Mexico Diversidad De Culturas:

Estado de Mexico ,1997 México ,1995 **Hacia la sociología** Cristina Puga,Jacqueline Peschard,Teresa Castro,1999 *Miradas sobre la diversidad cultural* José del Val,2020-06-22 Una serie de ponencias conferencias entrevistas y textos in ditos de Jos del Val en los que aborda cuestiones como la identidad la interculturalidad los derechos de los pueblos ind genas la multiculturalidad la educaci n la importancia de los idiomas originarios la desigualdad y lo que el autor define como pobretolog a Aqu se encontrar n diversas propuestas para abordar la problem tica ind gena actual as como para comprender la realidad contempor nea m s all de la situaci n de los pueblos originarios La creaci n de una procuradur a de los derechos ind genas la ense anza de lenguas originarias en todas las escuelas y la construcci n de una ciudadan a responsable son algunas de ellas De manera sint tica y con un profundo conocimiento de los temas tratados el autor presenta desde una cr tica al Convenio 169 de la Organizaci n Internacional del Trabajo hasta una reflexi n sobre la importancia de la familia del tipo que sea en la sociedad contempor nea La culturocracia organizacional en México José Gpe Vargas Hernández, **Indigeneity in the Mexican Cultural Imagination** Analisa Taylor,2013-09-25 Since the end of the Mexican Revolution in 1917 the state has engaged in vigorous campaign to forge a unified national identity Within the context of this effort Indians are at once both denigrated and romanticized Often marginalized they are nonetheless subjects of constant national interest Contradictory policies highlighting segregation assimilation modernization and cultural preservation have alternately included and excluded Mexico s indigenous population from the state s self conscious efforts to shape its identity Yet until now no single book has combined the various elements of this process to provide a comprehensive look at the Indian in Mexico s cultural imagination Indigeneity in the Mexican Cultural Imagination offers a much needed examination of this fickle relationship as it is seen through literature ethnography film and art The book focuses on representations of indigenous peoples in post revolutionary literary and intellectual history by examining key cultural texts Using these analyses as a foundation Analisa Taylor links her critique to national Indian policy rights and recent social movements in Southern Mexico In addition she moves beyond her analysis of indigenous peoples in general to take a gendered look at indigenous women ranging from the villainized Malinche to the highly romanticized and sexualized Zapotec women of the Isthmus of Tehuantepec The contradictory treatment of the Indian in Mexico s cultural imagination is not unique to that country alone Rather the situation there is representative of a phenomenon seen throughout the world Though this book addresses indigeneity in Mexico specifically it has far reaching implications for the study of indigenaety across Latin America and beyond Much like the late Edward Said s Orientalism this book provides a glimpse at the very real effects of literary and intellectual discourse on those living in the margins of society This book s interdisciplinary approach makes it an essential foundation for research in the fields of anthropology history literary critique sociology and cultural studies While the book is ideal for a scholarly audience the accessible writing and scope of the analysis make it of interest to lay audiences

as well It is a must read for anyone seeking a deeper understanding of the politics of indigeneity in Mexico and beyond

Aunque pueden contarse por miles los libros artículos ensayos y tesis producidos por la antropología, la arqueología, la lingüística, la etnología, la historia y la etnohistoria, además de los estudios educativos, demográficos, económicos, sociológicos, jurídicos, biológicos y literarios, el mundo indígena del México actual sigue siendo en buena medida desconocido por amplios sectores de la sociedad nacional. Para brindar un acercamiento al tema, este libro trata de responder a cien preguntas básicas explorando en una amplia literatura que revela la existencia de dos series de temas asociados: una la relativa a la información del mundo indígena, población, lenguas, distribución territorial, situación de salud y educación, medio ambiente y recursos naturales; otra la organizacional social, preferencias religiosas y político-electORALES, marginación y migración, literatura y artes, etc., y otra en la que es posible agrupar los instrumentos jurídicos, las instituciones gubernamentales creadas para la atención de los pueblos indígenas y los organismos internacionales que los acogen en sus foros y grupos de trabajo o que se fundaron en respuesta a sus luchas y demandas. La presente edición introduce nuevos datos sociodemográficos, lingüísticos y jurídicos, principalmente reforzando la información original que en su estructura y en los aspectos conceptuales se mantiene intacta.
