Making Of The Modern Body:

The Making of the Modern Body Catherine Gallagher, Thomas Laqueur, 2023-09-01 Scholars have only recently discovered that the human body itself has a history Not only has it been perceived interpreted and represented differently in different epochs but it has also been lived differently brought into being within widely dissimilar material cultures subjected to various technologies and means of control and incorporated into different rhythms of production and consumption pleasure and pain The eight articles in this volume support supplement and explore the significance of these insights They belong to a new historical endeavor that derives partly from the crossing of historical with anthropological investigations partly from social historians deepening interest in culture partly from the thematization of the body in modern philosophy especially phenomenology and partly from the emphasis on gender sexuality and women s history that large numbers of feminist scholars have brought to all disciplines Scholars have only recently discovered that the human body itself has a history Not only has it been perceived interpreted and represented differently in different epochs but it has also been lived differently brought into being within widely dissimi

The Making of the Modern Body Catherine Gallagher, Thomas Walter Laqueur, 1987 **Female Patients in Early Modern Britain** Wendy D. Churchill, 2016-04-15 This investigation contributes to the existing scholarship on women and medicine in early modern Britain by examining the diagnosis and treatment of female patients by male professional medical practitioners from 1590 to 1740 In order to obtain a clearer understanding of female illness and medicine during this period this study examines ailments that were specific and unique to female patients as well as illnesses and conditions that afflicted both female and male patients Through a qualitative and quantitative analysis of practitioners records and patients writings such as casebooks diaries and letters an emphasis is placed on medical practice Despite the prevalence of females amongst many physicians casebooks and the existence of sex based differences in the consultations diagnoses and treatments of patients there is no evidence to indicate that either the health or the medical care of females was distinctly disadvantaged by the actions of male practitioners Instead the diagnoses and treatments of women were premised on a much deeper and more nuanced understanding of the female body than has previously been implied within the historiography In turn their awareness and appreciation of the unique features of female anatomy and physiology meant that male practitioners were sympathetic and accommodating to the needs of individual female patients during this pivotal period in British medicine

Modern Historiography Michael Bentley, 2005-08-19 Modern Historiography is the essential introduction to the history of historical writing It explains the broad philosophical background to the different historians and historical schools of the modern era from James Boswell and Thomas Carlyle through to Lucien Febure and Eric Hobsbawm and surveys the Enlightenment and Counter Enlightenment Romanticism the voice of Science and the process of secularization within Western intellectual thought the influence of and broadening contact with the New World the Annales school in France Postmodernism Modern Historiography provides a clear and

concise account of this modern period of historical writing *Homosexuality in Modern France* Bryant T. Ragan,1996

Research in the Field of Gay and Lesbian Studies has exploded in recent years but the books published to date focus more on literary than historical issues and concentrate more on the United States and Great Britain than the rest of the world Given the role of gays and lesbians in modern French culture not to mention the importance of the work of French scholars on the history of sexuality France has been underrepresented in recent publications on both sides of the Atlantic This exciting collection is the first attempt in any language to explore this subject over three centuries from a variety of perspectives Based on archival research textual analysis *Homosexuality in Modern France* examines the realities and representations of same sex sexuality in France in the eighteenth nineteenth and twentieth centuries the period that witnessed the emergence of homosexuality in the modern sense of the world **Writing History in the Age of Biomedicine** Roger Cooter,Claudia Stein,2013-06-18 DIV A noted medical historian explores the roles played by various intellectual frameworks and trends in the writing of history div Language and Revolution Igal Halfin,2004-08-02 This work examines the role of language in forging the modern subject Focusing on the idea of the New Man that has animated all revolutionaries the present volume asks what it meant to define oneself in terms of one's class origins gender national belonging or racial origins Culture, Sport, and Physical Activity Karin A. E. Volkwein-Caplan,2004 Dealing with different aspects of movement sports and physical activity this text examines the effects such activities has on our culture and the benefits of participation

Aphrodisiacs, Fertility and Medicine in Early Modern England Jennifer Evans,2014 An investigation into aphrodisiacs challenges pre conceived ideas about sexuality during this period *Making Modern Mothers* Rachel Thomson,2011 An exciting and timely book documenting the transition to motherhood over generations and time **Sappho in Early Modern England** Harriette Andreadis,2001-07-02 In *Sappho in Early Modern England* Harriette Andreadis examines public and private expressions of female same sex sexuality in sixteenth and seventeenth century England Before the language of modern sexual identities developed a variety of discourses in both literary and extraliterary texts began to form a lexicon of female intimacy Looking at accounts of non normative female sexualities in travel narratives anatomies and even marital advice books Andreadis outlines the vernacular through which a female same sex erotics first entered verbal consciousness She finds that respectable women of the middle classes and aristocracy who did not wish to identify themselves as sexually transgressive developed new vocabularies to describe their desires women that we might call bisexual or lesbian referred to in their day as tribades fricatrices or rubsters emerged in erotic discourses that allowed them to acknowledge their sexuality and still evade disapproval *Making Modern Science* Peter J. Bowler,Iwan Rhys Morus,2010-02-24 The development of science according to respected scholars Peter J Bowler and Iwan Rhys Morus expands our knowledge and control of the world in ways that affect but are also affected by society and culture In *Making Modern Science* a text designed for introductory college courses in the history of science and as a single volume introduction for the general reader Bowler and

