understood as photographic in nature such as shopping for a camera reading photography magazines and even preserving one's pictures in albums These very activities promoted and sponsored by the industry embedded the camera in everyday life as both a consumer object and a technology for understanding modernity making it the irresistible enterprise that Eastman encountered in his first visit to Japan in 1920 when he remarked that the Japanese people were almost as addicted to the Kodak habit as ourselves NIH Publication ,1980 **TC Publication** ,1968 *University of Michigan Official Publication* , **American Photo** ,1998-05 Popular Photography - ND ,1951-11 **Monthly Catalog of United States Government Publications** ,1988 *Publication* Honolulu Academy of Arts,1928 Encyclopedia of Nineteenth-Century Photography John Hannavy,2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide The People's magazine ,1867
