Making Of Nazis:

The Making of Adolf Hitler Eugene Davidson, 1997 The harsh Armistice terms of 1918 the short lived Weimar Republic Hindenburg's senile vacillations and behind the scene power plays form the backbone of this excellent study covering German history during the first three and a half decades of the century Publishers website **The Making of Nazis** I. L. Kandel, 1935 *The Making of Nazis* Isaac Leon Kandel, 1979 **Hitler's British Nazis** Norman Ridley, 2024-05-30

Following the end of the First World War many countries experienced economic decline Unemployment high inflation low wages and poor working conditions led to widespread unrest This manifested itself in the rise of powerful militaristic leaders first in Italy where fascism was born and then in Germany and elsewhere The policies of the likes of Mussolini and Hitler were hugely popular and fascism was seen by many as a viable political alternative to democracy To some degree these ideals also gained traction in the UK where some individuals in and among the elite of British society believed fascism was the way forward for the country This is fully explored in *Hitler's British Nazis* which traces the evolution of extreme right wing opinion from the turn of the century right through to the end of the Second World War In particular it looks at the way British fascism developed its own character due to Britain having been on the winning side during the First World War Early fascist movements of the 1920s are analyzed including the fascist tendencies of the Suffragette Movement The book then traces the way in which domestic politics and the dire economic situation of the early 1930s created a political vacuum that was filled by Oswald Mosley and his Blackshirt Movement Throughout the 1930s right wing sympathisers looked to Hitler's Germany rather than to Mussolini's Italy for inspiration Some members of aristocratic and political elites many with virulent anti Semitic views saw in German fascism a template for Britain to build on but remained wilfully blind to the excesses of the Nazi regime that were getting worse by the day The book looks at the way in which Nazi Germany was depicted in the press and how powerful press barons many of whom were pro German and supported Chamberlain's appeasement policies were able to influence public opinion The role of the Mitford sisters Unity in particular is explored in detail as is the influence of the Cliveden Set under the leadership of the Astors and perhaps most interesting of all is the role played by King Edward VIII and Wallis Simpson as they flirted unashamedly with fascism and threatened to take Britain down a very different path to that which it took after the abdication **Nazi Occultism** Stéphane François, 2023-03-14 *Nazi Occultism* provides a serious scholarly study of a topic that is often marred by sensationalism and misinformation The *Morning of the Magicians* by Pauwels and Bergier 1960 gave rise to the idea that a secret society with wide powers the Thule society was the hidden and ignored centre of Nazism The influence of this very real small group is however only a fantasy a myth The author a historian specializing in neo Nazism looks back on this speculative construction its origins its ideological tinkering and the practices which have succeeded in forming a sort of radical and sulphurous counterculture which has created a fascination with esotericism and Nazism and the SS To better understand it he also paints a portrait of some of the authors who contributed

to this extremist subculture such as the Italian esotericist Julius Evola the Argentine anthropologist Jacques Marie de Mahieu Chilean neo Nazi Miguel Serrano and the writer Jean Paul Bourre This book will appeal to scholars researchers and activists as well as general readers with an interest in the history of Nazism and the occult **The Bondian Cold War** Martin D.

War and Seven Small Wars Strategic International Information Operations Research Development and the Future Military PsyWar Operations 1950 53 **The Conquest of Ruins** Julia Hell, 2019-03-19 The Roman Empire has been a source of inspiration and a model for imitation for Western empires practically since the moment Rome fell Yet as Julia Hell shows in *The Conquest of Ruins* what has had the strongest grip on aspiring imperial imaginations isn't that empire's glory but its fall and the haunting monuments left in its wake Hell examines centuries of European empire building from Charles V in the sixteenth century and Napoleon's campaigns of the late seventeenth and early eighteenth centuries to the atrocities of Mussolini and the Third Reich in the 1930s and 40s and sees a similar fascination with recreating the Roman past in the contemporary image In every case particularly that of the Nazi regime the ruins of Rome seem to represent a mystery to be solved how could an empire so powerful be brought so low Hell argues that this fascination with the ruins of greatness expresses a need on the part of would-be conquerors to find something to ward off a similar demise for their particular empire Plots of War Isabel Capeloa Gil, Adriana Martins, 2012-10-30 *Plots of War* Modern Narratives of Conflict discusses the dynamics of change and transformation that underlie the troubled project of modernity and shows how deeply it has been shaped by war and violence The narrative of war the employment of violence in historic and mainly in symbolic terms is deeply embedded in the construction of individual and collective memories but it also helps to shape the mediation of future conflicts What is ultimately at stake here is the complex figuration and mediation of the violence of war in ever more hyper-mediated ways with direct consequences to the production of identities and processes of cultural memory *Race and Racism in Theory and Practice* Berel Lang, 2000 This collection of original essays by scholars from a diverse range of fields examines issues of race in a variety of historical and geographical settings ranging from classical Greece to the contemporary Americas Europe and Asia The authors provide an important perspective on race both in its theoretical origins and in its actual appearances while paying close attention to the ways in which the study of race itself has been carried on or ignored by various disciplines **Censorship** Philip Steele, 1999 One in a series of books on some of today's most controversial issues this book examines all kinds of controls that have been imposed on communications from the first emperor of China who had his critics buried alive to new laws in Europe and North America relating to the Internet It raises questions about secrecy and privacy commercial and political power moral and religious judgements and artistic freedom This series aims to encourage the reader to reach informed and considered opinions **Making History**, 1998
