes such as polycentric development sustainability      **Alan S. Milward and Contemporary European History** Fernando Guirao, Frances M.B. Lynch, 2015-10-14 Alan S Milward was a renowned historian of contemporary Europe In addition to his books as well as articles and chapters in edited books he also wrote nearly 250 book reviews and review articles some in French and German which were published in journals world wide Taken together they reveal a remarkable degree of theoretical consistency in his approach to understanding the history of Europe since the French Revolution This book brings together these previously unexamined pieces of historical analysis in order to trace and shed light on key intellectual debates taking place in the second half of the 20th century Many of these discussions continue

to influence us today such as the role of Germany in Europe the economic social and political foundations of European integration the European rescue of the nation state the reasons for launching the single currency the conditions for retaining the allegiance of European citizens to the notions of nation and supra nation and ultimately the issue of democratic governance in a global environment In bringing together these reviews and review articles the book provides an introduction to the main scholarly achievements of Milward in his own words Fernando Guirao and Frances M B Lynch provide an introduction to the volume which both guides the reader through many of the academic debates embedded within the text while underlining their contemporary relevance By introducing and bringing together this hitherto overlooked treasure trove of historical analysis this book maps a close itinerary of some of the most salient intellectual debates of the second half of the 20th century and beyond This unique volume will be of great interest to scholars of economic history European history and historiography

**Multiplicity of Nationalism in Contemporary Europe** Ireneusz Paweł Karolewski, Andrzej Marcin Suszycki, 2010-01-01 Nationalism remains one of the key political societal and socio psychological phenomena in contemporary Europe The international scholars assembled in this edited collection suggest that the use of three perspectives supranationalism boundary making nationalism and regional nationalism may be promising as an explanatory framework for the analysis of nationalism in Europe The volume distances itself from older dichotomies such as civic and ethnic nationalism and questions the one sided normativity of nationalism in particular regarding the concept of liberal nationalism It argues that a promising approach to contemporary nationalism should reflect the multiplicity of nationalism
