

# Mexican Democracy

**Dan La Botz**

## **Mexican Democracy:**

*Local Democracy in Modern Mexico* Arturo Flores, 2005-11-21 An analysis of participatory democracy as it operates in practice in different regions of contemporary Mexico

**Mexican Democracy** Kenneth F. Johnson, 1978

**Mexican Social Movements and the Transition to Democracy** John Stolle-McAllister, 2015-01-24 Between 1995 and 1996 in Tepoztlan Morelos a movement was made against the construction of a large tourist development project The case gained international attention as community members rejected their elected officials designed their own local government and eventually won bitter victory against both the state and the internationally financed corporation developing a golf course and country club This work focuses on how in a time of generalized political change in Mexico activists blended local national and transnational courses of identity and social change to produce political practices that allowed them to win redress of their grievances to alter local social relations and to contribute to changes within the national political system Here the anti golf movement is chronicled Important symbolic and organizational networks within Tepoztlan that took part in the conflict are explored The role of global influences on the community s everyday life is examined as well as the ways in which the movement contributed to the evolution of a more democratic culture Parallels in the more recent movement in Atenco against the construction of Mexico City s new international airport are analyzed

Elites, Masses, and the Struggle for Democracy in Mexico Sara Schatz, 2000-05-30 In this book a new general model of delayed transitions to democracy is proposed and used to analyze Mexico s transition to democracy This model attempts to explain the slow gradual dynamics of change characteristic of delayed transitions to democracy and is developed in a way that makes it generalizable to other regional contexts Utilizing both qualitative and quantitative data based on an original data set of forty thousand individual interviews Schatz analyzes how the historical authoritarian corporate shaping of interests and forms of political consciousness has fractured the social base of the democratic opposition and inhibited democratizing social action Using comparative cases of delayed transitions to democracy the author s conclusions challenge and improve upon current theories of democratization In elaborating a model for the delayed transition to democracy the author argues that the emphasis on transformative industrialism in both political modernization and class analytic theories of social bases of democratization is modeled too closely on the western European process of democratization to allow a full explanation of the case of Mexico s transition to democracy In addition she argues that a delayed transitions model provides a more adequate explanation of gradual transitions to democracy because such a model builds on a the insights of structural theories regarding the social bases of anti authoritarian mobilization To support the delayed transitions model Schatz compares Mexico with Taiwan and Tanzania countries also characterized by delayed transitions to democracy in the late twentieth century This important book fills a considerable gap in the literature on democratization at the end of the century

*Mexico* Daniel C. Levy, Kathleen Bruhn, 2006-01-26 This engaging book provides a broad and accessible analysis of Mexico s contemporary struggle for

democratic development Now completely revised it brings up to date issues ranging from electoral reform and accountability to drug trafficking migration and NAFTA It also considers the rapidly changing role of Mexico's mass and elite groups and its national institutions including the media the military and the Church      **Mexico's Democracy at Work** Russell Crandall,Guadalupe Paz,Riordan Roett,2005 A concise overview of political and economic developments in Mexico highlighting the challenges posed by the country's recent democratic breakthrough      *Courting Democracy in Mexico* Todd A. Eisenstadt,2003-11-24 This book documents Mexico's gradual transition to democracy written from a perspective which pits opposition activists post electoral conflicts against their usage of regime constructed electoral courts at the centre of the democratization process It addresses the puzzle of why during key moments of Mexico's 27 year democratic transition opposition parties failed to use autonomous electoral courts established to mitigate the country's often violent post electoral disputes despite formal guarantees of court independence from the Party of the Institutional Revolution PRI Mexico's ruling party for 71 years preceeding the watershed 2000 presidential elections Drawing on hundreds of author interviews throughout Mexico over a three year period and extensive archival research the author explores choices by the rightist National Action Party PAN and the leftist Party of the Democratic Revolution PRD between post electoral conflict resolution via electoral courts and via traditional routes mobilization and bargaining with the PRI state      *Mexico's Pivotal Democratic Election* Jorge I. Domínguez,Chappell H. Lawson,2004 The 2000 Mexican presidential race culminated in the election of opposition candidate Vicente Fox and the end of seven decades of one party rule This book which traces changes in public opinion and voter preferences over the course of the race represents the most comprehensive treatment of campaigning and voting behavior in an emerging democracy It challenges the modest effects paradigm of national election campaigns that has dominated scholarly research in the field Chapters cover authoritarian mobilization of voters turnout patterns electoral cleavages party strategies television news coverage candidate debates negative campaigning strategic voting issue based voting and the role of the 2000 election in Mexico's political transition Theoretically oriented introductory and concluding chapters situate Mexico's 2000 election in the larger context of Mexican politics and of cross national research on campaigns Collectively these contributions provide crucial insights into Mexico's new politics with important implications for elections in other countries      The Metamorphosis of Leadership in a Democratic Mexico Roderic Ai Camp,2010-11-04 The Metamorphosis of Leadership in a Democratic Mexico is a broad analysis of Mexico's changing leadership over the past eight decades stretching from its pre democratic era 1935 1988 to its democratic transition 1988 2000 to its democratic period 2000 the present In it Roderic Camp one of the most distinguished scholars of Mexican politics seeks to answer two questions 1 how has Mexican political leadership evolved since the 1930s and in what ways beyond ideology has the shift from a semi authoritarian one party system to a democratic electoral system altered the country's leadership and 2 which aspects of Mexican leadership have been most affected by this shift in political models and when and why did the changes in

