Frank,2022-11-17 This book explores the collaborations during the mid 20th century between the Metropolitan Museum of Art and the Book of the Month Club Between 1948 and 1962 the two institutions collaborated on three book projects The Metropolitan Museum of Art Miniatures 1948 1957 The Metropolitan Seminars in Art 1958 60 and a print reproduction of Rembrandt s Aristotle Contemplating the Bust of Homer 1962 bringing art from the Met s collections right into the homes of subscribers The Met and the Masses places these commercial enterprises in a variety of contemporary and historical contexts including the relation of cultural education to democracy in America the history of the Met as an educational institution the rise of art education in postwar America and the concurrent transformation of the home into a space that mediated familial privacy and the public sphere Using never before published archival material the book demonstrates how the Met sought to bring art to the masses in postwar America whilst upholding its reputation as an institution of high culture It is essential reading for scholars researchers and curators interested in the history of modern art museum and curatorial studies arts and cultural management heritage studies as well as the history of art publications The National Union Catalog, Pre-1956 Imprints ,1968 **The Bulletin of the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.),1914 New ser v 6 29 include 77th 100th Annual report of the Trustees of the Metropolitan Museum of Art 1946 1969 70 previously and subsequently published separately **The Thun-Hohenstein Album** Chassica Kirchhoff,2023 The first extensive study of the depiction of the armour in the Thun Hohenstein Album against the vibrant artistic and cultural contexts that created it In late medieval and early modern Europe armour was more than a defensive technology for war or knightly sport Its diverse types formed a complex visual language Luxury armour was fitted precisely to a wearer s body and its memorable details declared his status Empty armour could evoke an owner s physical presence prompting recollection of knightly personae glittering pageantry and impressive feats of arms Its mnemonic power persisted long after the battle had ended the trumpets had gone silent and the dust had settled in the tournament arena Previously believed to contain preliminary designs sketched by master armourers the Thun Hohenstein album is a bound collection of drawings by professional book painters depicting some of the most artistically and technologically innovative armours of the fifteenth and sixteenth centuries Like a paper version of the princely armories that

first formed during the 1500s the album's images offered rich sites of meaning and memory Their organization within the codex suggests the images' significance to their compiler At the same time the composition and details allow the reader to trace the transmission of recognizable armours and the memories they embodied from the anvil to the page This book is the first to examine the album and the armor it depicts in their vibrant artistic and cultural context In five thematic chapters it moves from case studies of these drawings to explore the album's complex intersections with the genres of martial history material culture and literature It also reveals the album's participation in cultures of remembrance that carried mythic knightly personae constructed around powerful Habsburg princes forward in time from the Middle Ages into the early modern era from the courts of the Holy Roman Empire to emerging urban audiences *Old Master Drawings from the Museum of Art, Rhode Island School of Design* Rhode Island School of Design. and art during this century Included are the intense debates between traditionalists and reformers the creation of the first art schools and the birth of the idea shocking in ethnocentric China that art is a world language that obliterates all frontiers The scholarly traditions of classical Chinese painting the belated discovery of Western modernism the artistic upheaval under Communism and China s rethinking of the very nature of art all have a place in Sullivan s fascinating history Michael Sullivan has known many of the major figures in China s modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring This long awaited book richly documented and abundantly illustrated is a capstone to Sullivan s work and will be enthusiastically welcomed by art lovers everywhere
