Austria, Hungary, and the Habsburgs R. J. W. Evans, 2006-08-03 These essays by the leading historian of the Austro Hungarian empire explore the political and religious history of the Habsburg lands They also describe key aspects of the evolution towards modern statehood and national awareness in Central Europe over more than two centuries of cultural and social transition

The Origins of Revisionist and Status-Quo States J. Davidson, 2016-04-30 Explaining why some states seek the status quo and others seek revision in international relations Davidson argues that governments pursuing revisionist policies are responding to powerful domestic groups such as nationalists and those in the military that believe they can defeat their rivals He draws on examples of France Italy and Great Britain to enhance understanding of a fundamental source of instability in international affairs

Metternich's German Policy, Volume II Enno E. Kraehe, 2014-07-14 Using new archival sources this book shows that Prussia sought not the unity of Germany but its partition into five masses loosely enough joined to assure her control of the North Hardenberg not Metternich supported the feudalistic claims of the estates suppressed by Napoleon and the resurrection of ancient estates assemblies based mainly on corporate orders Originally published in 1984 The

Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. Eastern Europe 1740-1985 Robin Okey, 2003-09-02 A fascinating book readable and illuminating Times Literary Supplement

The Decline of the Congress System Miroslav Šedivý, 2018-07-30 Following the Congress of Vienna in 1815 the Congress System became the primary instrument of diplomacy in Europe. So central was the Austrian Chancellor Metternich to the political legal Congress System that the period has often been referred to as the Age of Metternich. In this book Miroslav Šedivý analyses Metternich's policy towards the pre-united Italian states from 1830 to 1848. With an emphasis on geopolitics and international law and drawing attention to the unsettled role of the Italian states within European diplomacy in the period, this book explains why the Italian peninsula never developed into the stable region that Metternich hoped to establish at the heart of the Congress System. Owing to the self-interested policies of some European Powers as well as the larger role of the Italian states, Metternich proved unable to bring about the transformation of European politics in Italy. Using a thorough analysis of the role that Italy played in the Congress System and based on extensive research in 18 European archives, this book explains why it was in Italy that the first war broke out after the end of the Napoleonic Wars, an event representing the first brutal blow to the Congress System.

The Struggle with Leviathan Emiel Lamberts, 2016-05-02 A panoramic picture of international politics and the formation of the modern State. The opposition to the omnipotence of the State as symbolised by Thomas Hobbes' *Leviathan* (1651) had a significant impact on the political organisation of European society. A liberal strategy intended to provide a protective legal status for individual citizens, whereas a social strategy aimed to strengthen the social fabric to counterbalance the power of the State. Gradually both strategies became interwoven. *The Struggle with Leviathan* pays special attention to the social strategy developed by conservative and ecclesiastical circles against the omnipotence of the State and is structured around the fascinating biography of the Austrian diplomat Gustav von Blome, a grandson of Metternich and an important opponent of Bismarck. He proved to be a transitional figure between aristocratic conservatism and Christian democracy, which had a great influence on European integration after 1945. Besides Blome, several other dramatis personae, statesmen, prelates, political and social activists are featured. As a result, the book reads like a compelling narrative. At the same time, it offers a broadly sketched historical fresco of international politics and the gradual formation of the modern State. The original Dutch edition of this book, *Het gevecht met Leviathan*, has been highly praised in the Dutch and Flemish press and was awarded the biennial international Arenberg Prize for European History and Culture.

Metternich Wolfram Siemann, 2019-11-01 Wolfram Siemann tells a new story of Clemens von Metternich, the Austrian at the center of nineteenth-century European diplomacy.

Known as a conservative and an uncompromising practitioner of realpolitik in fact Metternich accommodated new ideas of liberalism and nationalism insofar as they served the goal of peace And he promoted reform at home Themes in Modern European History 1830-1890 Bruce Waller,2002-09-11 Providing a series of lively essays which reflect the skills that historians have to master when challenged by problems of evidence interpretation and presentation this important new text covers the topics of France Germany Italy Austria and Russia as well as analyzing the themes of political thought cultural trends the economy and warfare international relations and imperialism Six distinguished scholars all of whom are regularly involved in student teaching provide an authoritative student guide to the main contours of nineteenth century European history when the continent's standing was at its highest and its influence spanned the globe *Historical Dictionary of Austria* Paula Sutter Fichtner,2009-06-11 Austrians today often seem to believe that they have two histories One is their republican present the other the centuries that their forebears spent as part of the multi ethnic Habsburg Empire Contemporary Austria is a fixture among Europe's democracies Yet it did not achieve this state easily World War I the unification with Germany in 1938 and World War II were catastrophes for Austria In 1995 it became part of the European Union and its government culture and egalitarian economy are far cries from the monarchical and highly stratified society of the old Empire The second edition of the *Historical Dictionary of Austria* has been thoroughly updated and greatly expanded Through its chronology introductory essay appendix bibliography and hundreds of cross referenced dictionary entries greater attention has been given to foreign affairs economic institutions and policies social issues religion and politics Nobles and Nation in Central Europe William D. Godsey, Jr,2004-11-18 This is a study of Central European nobles in revolution As one of Germany's richest most insular and most autonomous nobilities the Free Knights in Electoral Mainz represented the early modern noble ideal of pure bloodlines and cosmopolitan loyalties in the old society of orders But this world came to an end with the outbreak of the revolutionary wars in 1792 Quite apart from the social economic and political dislocations and loss the era from 1789 to 1815 also meant a cultural reorientation for the nobility William D Godsey Jr here explores how nobles in post revolutionary Germany gradually abandoned their old self understanding and assimilated with the new cultural nation while aristocrats in the Habsburg Empire which had taken in many emigres from Mainz moved instead towards supranationalism This is a major contribution to debates about the relationship between identity cultural nationalism supranationalism and religion in Germany and the Habsburg Empire *The Wars of German Unification* Dennis Showalter,2015-07-30 The Wars of German Unification is the definitive account of the three of the most decisive conflicts in the history of modern Europe In this new edition Dennis Showalter offers a thoroughly updated look at the wars and their context that will be invaluable for those interested in the military social and political history of the period Showalter explores how the Schleswig Holstein conflict of 1864 the Six Weeks War of 1866 and the Franco Prussian War of 1870-71 fundamentally altered the balance of power in 19th century Europe They marked the establishment of Prussian hegemony in