leadership occur Rather than viewing Mexico's current government as a true democracy Camp sees it as undergoing a process of consolidation under which the competitive electoral process has resulted in a system of governing institutions supported by the majority of citizens and significant strides toward plurality Accordingly he looks at the relationship between the decentralization of political power and the changing characteristics experiences and paths to power of national leaders The book which represents four decades of Camp's work is based upon a detailed study of 3000 politicians from the 1930s through the present incorporating regional media accounts and Camp's own interviews with Mexican presidents cabinet members assistant secretaries senators governors and party presidents

NAFTA and Democracy in Mexico Pablo Calderón Martínez, 2018-09-05 After describing NAFTA as the worst trade deal maybe ever signed anywhere Donald Trump's election seemed to represent the final nail in the coffin for North American economic integration Following a decade of stagnation however Trump's victory presents a timely opportunity to reconsider North American integration and evaluate NAFTA's democratic track record in Mexico In this book Pablo Calder n Mart nez presents a detailed analysis of NAFTA's influence as a political tool for democracy in Mexico Extending beyond a mere economic or social exploration of the consequences of NAFTA Calder n Mart nez uses a three tiered analysis based on causality mechanisms to explain how the interactions between internationalisation and democratisation unfolded in Mexico Calder n Mart nez's analysis demonstrates that Mexico's internationalisation project under the framework of NAFTA gave shape to if not made Mexico's democratisation process An original and timely resource for scholars and students interested in understanding how in cases like Mexico where transitions to democracy are characterised by a finely poised balance of power small influences from abroad can make significant long lasting differences domestically

*Rural Protest and the Making of Democracy in Mexico, 1968-2000* Dolores Trevizo, 2011 When the PRI fell from power in the elections of 2000 scholars looked for an explanation Some focused on international pressures while others pointed to recent electoral reforms In contrast Dolores Trevizo argues that a more complete explanation takes much earlier democratizing changes in civil society into account Her book explores how largely rural protest movements laid the groundwork for liberalization of the electoral arena and the consolidation of support for two opposition parties the PAN on the right and the PRD on the left that eventually mounted a serious challenge to the PRI She shows how youth radicalized by the 1968 showdown between the state and students in Mexico City joined forces with peasant militants in nonviolent rural protest to help bring about needed reform in the political system In response to this political effervescence in the countryside agribusinessmen organized in peak associations that functioned like a radical social movement Their countermovement formulated the ideology of neoliberalism and they were ultimately successful in mobilizing support for the PAN Together social movements and the opposition parties nurtured by them contributed to Mexico's transformation from a one party state into a real electoral democracy nearly a hundred years after the Revolution

Mexican Democracy Kenneth F. Johnson, 1984      Prospects for Democracy in Mexico George W. Grayson, Second only to

the Soviet Union Mexico is the country most important to the security and well being of the United States Its stability is therefore a major concern As Prospects for Democracy in Mexico documents there are problems This ancient Aztec nation now suffers the worst economic conditions since its revolution exploded in 1910 The economy has been as flat as a tortilla since the oil boom fizzled in the early 1980s and the purchasing power of workers has declined 50 percent in recent years Open and disguised unemployment afflicts nearly half of the 26 million member workforce External debt keeps upward pressure on interest rates while the government and private sector must meet 12 billion annually in foreign debt payments Widespread pollution continues to contaminate the already fetid air of metropolitan areas such as Mexico City Similar conditions in the United States or Western Europe would ignite demonstrations catalyze strikes and launch the careers of demagogic politicians Mexico remains remarkably quiet with discontent channeled through legitimate institutions such as the Congress mass media and the Institutional Revolutionary Party PRI This volume dissects the current situation and forecasts future developments Diplomats scholars public officials and businessmen contribute sixteen chapters and answer a number of the most critical questions It is unlikely that this collection will be surpassed for comprehensive coverage and intellectual balance for years to come It is supported by in depth statistical tables covering every phase of Mexican life from unemployment religious affiliation inflation rates presidential electoral results military expenditures and the size of the armed forces In addition the volume concludes with a selected biography that Latin Americanists political scientists and policy makers will find essential George W Grayson is the Class of 1938 Professor of Government at the College of William and Mary in Virginia His books include The Mexican Labor Machine Power Politics and Patronage 1989 Oil and Mexican Foreign Policy 1988 The United States and Mexico Patterns of Influence 1984 and The Politics of Mexican Oil 1980

