The Postal Revolution Juraj Kittler, 2025-07-03 This monograph explores the impact of expanding long distance communication networks on business politics diplomacy international law and personal freedom Trailblazed initially by pedestrian and later also mounted couriers in the context of Italy postal operations were first and foremost at the heart of the commercial revolution that transformed late medieval banking and commerce In their next stage they were also essential to the formation of centralized states and early modern diplomacy Expanding access to postal services during the Renaissance was likewise instrumental to the inception of the Republic of Letters while travel by the posts fostered personal mobility The emergence of the earliest postal networks is therefore presented in this volume as the opening stage of an entire series of subsequent communications revolutions that ushered in the modern era

Augustin Pajou James David Draper, Augustin Pajou, Guilhem Scherf, 1997 This examination concentrates on the beginnings of Neoclassicism and explores the philosophical and scientific underpinnings of the Enlightenment in which Pajou

played an important part The Tudors: Art and Majesty in Renaissance England Elizabeth Cleland, Adam Eaker, Marjorie E. Wieseman, Sarah Bochicchio, 2022-10-03 This fascinating new look at the artistic legacy of the Tudors reveals the dynasty's enduring influence on the arts of Renaissance England and beyond Ruling successively from 1485 through 1603 the five Tudor monarchs brought seismic changes to England that reverberated throughout Europe They used the arts to legitimize and glorify their tumultuous rule from Henry VII's bloody rise to power through Henry VIII's breach with the Roman Catholic Church to the reign of the Virgin Queen Elizabeth I With incisive scholarship and sumptuous new photography this book explores the extreme politics and outsize personalities of the Tudors and how they used art in their diplomacy at home and abroad Tudor courts were truly cosmopolitan attracting top artists and artisans from across Europe At the same time the Tudors nurtured local talent and gave rise to a distinctly English aesthetic one that is forever connected to the myth and visual legacy of their dynasty The Tudors reveals the true history behind a family that has long captured the public imagination bringing to life their extravagant and politically precarious world through the exquisite paintings lush textiles gleaming metalwork and countless luxury objects that adorned their spectacular courts *Art And The Committed Eye* Richard Leppert, 2019-04-05 In *Art and the Committed Eye* Richard Leppert examines Western European and American art from the fifteenth to the twentieth century He studies the complex relation between the look of images and the variety of social and cultural uses to which they are put and demonstrates that the meaning of any image is significantly determined by its function which changes over time In particular he emphasizes the ways in which visual culture is called on to mediate social differences defined by gender class and race In Leppert addresses the nature and task of representation discussing how meaning accrues to images and what role vision and visibility play in the history of modernity Here he explains imagery's power to attract our gaze by triggering desire and focuses on the long history of the use of representation to enact a deception whether in painting or advertising explores art's relation to the material world to the ways in which images mark our various physical and psychic ties to objects The author analyzes still life paintings whose subject matter is both extraordinarily diverse and deeply paradoxical from flower bouquets to grotesque formal arrangements of human body parts Leppert demonstrates that even in innocent still lifes formal design and technical execution are imbued with cultural conflict and social power is devoted to the representation of the human body as subject to obsessive gazing and as an object of display spectacle and transgression The variety of body representation is enormous pleased or tortured gorgeous or monstrous modest or lascivious powerful or weak in the bloom of life or under the anatomist's knife clothed or naked But it is the sexual body Leppert shows that has provided the West with its richest most complex contradictory conflicted and paradoxical accounts of human identity in relation to social ideals Drawings from the Age of Bruegel, Rubens, and Rembrandt William W. Robinson, 2016-08-02 This superb book presents 100 notable examples from the Harvard Art Museums distinguished collection of Dutch Flemish and Netherlandish drawings from the 16th to 18th century Featuring such masters

as Pieter Bruegel the Elder Peter Paul Rubens and Rembrandt van Rijn the volume showcases beautiful color illustrations accompanied by insightful commentary on prevalent styles and techniques Genres that define this artistic period landscape scenes of everyday life portraiture and still life are explored in detail The book also presents the results of new conservation and technical study including infrared analysis and scientific examinations of drawing materials This revelatory new research has allowed previously illegible underdrawings and inscriptions in many of the artworks to surface for the first time shedding light on longstanding mysteries of production and provenance

Seeds of Western Culture: Universal Chronology, the Exodus and Archilochus' Odyssey Graham Peter Scott, 2025-01-01 The book rediscovers two of the main seeds of Western Culture the Exodus and the Odyssey which are entwined within the book by both a common link with Egypt and a review of ancient chronology They were both antecedents to the rise of Christianity which is at the heart of Western Culture It was inspired by a desire to understand the spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home The book is written in five parts Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal's reference to Shoshenq's participation in the Battle of Qarqar the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes The Exodus Using the Universal Chronology and genealogical information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards modern astrology

The Caesar of Paris Susan Jaques, 2018-12-04 Napoleon is one of history's most fascinating figures But his complex relationship with Rome both with antiquity and his contemporary conflicts with the Pope and Holy See have undergone little examination In The Caesar of Paris Susan Jaques reveals how

