Browning, Victorian Poetics and the Romantic Legacy Dr Britta Martens,2013-05-28 Taking an original approach to Robert Browning s poetics Britta Martens focuses on a corpus of relatively neglected poems in Browning s own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning s detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet s highly self conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self reference *Browning: Men and Women and other Poems* J.R. Watson,1974-01-01 Each Macmillan Casebook concerns a classic of English literature or significant modern work Occasional volumes in the series will deal with closely related works Each casebook brings together the best of modern criticism along with a generous selection of earlier reviews and comment and any useful information that readers might need The introduction discusses the critical reputation of the work from the time of its publication to the present day Each volume aims to give its readers a heightened sense of the interest and vitality of the work under discussion and of the value of a

critical response *A Systematic Geography of Asia* George William Webb, 1910 *Browning's Beginnings* Herbert F. Tucker Jr., 1980-12-31 *Browning's Beginnings* was first published in 1980 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions *Browning's Beginnings* offers a fresh approach to the poet who among major Victorians has proved at once the most congenial and most inscrutable to modern readers Drawing on recent developments in literary theory and in the criticism of romantic poetry Herbert F Tucker Jr argues that Browning's stylistic obscurity is the result of a principled poetics of evasion This art of disclosure in deferring formal and semantic finalities constitutes an aesthetic counterpart to his open ended moral philosophy of incompleteness Browning's poems like his enormously productive career find their motivation and sustenance in his optimistic love of the future a love that is indistinguishable from his lifelong fear that there will be nothing left to say The opening chapters trace the workings of Browning's art of disclosure with extensive and original interpretations of the unduly neglected early poems *Pauline Paracelsus* and *Sordello* and place special emphasis on Browning's attitudes toward poetic tradition and language A chapter on Browning's attitudes toward poetic tradition and language A chapter on Browning's plays identifies dynamics of representation in *Pippa Passes* *Strafford* and *King Victor and King Charles* Tucker discusses the pervasive analogy between Browning's ideas about poetic representation and about representation in its erotic and religious aspects and shows how the early poems and plays illustrate correlative developments in poetics and in the exploration and dramatic rendering of human psychology The remaining chapters follow the poetic psychology of Browning to its culmination in the great poems of his middle years exemplary readings of selected dramatic lyrics and monologues suggest that the ways of meaning in Browning's mature work variously bear out the sense of endlessness or perpetual initiation that is central to his poetic beginnings Tucker thus contends that the romantic and the Victorian Browning have more in common than is generally supposed and his book should appeal to students of both periods Its discussion of general literary issues poetic influence closure representation and meaning in application to particular texts should further recommend *Browning's Beginnings* to the nonspecialist reader interested in poetry and poetic theory

Robert Browning: Selected Poems John Woolford, Daniel Karlin, Joseph Phelan, 2013-11-19 Robert Browning 1812-1889 was one of the defining figures of the Victorian age Famous in his lifetime for his elopement and marriage to Elizabeth Barrett his critical reputation grew steadily in the years following her early death Browning's mastery of dramatic verse was evident throughout his career from such chillingly unforgettable monologues as *My Last Duchess* and *Porphyria* to the mature work included in his collection *Dramatis Personae* This selection chosen by leading scholars reveals the innovation complexity and profound psychological insight that have ensured Browning's enduring reputation and his continuing appeal to readers today *Browning Selected Poems* results from a completely fresh appraisal of the canon text and context of the writer's work The poems are presented in the order of their composition and in the text in which they were first published

giving a unique insight into the development of Browning's art. An introduction and chronology offer useful background material whilst annotations and headnotes provide details of composition, publication sources and contemporary reception. This authoritative yet accessible selection should become the first point of reference for scholar, student and general reader alike. **Whitaker's Cumulative Book List**, 1979 *Rhythm and Will in Victorian Poetry* Matthew Campbell, 1999-04-22

In *Rhythm and Will in Victorian Poetry* first published in 1999, Matthew Campbell explores the work of four Victorian poets: Tennyson, Browning, Hopkins and Hardy, as they show a consistent and innovative concern with questions of human agency and will. The Victorians saw the virtues attendant upon a strong will as central to themselves and to their culture, and Victorian poetry strove to find an aesthetic form to represent this sense of the human will. Through close study of the metre, rhyme and rhythm of a wide range of poems including monologue, lyric and elegy, Campbell reveals how closely technical questions of poetics are related in the work of these poets to issues of psychology, ethics and social change. He goes on to discuss more general questions of poetics and the implications of the achievement of the Victorian poets in a wider context, from Milton through Romanticism and into contemporary critical debate.
