Metternich's Europe 1813-1848:

Metternich's Europe Mack Walker, 1968 *Europe's Balance of Power, 1815-1848* Alan Sked, 1979 **A Student's Note-book of European History, 1789-1848** J. S. Lindsey, 1904 **The Age of Metternich** Arthur James May, 1933

Mastering Modern European History Stuart Miller, 2016-01-09 Mastering Modern European History traces the development of Europe from the French Revolution to the present day. Political, diplomatic and socio-economic strands are woven together and supported by a wide range of pictures, maps, graphs and questions. Documentary extracts are included throughout to encourage the reader to question the nature and value of various types of historical evidence. The second edition brings us fully up to the present day. Chapters on European Decolonisation, Communist Europe 1985-9 and European Unity and Discord have been added and others have been substantially rewritten. An even wider range of illustrations and documentary source questions are included. The book is presented in a readable and well-ordered format and is an ideal reference text for students.

Metternich's Europe Mack Walker, 1968-06-18 **Europe 1780 - 1830** Franklin L. Ford, 2014-01-21 Europe 1780-1830 rapidly established itself as a standard introduction to European history in the age of the French Revolution and its aftermath when it first appeared. Now for the first time the book has been fully revised, updated and expanded. The half-century covered constitutes one of the most complex, eventful and rapidly changing of any in Europe's history. It is a period whose emphasis on conflict and political crisis combines daring innovation with the stubborn persistence of many older attitudes and patterns of human behaviour. Professor Ford explores these tensions throughout and he gives his readers a powerful sense of the extraordinary energy in every aspect of human activity that characterised the time.

Metternich Alan Palmer, 2014-06-12 A glib assessment of Metternich might not be a favourable one; he was not without his ridiculous qualities and yet he survived more than survived in fact with the Age of Metternich lasting for more than a generation and giving Europe a measure of peace, albeit repressive, that was much needed after the Napoleonic convulsions. Alan Palmer describes well Metternich's extraordinary longevity. Clement von Metternich held continuous office at the head of Europe's affairs for a longer period of time than any other statesman in modern history; he became foreign minister of the Austrian Empire in the autumn of 1809 and he did not resign until the spring of 1848. For thirty-three of these thirty-nine years his statecraft and philosophy of government determined the political pattern of the continent. The Age of Metternich, though often impatiently dismissed by historians as a mere interlude, lasted for twice as long as the Age of Napoleon which preceded it and for half as long again as the Age of Bismarck which followed in the closing decades of the century. Metternich was a statesman to his fingertips, practising the skills of diplomacy with greater fluency than any contemporary Talleyrand from whom he had learnt many of the refinements of the game. How would he fare today? Probably quite well, as he was again in Alan Palmer's words an early champion of federalism and a good European. As a work of history it cannot be faulted. A. J. P. Taylor, *Observer*. Well-written, well-researched, lucid and witty. Philip Ziegler, *The Times*.

A History of Western Public

Law Bruno Aguilera-Barchet,2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events *The Reckoning* Robin Blackburn,2024-02-06 The Age of Revolution 1776 1848 destroyed the main slave regimes of the Caribbean but a Second Slavery surged in the US South Cuba and Brazil powered by demand for plantation produce and a system of financial credit that leveraged the value of the slaves By 1860 more than 6 million captives of African descent toiled to produce the cotton sugar and coffee craved by global consumers This Second Slavery mimicked capitalist disciplines intensified slavery's racial character and launched half a century of headlong economic growth On the eve of the American Civil War the Slave Power seemed invincible The slaveholding elite entrenched their peculiar institution in the fabric of the Union only to risk everything on secession Nobody solicited the slaves wishes until it became clear that wherever they could they were deserting the plantations and joining the Union forces Abolition radicals destroyed the Second Slavery and victory for the North also spelled defeat for slavery in Cuba and Brazil But in each of these societies racial oppression was to be reconfigured by Black Codes Jim Crow and toxic doctrines of racial destiny Slavery leaves an indelible mark on many Atlantic nations The Reckoning charts the historic impact of slavery and anti slavery of black and white activists of fugitive slaves feminists writers clerics and soldiers Notwithstanding much unfinished business the anti slavery struggle retains its capacity to illuminate and inspire

German History, 1770-1866 James J. Sheehan,1989 This is a uniquely authoritative study of German history between the mid eighteenth century and the formation of the Bismarckian Reich This is an extensive account of social and cultural as well as political developments and shows that the creation of a Prussian led nation state should not be seen as natural or inevitable *Metternich's Diplomacy at its Zenith, 1820-1823* Paul W. Schroeder,2014-05-23 What Metternich wanted at the peak of his career why he wanted it and the methods by which he achieved his goals are questions brilliantly answered in this survey and analysis of the Austrian chancellor's diplomacy during the period when he was the pre eminent figure in European politics Metternich's single minded objective during 1820 1823 was to preserve the Austrian hegemony he had gained in Central Europe after long wars enormous effort and great sacrifice If the internal security and international power position secured by Austria at the Congress of Vienna were to be defended against the impact of widespread revolution in Europe it was imperative that peace in Europe and the status quo be maintained This required an unyielding opposition to all political movements that might disturb the equilibrium especially French chauvinism and the spread of French constitutional ideas A one man distillate of the doctrine of absolute monarchy Metternich was the relentless foe of any cause just or unjust that threatened European repose Hence when the revolution in Naples seriously menaced Austrian hegemony in Italy Metternich determined that the constitutional regime in Naples must be overthrown by an Austrian armed force an absolute monarchy restored and an Austrian army of occupation kept there Nor did he scruple to