Morus explore both the history of science itself and its influence on modern thought Opening with an introduction that explains developments in the history of science over the last three decades and the controversies these initiatives have engendered the book then proceeds in two parts The first section considers key episodes in the development of modern science including the Scientific Revolution and individual accomplishments in geology physics and biology The second section is an analysis of the most important themes stemming from the social relations of science the discoveries that force society to rethink its religious moral or philosophical values Making Modern Science thus chronicles all major developments in scientific thinking from the revolutionary ideas of the seventeenth century to the contemporary issues of evolutionism genetics nuclear physics and modern cosmology Written by seasoned historians this book will encourage students to see the history of science not as a series of names and dates but as an interconnected and complex web of relationships between science and modern society The first survey of its kind Making Modern Science is a much needed and accessible introduction to the history of science engagingly written for undergraduates and curious readers alike

Making Modern Lives Julie McLeod, Lyn Yates, 2006-05-18 Examines the effects of schooling on young people's values choices and identities

Making Modern Mothers Heather Paxson, 2004-02-12 In Greece women speak of mothering as within the nature of a woman But this durable association of motherhood with femininity exists in tension with the highest incidence of abortion and one of the lowest fertility rates in Europe In this setting how do women think of themselves as proper individuals mothers and Greek citizens In this anthropological study of reproductive politics and ethics in Athens Greece Heather Paxson tracks the effects of increasing consumerism and imported biomedical family planning methods showing how women's nature is being transformed to meet crosscutting claims of the contemporary world Locating profound ambivalence in people's ethical evaluations of gender and fertility control Paxson offers a far reaching analysis of conflicting assumptions about what it takes to be a good mother and a good woman in modern Greece where assertions of cultural tradition unfold against a backdrop of European Union integration economic struggle and national demographic anxiety over a falling birth rate

Making Modern Medical Ethics Robert Baker, 2024-02-20 The little known stories of the people responsible for what we know today as modern medical ethics In Making Modern Medical Ethics Robert Baker tells the counter history of the birth of bioethics bringing to the fore the stories of the dissenters and whistleblowers who challenged the establishment Drawing on his earlier work on moral revolutions and the history of medical ethics Robert Baker traces the history of modern medical ethics and its bioethical turn to the moral insurrections incited by the many unsung dissenters and whistleblowers African American civil rights leaders Jewish Americans harboring Holocaust memories feminists women and Anglo American physicians and healthcare professionals who were veterans of the World Wars the Cold War and the Vietnam War The standard narrative for bioethics typically emphasizes the morally disruptive medical technologies of the latter part of the twentieth century such as the dialysis machine the electroencephalograph and the ventilator as they created the need to reconsider traditional notions

of medical ethics Baker however tells a fresh narrative one that has historically been neglected e g the story of the medical veterans who founded an international medical organization to rescue medicine and biomedical research from the scandal of Nazi medicine and also reveals the penalties that moral change agents paid e g the stubborn bureaucrat who was demoted for her insistence on requiring and enforcing research subjects informed consent Analyzing major statements of modern medical ethics from the 1946 1947 Nuremberg Doctors Trials and Nuremberg Code to A Patient s Bill of Rights Making Modern Medical Ethics is a winning history of just how respect and autonomy for patients and research subjects came to be codified

Making Modern Science, Second Edition Peter J. Bowler, Iwan Rhys Morus, 2020-08-17 In this new edition of the top selling coursebook seasoned historians Peter J Bowler and Iwan Rhys Morus expand on their authoritative survey of how the development of science has shaped our world Exploring both the history of science and its influence on modern thought the authors chronicle the major developments in scientific thinking from the revolutionary ideas of the seventeenth century to contemporary issues in genetics physics and more Thoroughly revised and expanded the second edition draws on the latest research and scholarship It also contains two entirely new chapters one that explores the impact of computing on the development of science and another that shows how the West used science and technology as tools for geopolitical expansion Designed for entry level college courses and as a single volume introduction for the general reader Making Modern Science presents the history of science not as a series of names and dates but as an interconnected and complex web of relationships joining science and society

Bodies of the Text Ellen W. Goellner, Jacqueline Shea Murphy, 1995 Dance and literary studies have traditionally been at odds dancers and dance critics have understood academic analysis to be overly invested in the mind at the expense of body signification literary critics and theorists have seen dance studies as anti theoretical even anti intellectual Bodies of the Text is the first book length study of the interconnections between the two arts and the body of writing about them The essays by scholar critics of dance and literature explore dances actual and fictional to offer powerful new insights into issues of gender race ethnicity popular culture feminist aesthetics historical embodiment identity politics and narrativity The general introduction traces the genealogy of dance studies in the academy to suggest why critical and theoretical attention to dance and dance s challenges to writing is both compelling and overdue A milestone in interdisciplinary studies Bodies of the Text opens both its fields to new inquiry new theoretical precision and to new readers and writers

Sexuality and Modern Western Culture Carolyn Janice Dean, 1996 In this study Carolyn J Dean focuses on the transformation of sexuality and its changing role in gender relations politics and culture In Dean s view a history of sexuality by necessity is a history of the changing relationship between sex and gender that is between our anatomy and our cultural expectations of what it means to be a man or woman Dean examines how turn of the century concerns about deviant sexual behavior and the changing role of women in society led to a radical restructuring of sex gender connections in the early part of the 20th century Her review of debates on pornography obscenity homosexuality and

the role of women demonstrates how many of the pressing issues from the beginning of this century continue to haunt us at its end Sexuality and Modern Western Culture makes a significant contribution to the nascent field of sexuality studies bringing an innovative feminist approach to the current discussion of the body and the modern self Dean s study is clear concise and comprehensive It combines empirical research theoretical sophistication and historiographical contextualization showing how cultural and intellectual history can be combined to illuminate an important and complex topic of pressing moral political and aesthetic concern