**The PRI and Mexican Democracy** Partido Revolucionario Institucional, 1994

**Democracy in Mexico** Dan La Botz, 1995

Placing this book in the context of NAFTA and Mexican movements for social change journalist and historian Dan La Botz unveils the forces behind Marcos and the Zapatista Rebellion of January 1994 and re examines the circumstances surrounding the assassination of presidential candidate Luis Donaldo Colosio Contains a detailed analysis of how Ernesto Zedillo and the PRI won the August 21 1994 elections and includes an examination of widespread electoral fraud La Botz provides a first hand account of the founding of National Democratic Convergence CND the new force for democracy and social justice in Mexico led by Rosario Ibarra Ibarra is Mexico's leading human rights activist and first woman presidential candidate

**Savage Democracy: Institutional Change and Party Development in Mexico**, **Politics, Society, And Democracy Latin America** Scott Mainwaring, 2018-02-19 This is the third of four volumes compiled in honor of Juan J Linz and edited by H E Chehabi Richard Gunther Alfred Stepan and Arturo Valenzuela Each volume presents original research and theoretical essays by Linz's distinguished collaborators students teachers and friends as well as overviews of his enormous contributions to Spanish and Latin American studies comparative politics and sociology In Volume III leading

Latin American scholars evaluate Juan Linz's contribution to the study of Latin American politics in particular his influence on studies dealing with authoritarianism democratic breakdown public opinion regime transition and the institutional conditions needed for stable democracy

#### **Canadian and Mexican Security in the New North America** Jordi

Diez, 2006-06-02 North American relations have undergone profound changes over the last 15 years NAFTA not only created the biggest trading bloc in the world it was also a catalyst in the conceptualization of the continent as an integrated region Whereas prior to 9/11 relations remained primarily at the economic level the attacks on the U.S. unleashed a new dynamic in North American relations that has seen a significant increase in cooperation in a large number of areas including security It remains to be seen whether a new security perimeter encompassing the three countries will emerge But momentum toward greater collaboration and further integration appears to be afoot Because of the enormous economic dependence on their mutual neighbour both Canada and Mexico will need to cooperate with the U.S. on security matters given its importance since 9/11 Ongoing analysis of the evolution of security relations in North America and the impact on Mexico and Canada will therefore not only be likely to continue but will be necessary This book aims to contribute to this endeavour

**Assessing Democracy In Latin America** Philip Kelly, 2021-11-28 Based on fifty years worth of data Assessing Democracy in Latin America examines and compares the progress of Latin American countries toward democracy The essays in this volume all written by contributors to the Fitzgibbon Democracy Survey focus their analyses on those factors most germane to the growth maintenance or failure of democratic systems For example in his initial chapter Philip Kelly identifies two variables mechanized agriculture and per capita newspaper circulation as the best statistical indicators of democracy in Latin America Other contributors explore a variety of new topics such as the connection between democracy and environmental movements Kathryn Hochstetler and Steven Mumme political parties John D. Martz and social dynamics Robert L. Peterson Initiated in 1945 as a method of measuring and ranking Latin American democratic systems the Fitzgibbon Democracy Surveys longevity and scope provide an unparalleled wealth of scholarly research This volume offers what few others like it can a longitudinally deep data set eleven surveys over the past fifty years and closely coordinated coverage of the complete range of Latin American countries by specialists assembled expressly for that purpose

#### **Mexican Politics in Transition** Judith

Gentleman, 2019-03-13 Initiated in the mid 1970s Mexico's program of political reform was designed to provide a new opportunity for political competition In this book contributors examine the significance political mobilization has had and the extent to which the reform has served as a vehicle for defusing discontent in the wake of Mexico's failed oil based developme

## **Mexican Democracy** Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the ability of words has become more evident than ever. They have the capacity to inspire, provoke, and ignite change. Such could be the essence of the book **Mexican Democracy**, a literary masterpiece that delves deep to the significance of words and their effect on our lives. Published by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall affect on readers.