use duplicity secret negotiation trickery or deceit against ally and adversary alike in his effort to enlist them in the common cause of all thrones At the Congress of Troppau Metternich succeeded not only in defeating Russian ideas for peaceful intervention and a moderate constitution at Naples but also in converting Tsar Alexander to thoroughly conservative views thereby making Russia a powerful supporter of Austrian policies and knowingly alienating England formerly Austria's closest ally Paul W Schroeder brings to this book exceptional scholarship and an objectivity hard to attain when dealing with a personality Although Metternich as Schroeder sees him doubtless helped to maintain European peace and order his real greatness consisted not in his European principles but in his ability to defend Austrian interests under the guise of European principles The evidence gathered from documentary material in the Haus Hof und Staatsarchiv in Vienna has forced the author to the conclusion that Metternich was no real statesman The very qualities that distinguished him as a brilliant diplomat keen vision cogent analysis fertility of expedients farsightedness flexibility and firmness of purpose were converted into those of blindness to reality superficial analysis sterility of expedients dogmatism and failure of will when confronted with fundamental problems of state and society

The Causes of War Alexander Gillespie, 2023-12-14 This is the fifth volume in a series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer While contextualised in the conflicts and patterns of the period this work as drawn directly from the treaties and the negotiations which led up to them shows what made both war and peace The period covered in this volume 1800 to 1850 brings this series into the start of the modern world From the Napoleonic Wars through to the international mechanisms that followed the first efforts at global cooperation to maintain peace between the major powers were unique So too the spread of colonialism the expansion of the United States the weakening of the Ottoman Empire and the disintegration and reforming of South America Each of these external actions that were often linked to war were mirrored by changes within societies as the values each society fought for often became just as contentious within countries as they were between them

The Purpose of Intervention Martha Finnemore, 2013-01-14 Violence or the potential for violence is a fact of human existence Many societies including our own reward martial success or skill at arms The ways in which members of a particular society use force reveal a great deal about the nature of authority within the group and about its members priorities In *The Purpose of Intervention* Martha Finnemore uses one type of force military intervention as a window onto the shifting character of international society She examines the changes over the past 400 years about why countries intervene militarily as well as in the ways they have intervened It is not the fact of intervention that has altered she says but rather the reasons for and meaning behind intervention the conventional understanding of the purposes for which states can and should use force Finnemore looks at three types of intervention collecting debts addressing humanitarian crises and acting against states perceived as threats to international peace In all three she finds that what is now considered obvious was vigorously contested or even rejected by people in earlier periods for well articulated and logical reasons A broad historical perspective

allows her to explicate long term trends the steady erosion of force s normative value in international politics the growing influence of equality norms in many aspects of global political life and the increasing importance of law in intervention practices

A History of Eastern Europe Robert Bideleux,Ian Jeffries,2006-04-10 A History of Eastern Europe Crisis and Change is a wide ranging single volume history of the lands between the lands which have lain between Germany Italy and the Tsarist and Soviet empires Bideleux and Jeffries examine the problems that have bedevilled this troubled region during its imperial past the interwar period under fascism under communism and since 1989 While mainly focusing on the modern era and on the effects of ethnic nationalism fascism and communism the book also offers original striking and revisionist coverage of ancient and medieval times the Hussite Revolution the Renaissance the Reformation and the Counter Reformation the legacies of Byzantium the Ottoman Empire and the Hapsburg Empire the rise and decline of the Polish Lithuanian Commonwealth the impact of the region s powerful Russian and Germanic neighbours rival concepts of Central and Eastern Europe the 1920s land reforms and the 1930s Depression Providing a thematic historical survey and analysis of the formative processes of change which have played the paramount roles in shaping the development of the region A History of Eastern Europe itself will play a paramount role in the studies of European historians

Metternich Wolfram Siemann,2019-11-01 Wolfram Siemann tells a new story of Clemens von Metternich the Austrian at the center of nineteenth century European diplomacy Known as a conservative and an uncompromising practitioner of realpolitik in fact Metternich accommodated new ideas of liberalism and nationalism insofar as they served the goal of peace And he promoted reform at home

Land of War William Nester,2023-05-01 War in Europe began with the first human migrants Rival bands fought for thousands of years before the Greeks and Romans began writing about their military history first as legend for instance the hero Achilles battling the Trojans and then as fact War developed from sticks and stones to bronze iron and steel including armor and edged weapons Then came gunpowder guns and cannons which eventually replaced edged weapons Finally in the nineteenth and twentieth centuries technology exploded railroads steamships telegraphs machine guns automobiles airplanes and tanks enabled European states to muster equip arm transport and command more men than ever before with more firepower than ever before In the past seventy five years atomic weapons changed the military landscape of Europe as have the internet and cyber warfare In this colorful new telling of European warfare and indeed European history through the continent s all too numerous wars and conflicts William Nester describes millennia of armed conflict He covers the greatest hits of military history both ancient and current Thermopylae the Peloponnesian War the wars of the Roman Empire across the continent the Battle of Hastings the Crusades Agincourt Waterloo Napoleon and Wellington the Somme the Spanish Civil War Stalingrad and Normandy Churchill Hitler and Stalin Bosnia and up through Putin s attempts to redraw the map of Europe Nester highlights how warfare has been deeply entwined with European statesmanship and undergirds modern institutions such as NATO and the European Union Europe s sense of itself is bound up in its military history Land of
