

Making An Effective **ADVERTISING** C A M P A I G N

What Is Discontinuity Precisely?

It's the expansion in the number of accessible techniques for getting your message to your crowd.

Try to make sense of who your objective market is, the thing that they need, and what they look like for that data.

Here Are Some Straightforward Advances:

1

Know your crowd

What do they need? Where do they shop? What do they read? How old right? Where do they hang out? Do they need your item or administrations? Would they be able to bear the cost of your item or administrations?

Know your opposition

Beset up to do a little analyst work. What actions are your three fundamental rivals taking to promote? Where are they advertising? Is it accurate to say that you are contacting a similar crowd?

2

3

Know your message

What precisely would you say you are attempting to state? What would your clients like to hear? For what reason would it be a good idea for them to purchase from you, and not another person? Make the most of each word.

Cases in Advertising and Marketing Management Edd Applegate, Art Johnsen, 2006-10-12. Students of advertising and marketing management learn many concepts and theories in their foundational courses, but real-world experiences are invaluable to understanding the decision-making process. *Cases in Advertising and Marketing Management* offers students the opportunity to apply what they have learned in previous courses to realistic situations from the business world. The authors, a professor of advertising and an advertising agency executive, draw on their practical experiences with everyday challenges, ranging from budgets, electronic marketing, IMC, and account strategy to agency politics, overdue client payments, and ethical dilemmas. Each of the forty cases focuses on a contemporary problem or issue for students to identify and analyze, followed by discussion questions to help them work through the case toward a reasonable solution. The final chapters review important themes from the cases and look at several types of advertising and marketing positions often found in agencies or companies. Appropriate for upper-level or capstone courses in advertising and marketing management, this provocative, highly readable text provides students with insight into the situations they will face in their future careers and helps them develop valuable skills for solving problems and making sound decisions.
