Defending the Land of the Jaguar Lane Simonian, 2010-07-05

Mexican conservationists have sometimes observed that it is difficult to find a country less interested in the conservation of its natural resources than is Mexico Yet despite a long history dedicated to the pursuit of development regardless of its environmental consequences Mexico has an equally long though much less developed and appreciated tradition of environmental conservation Lane Simonian here offers the first panoramic history of conservation in Mexico from pre contact times to the current Mexican environmental movement He explores the origins of conservation and environmental concerns in Mexico the philosophies and endeavors of Mexican conservationists and the enactment of important conservation laws and programs This heretofore untold story drawn from interviews with leading Mexican conservationists as well as archival research will be important reading throughout the international community of activists researchers and concerned citizens interested in the intertwined issues of conservation and development

Immigration, Environment, and Security on the U.S.-Mexico Border Lisa Meierotto, 2019-12-05 This book examines the convergence of conservation and security efforts along the U S Mexico border in Arizona The author presents a unique analysis of the history of Cabeza Prieta National Wildlife Refuge a

federally protected border wilderness area Beginning in the early 1990s changes to U S immigration policy dramatically altered the political and natural landscape in and around Cabeza Prieta In particular the increasing presence of Border Patrol has contributed to environmental degradation in wilderness Complicated human rights concerns are also explored in the book Protecting wildlife in an area with high rates of undocumented border crossing and smuggling results in complex and sometimes controversial conservation policies Ultimately the observations and analysis presented in this book illustrate ways in which the politics of race and nationalism are subtly but significantly interwoven into border environmental and security policies