Napoleon's dueling fascination and rivalry informed his effort to turn Paris into the new Rome Europe's cultural capital through architectural and artistic commissions around the city His initiatives and his aggressive pursuit of antiquities and classical treasures from Italy gave Paris much of the classical beauty we know and adore today Napoleon had a tradition of appropriating from past military greats to legitimize his regime Alexander the Great during his invasion of Egypt Charlemagne during his coronation as emperor even Frederick the Great when he occupied Berlin But it was ancient Rome and the Caesars that held the most artistic and political influence and would remain his lodestars Whether it was the Arc de Triomphe the Venus de Medici in the Louvre or the gorgeous works of Antonio Canova Susan Jaques brings Napoleon to life as never before

Arts of Allusion Margaret S. Graves, 2018-07-31 The art of the object reached unparalleled heights in the medieval Islamic world yet the intellectual dimensions of ceramics metalwares and other plastic arts in this milieu have not always been acknowledged Arts of Allusion reveals the object as a crucial site where pre modern craftsmen of the eastern Mediterranean and Persianate realms engaged in fertile dialogue with poetry literature painting and perhaps most strikingly architecture Lanterns fashioned after miniature shrines incense burners in the form of domed monuments earthenware jars articulated with arches and windows inkwells that allude to tents through close studies of objects from the ninth to the thirteenth centuries this book reveals that allusions to architecture abound across media in the portable arts of the medieval Islamic world Arts of Allusion draws upon a broad range of material evidence as well as medieval texts to locate its subjects in a cultural landscape where the material visual and verbal realms were intertwined Moving far beyond the initial identification of architectural types with their miniature counterparts in the plastic arts Margaret Graves develops a series of new frameworks for exploring the intelligent art of the allusive object These address materiality representation and perception and examine contemporary literary and poetic paradigms of metaphor description and indirect reference as tools for approaching the plastic arts Arguing for the role of the intellect in the applied arts and for the communicative potential of ornament Arts of Allusion asserts the reinstatement of craftsmanship into Islamic intellectual history

"Fashion & Virtue: Textile Patterns and the Print Revolution, 1520-1620" The Metropolitan Museum of Art Bulletin, v. 73, no. 2 (Fall, 2015) Femke Speelberg, 2015-11-24 This Bulletin discusses the Met's extensive collection of Renaissance textile pattern books used primarily by women to embroider clothes and accessories The practice of embroidery was seen as a virtuous endeavor and textile pattern books published with great frequency from the 1520s onward were designed to inspire instruct and encourage beautiful and virtuous women in this esteemed practice Straddling the disciplines of early printmaking ornament design and textile decoration these works help shed light on the crucial period when the concept of fashion as a means of distinguishing individual identity became fixed in Western society

To Scale Joan Kee, Emanuele Lugli, 2016-03-07 This innovative new volume offers an in depth exploration of scale one of the most crucial elements in the creation and reception of art Illustrates how scale has compelled audiences to rethink the significance and importance of specific works of art Takes a comparative

art historical approach exploring issues of scale in an array of forms from Islamic architecture to contemporary photography A global consideration of scale with examples of work from ancient Egypt eighteenth century Korea and contemporary Europe The newest addition to the Art History Special Issue Book Series Albrecht Dürer and the Epistolary Mode of Address Shira Brisman, 2017-01-20 Art historians have long looked to letters to secure biographical details clarify relationships between artists and patrons and present artists as modern self aware individuals This book takes a novel approach focusing on Albrecht Dürer Shira Brisman is the first to argue that the experience of writing sending and receiving letters shaped how he treated the work of art as an agent for communication In the early modern period before the establishment of a reliable postal system letters faced risks of interception and delay During the Reformation the printing press threatened to expose intimate exchanges and blur the line between public and private life Exploring the complex travel patterns of sixteenth century missives Brisman explains how these issues of sending and receiving informed Dürer's artistic practices His success she contends was due in large part to his development of pictorial strategies an epistolary mode of address marked by a direct intimate appeal to the viewer an appeal that also acknowledged the distance and delay that defers the message before it can reach its recipient As images often in the form of prints coursed through an open market and artists lost direct control over the sale and reception of their work Germany's chief printmaker navigated the new terrain by creating in his images a balance between legibility and concealment intimacy and public address **Language in the Visual Arts** Leslie Ross, 2014-05-23 This book discusses text and image relationships in the history of art from ancient times to the contemporary period across a diversity of cultures and geographic areas Focusing on the use of words in art and words as art forms thematic chapters include Pictures in Words Words in Pictures Word Picture Puzzles Picture Word Puzzles Words as Images The Power of the Word and Monumental and Moving Words Chapter subsections further explore cross cultural themes Examining text and image relationships from the obvious to the elusive the puzzling to the profound the minor to the major the book demonstrates the diverse ways in which images and writing have been combined through the ages and explores the interplay between visual and written communication in a wide range of thought provoking examples A color insert is included Instructors considering this book for use in a course may request an examination copy here
