Culture of Empire Gilbert G. González, 2010-01-01 A history of the Chicano community cannot be complete without taking into account the United States domination of the Mexican economy beginning in the late nineteenth and early twentieth centuries writes Gilbert G González For that economic conquest inspired US writers to create a culture of empire that legitimated American dominance by portraying Mexicans and Mexican immigrants as childlike peons in need of foreign tutelage incapable of modernizing without Americanizing that is submitting to the control of US capital So powerful was and is the culture of empire that its messages about Mexicans shaped US public policy particularly in education throughout the twentieth century and even into the twenty first In this stimulating history Gilbert G González traces the development of the culture of empire and its effects on US attitudes and policies toward Mexican immigrants Following a discussion of the United States economic conquest of the Mexican economy González examines several hundred pieces of writing by American missionaries diplomats business people journalists academics travelers and others who together created the stereotype of the Mexican peon and the perception of a Mexican problem He then fully and insightfully discusses how this misinformation has shaped decades of US public policy toward Mexican immigrants and the Chicano now Latino community especially in terms of the way university training of school superintendents teachers and counselors drew on this literature in forming the educational practices that have long been applied to the Mexican immigrant community