central Europe the creation of the Bismarckian Reich in 1871 the reduction of Habsburg influence and the collapse of Napoleon III's Second Empire The Wars of German Unification offers a balanced and incisive account of the wars their origins and their consequences and firmly embeds these conflicts in their political ideological and military contexts This volume traces the transition from the cabinet wars of the 19th century and shows how the conflicts that made up the wars of German unification provided the foundation for the birth of modern warfare Venice and Venetia under the Habsburgs David Laven, 2002-08-22 The Austrian domination of Venice and Venetia after the Congress of Vienna has traditionally received a bad press The Restoration regime was long villified as oppressive and exploitative and in direct opposition to the interests of almost all classes of the population This volume questions this view arguing from detailed archival research that Francis I's rule brought many real benefits to his Venetian subjects The root of the remarkable passivity of Venetia in the years after the fall of Napoleon should not be explained in terms of pervasive policing heavy handed censorship and the presence of Metternich's forest of bayonets but rather by the existence of a fair and responsive if sometimes cumbersome administrative structure Having outlined the origins of Austrian control of Venetia in terms of radical political and territorial changes experienced during the Revolutionary and Napoleonic period this work examines the mechanisms of Austrian rule Early chapters focus on the uncomfortable tensions that existed between the temptation to retain a modernised machinery of state inherited from Napoleon's Kingdom of Italy and the desire to look to models existing in the rest of the Habsburg Monarchy with the aim of creating greater uniformity with the rest of the multinational empire Various aspects of the Habsburg system are examined to assess the burden of Austrian control in the form of taxation and conscription and the way in which education policing the Church and censorship were used in sometimes surprising ways to attach the Venetian population to their Habsburg masters Finally the book addresses the question of what went wrong between the death of Francis I in 1835 and the Venetian insurrection of 1848-9 to alienate the population so radically Daniele Manin and the Venetian Revolution of 1848-49 Paul Ginsborg, 1979-07-26 *Austria and the Papacy in the Age of Metternich: Revolution and reaction, 1830-1838* Alan J. Reinerman, 1989 **Europe After Napoleon** Michael Broers, 1996 Broers seeks to unravel the different strands of modern European political culture at a crucial but neglected stage of their development by analyzing and comparing the major political ideologies of the period within the context of their times **Barricades and Borders** Robert Gildea, 2003-03-06 This is a comprehensive survey of European history from the coup d'etat of Napoleon Bonaparte in France to the assassination of the Archduke Ferdinand at Sarajevo which led to the First World War It concentrates on the twin themes of revolution and nationalism which often combined in the early part of the century but which increasingly became rival creeds Going beyond traditional political and diplomatic history the book incorporates the results of recent research on population movements the expansion of markets the accumulation of capital social mobility education changing patterns of leisure religious practices and intellectual and artistic developments The work falls into three chronological

sections The first starting in 1800 rather than the more usual 1815 follows the build up of the revolutionary currents which were eventually going to erupt in the Year of Revolutions 1848 The second from 1850 to 1880 deals with the golden age of capitalism the successful culmination of struggles for national unification and the threat of anarchism The concluding chapters look at the social and political stresses caused by socialism and national minorities at new attempts by government to order society imperial rivalry and the descent into a war which was to mark the end of nineteenth century Europe For this third edition Dr Gildea has substantially revised the text and maps and completely updated the bibliography Newly added introductory sections guide the reader through the wealth of material in each chapter The new edition also includes for the first time a full Chronology of the period a list of leading state ministers and family trees for all the major dynasties The War for the Public Mind Robert J. Goldstein, 2000-03-30 From 1815 to 1914 European governments and their political oppositions were engaged in a constant war for the minds of the general population especially the working classes The German socialist newspaper Hamburger Echo declared on September 27 1910 In waging our war we do not throw bombs Instead we throw our newspapers amongst the masses of the working people Printing ink is our explosive The most comprehensive study ever published about European censorship practices during the 1815 1914 period this book discusses the censorship of books newspapers caricatures theater and film through an analytical introductory survey and six chapters by leading specialists who summarize 19th century censorship practices in the six major countries of continental Europe Germany Italy France Austria Russia and Spain As a result of the massive transformation of European life in the post Napoleonic period and the simultaneously rapid growth in industrialization urbanization literacy transportation and communication the average European emerged quite suddenly as a potential player who could no longer be ignored by the ruling elite
