The Mexican Border Cities Daniel D. Arreola, James R. Curtis, 1993-02-01 From Matamoros to Tijuana Mexican border cities have long evoked for their neighbors to the north images of cheap tourist playgrounds and more recently industrial satellites of American industry These sensationalized and simplified perceptions fail to convey the complexity and diversity of urban form and function and of cultural personality that characterize these places The Mexican Border Cities draws on extensive field research to examine eighteen settlements along the 2 000 mile border ranging from towns of less than 10 000 people to dynamic metropolises of nearly a million The authors chronicle the cities growth and compare their urban structure analyzing them in terms of tourist districts commercial landscapes residential areas and industrial and transportation quarters Arreola and Curtis contend that despite their proximity to the United States the border cities are fundamentally Mexican places as distinguished by their cultural landscapes including town plan land use pattern and building fabric Their study richly illustrated with over 75 maps and photographs offers a provocative and insightful interpretation of the geographic anatomy and personality of these fascinating and rapidly changing communities *Border Cities and Territorial Development* Eduardo Medeiros, 2021-11-21 This monograph analyses the role of border cities in promoting territorial development processes in border regions across the world It not only embraces the scientific fields of regional and urban studies but also addresses territorial urban local regional development and planning theories as well as the effects of development policies applied to border regions in both Europe and North America In essence the book offers a full toolkit of border regions territorial development knowledge and in particular advances a range of policy development proposals It provides a comprehensive introduction to contemporary thinking about how border cities can play a decisive role in boosting territorial development processes in border regions The book is divided into three parts Part I presents a theoretical framework on the role of border cities in promoting territorial development and planning in border regions Part II debates current mainstream policies focusing on supporting border regions and specifically border cities in the EU the UK and North America Finally Part III presents a wealth of updated knowledge based on the analysis of several concrete case studies border cities from both Europe north south east and west and North America Canada the United States and Mexico The chapters are written by some of the most renowned authors on the subject including scholars from several European and North American countries as well as the secretary generals of three European border regions associations AEBR MOT and CESCO The book will thoroughly prepare students and provide knowledge to academics and policymakers in the fields of urban and regional planning and development studies human geography economic development EU policies border regions and policy impacts **The Architecture and Cities of Northern Mexico from Independence to the Present** Edward R. nuanced understanding of the evolution of America's contemporary ethnic geographies *Colonias in Arizona and New Mexico* Adrian X. Esparza, Angela J. Donelson, 2016-10-01 There are approximately half a million people living in 227 officially designated colonias in southern Arizona and New Mexico. These border communities are characterized by poor quality housing, a lack of infrastructure, paved roads, water and sewer systems, and electricity, high levels of poverty and unemployment, and a disproportionate concentration of Hispanics. These colonias comprise one of the country's largest pockets of poverty. Even so, little is known about these towns or the people who live in them. This book provides the first comprehensive treatment of Arizona and New Mexico colonias with the aim of increasing their visibility and promoting community development. Beginning with an examination of the origins of border region settlement and the emergence of colonias in southern Arizona and New Mexico in the late 1800s, the book then turns to an assessment of current social, economic, and housing conditions. The authors also examine how Mexico's recent economic crises and U.S. immigration and border security policies have shaped the quality of life in colonias, and they evaluate recent community development initiatives. By examining the challenges and successes of these recent efforts, the authors are able to provide a generalized plan for community development. Balancing analyses of these communities with a review of the positive steps taken to improve the quality of life of their inhabitants, *Colonias in Arizona and New Mexico* is an indispensable tool for anyone interested in public policy or immigration issues.

Narratives of Precarious Migrancy in the Global South Gigi Adair, Carly McLaughlin, 2025-02-14 This volume sets out to challenge and expand Anglophone literary migration studies in the global North with a two-fold approach. It proposes precarious migrancy as a conceptual framework to capture hitherto neglected aspects of subaltern displacement, and it turns to the global South as a site of knowledge production about migration. The chapters discuss literary narratives originally written in Chinese, Kurdish, and Italian, as well as English, and covering a wide geographical range to ask what experiences and understandings of migration emerge from Southern perspectives. Across the volume, precarious migrancy emerges as a key concept for understanding contemporary globalization in general and migration in the global South in particular. The chapters offer significant reconceptualizations of precarity and migrancy by reading Southern literatures of migration as a mode of theorization of the contemporary world, contributing to the ongoing shift in framings of migration in Anglophone and postcolonial literary studies. This volume will be of significant interest to scholars in literary migration studies, global South studies, and postcolonial studies. It offers readings of rarely studied literary texts, as well as new concepts for scholars interested in understanding the nexus of literature and migration today.

Chávez-García, 2018-03-22 Drawing upon a personal collection of more than 300 letters exchanged between her parents and other family members across the U S Mexico border Miroslava Ch vez Garc a recreates and gives meaning to the hope fear and longing migrants experienced in their everyday lives both here and there aquí y allá As private sources of communication hidden from public consumption and historical research the letters provide a rare glimpse into the deeply emotional personal and social lives of ordinary Mexican men and women as recorded in their immediate firsthand accounts Ch vez Garc a demonstrates not only how migrants struggled to maintain their sense of humanity in el norte but also how those remaining at home made sense of their changing identities in response to the loss of loved ones who sometimes left for weeks months or years at a time or simply never returned With this richly detailed account ranging from the Mexican Revolution of the 1910s to the emergence of Silicon Valley in the late 1960s Ch vez Garc a opens a new window onto the social economic political and cultural developments of the day and recovers the human agency of much maligned migrants in our society today Border People Oscar J. Martínez, 1994-05-01 While the U S Mexico borderlands resemble border regions in other parts of the world nowhere else do so many millions of people from two dissimilar nations live in such close proximity and interact with each other so intensely Borderlanders are singular in their history outlook and behavior and their lifestyle deviates from the norms of central Mexico and the interior United States yet these Mexicans Mexican Americans and Anglo Americans also differ among themselves and within each group may be found cross border consumers commuters and people who are inclined or disinclined to embrace both cultures Based on firsthand interviews with individuals from all walks of life Border People presents case histories of transnational interaction and transculturation and addresses the themes of cross border migration interdependence labor border management ethnic confrontation cultural fusion and social activism Here migrants and

workers functionaries and activists and mixers who have crossed cultural boundaries recall events in their lives related to life on the border Their stories show how their lives have been shaped by the borderlands milieu and how they have responded to the situations they have faced Border People shows that these borderlanders live in a unique human environment shaped by physical distance from central areas and constant exposure to transnational processes The oral histories contained here reveal to a degree that no scholarly analysis can that borderlanders are indeed people each with his or her own individual perspective hopes and dreams
