*Metropolitan Visitations* Peter Van Oort Keers,1997      **The Metropolitan Visitations of William Courtenay, Archbishop of Canterbury, 1381-1396** ,1949      **On the Restoration of the Office of Metropolitan in the Scottish Church** John Comper,1884      **Episcopal Visitation of Monasteries in the Thirteenth Century** Christopher Robert Cheney,1983      *Cantuar* Edward Carpenter,1997-01-01 Celebrating the 1500th anniversary of the arrival of St Augustine in Britain in 497 this revised edition provides a history of the archbishops of Canterbury from Augustine to the present day The final chapter gives a new perspective from 1988 when the bishops last met at the Lambeth Conference      *A People's Reformation* Lucy Moffat Kaufman,2023-04-15 The Elizabethan settlement and the Church of England that emerged from it made way for a theological reformation an institutional reformation and a high political reformation It was a reformation that changed history birthed an Anglican communion and would eventually launch new wars new language and even a new national identity *A People s Reformation* offers a fundamental reinterpretation of the English Reformation and the roots of the Church of England Drawing on archival material from across the United States and Britain Lucy Kaufman examines the growing influence of state authority and the slow building of a robust state church from the bottom up in post Reformation England Situating the people of England at the heart of this story the book argues that while the Reformation shaped everyday lives it was also profoundly shaped by them in turn England became a Protestant nation not in spite of its people but through their active social political and religious participation in creating a new church in England *A People s Reformation* explores this world from the pews reimagining the lived experience and fierce negotiation of church and state in the parishes of Elizabethan England It places ordinary people at the centre of the local cultural and political history of the Reformation and its remarkable transformative effect on the world      *Anatomy Of Madness Vol 2* W F Bynum,Michael Shepherd,Roy Porter,2018-10-24 This is a collection of essays on the history of Psychiatry Volume II of three offers works around the institutions and society from the eighteenth century to 1917 Most of the papers in these volumes arose from a seminar series on the history of psychiatry and a one day seminar on the same theme held at the Wellcome Institute for the History of Medicine London during the academic year 1982 83      **The Anatomy of Madness** William F. Bynum,Roy Porter,Michael Shepherd,2004      *A Dictionary of Christian Antiquities: Kal-Zoe* William Smith,Samuel Cheetham,1880      *The Detection of Heresy in Late Medieval England* Ian Forrest,2005-10-20 Heresy was the most feared crime in the medieval moral universe By examining the drafting publicizing and implementing of new laws against heresy in the 14th and 15th centuries this text presents a general study of inquisition in medieval England      **The Landscape of Pastoral Care in 13th-Century England** William H. Campbell,2017-12-21 The thirteenth century was a crucial period of reform in the English church during which the church s renewal initiatives transformed the laity The vibrant lay religious culture of late medieval England cannot be understood without considering the re invigorated pastoral care that developed between 1200

and 1300 Even before Innocent III called the Fourth Lateran Council of 1215 reform minded bishops and scholars were focusing attention on the local church emphasising better preaching and more frequent confession This study examines the processes by which these clerical reforms moulded the lay religiosity of the thirteenth century integrating the different aspects of church life so often studied separately and combining a broad investigation of the subject with a series of comparative case studies William H Campbell also demonstrates how differences abounded from diocese to diocese town to country and parish to parish shaping the landscape of pastoral care as a complex mosaic of lived religion The German Episcopacy and the Implementation of the Decrees of the Fourth Lateran Council, 1216-1245 Paul B. Pixton, 1995 This comprehensive study of efforts by the German episcopacy to effect reform in the spirit of the Fourth Lateran Council 1215 reveals both enthusiasm for and indifference to the injunctions of Pope Innocent III who sought through the Council and the ensuing activities of the episcopacy a regeneration of the medieval Church **The Life and Times of William Laud, Lord Archbishop of Canterbury** John Parker Lawson, 1829 The Life and Times of William Laud, D. D., Lord Archbishop of Canterbury John Parker Lawson, 1829 *The life and times of William Laud* John Parker Lawson, 1829 **Inquisitions and Other Trial Procedures in the Medieval West** H.A. Kelly, 2024-10-28 Inquisition was the new form of criminal procedure that was developed by the lawyer pope Innocent III and given definitive form at the Fourth Lateran Council of 1215 It has since developed a notoriety which has obscured the reality of the procedure and it is this that Professor Kelly is first concerned with here In contrast to the old Roman system of relying on a volunteer accuser prosecutor who would be punished in case of acquittal the inquisitorial judge himself served as investigator accuser prosecutor and final judge A probable cause requirement and other safeguards were put in place to protect the rights of the defendant but as time went on some of these defences were modified abused or ignored most notoriously among papally appointed heresy inquisitors but in all cases appeal and redress were at least theoretically possible Unlike continental practice in England inquisitorial procedure was mainly limited to the local church courts while on the secular side native procedures developed most notably a system of multiple investigators accusers judges known collectively as the jury Private accusers however were still to be seen illustrated here in the final pair of studies on appeals of sexual rape *Trustworthy Men* Ian Forrest, 2018-07-10 The medieval church was founded on and governed by concepts of faith and trust but not in the way that is popularly assumed Offering a radical new interpretation of the institutional church and its social consequences in England Ian Forrest argues that between 1200 and 1500 the ability of bishops to govern depended on the cooperation of local people known as trustworthy men and shows how the combination of inequality and faith helped make the medieval church Trustworthy men in Latin viri fidei digni were jurors informants and witnesses who represented their parishes when bishops needed local knowledge or reliable collaborators Their importance in church courts at inquests and during visitations grew enormously between the thirteenth and fifteenth centuries The church had to trust these men and this trust rested on the complex and

deep rooted cultures of faith that underpinned promises and obligations personal reputation and identity and belief in God But trust also had a dark side For the church to discriminate between the trustworthy and untrustworthy was not to identify the most honest Christians but to find people whose status ensured their word would not be contradicted This meant men rather than women and usually the wealthier tenants and property holders in each parish Trustworthy Men illustrates the ways in which the English church relied on and deepened inequalities within late medieval society and how trust and faith were manipulated for political ends
