Modern Revolutions John Dunn, 1989-06-22 Many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves **Cinesonidos** Jacqueline Avila, 2019-09-16 During Mexico's silent 1896-1930 and early sound 1931-52 periods cinema saw the development of five significant genres the prostitute melodrama including the cabaretera subgenre the indigenista film on indigenous themes or topics the cine de a oranza porfiriana films of Porfirian nostalgia the Revolution film and the comedia ranchera ranch comedy In this book author Jacqueline Avila looks at examples from all genres exploring the ways that the popular regional and orchestral music in these films contributed to the creation of tropes and archetypes now central to Mexican cultural nationalism Integrating primary source material including newspaper articles advertisements films with film music studies sound studies and Mexican film and cultural history Avila examines how these tropes and archetypes mirrored changing perceptions of mexicanidad manufactured by the State and popular and transnational culture As she shows several social and political agencies were heavily invested in creating a unified national identity in an attempt to merge the previously fragmented populace as a result of the Revolution The commercial medium of film became an important tool to acquaint a

diverse urban audience with the nuances of Mexican national identity and music played an essential and persuasive role in the process. In this heterogeneous environment, cinema and its music continuously reshaped the contested, fluctuating space of Mexican identity, functioning both as a sign and symptom of social and political change. ***Made in Mexico*** Susan M. Gauss, 2010. Traces conflicts in Mexico over regional authority and labor/employer relations between the state and competing industrialist and labor groups in Guadalajara, Mexico City, Monterrey, and Puebla from the 1920s to the 1950s. Setting the Virgin on Fire Marjorie Becker, 1996-01-04. In this beautifully written work, Marjorie Becker reconstructs the cultural encounters which led to Mexico's post-revolutionary government. She sets aside the mythology surrounding President Lázaro Cárdenas to reveal his dilemma until he and his followers understood peasant culture; they could not govern. This dilemma is vividly illustrated in Michoacán. There, peasants were passionately engaged in a Catholic culture focusing on the Virgin Mary. The Cardenistas, inspired by revolutionary ideas of equality and modernity, were oblivious to the peasants' spirituality and determined to transform them. A series of dramatic conflicts forced Cárdenas to develop a government that embodied some of the peasants' complex culture. Becker brilliantly combines concerns with culture and power and a deep historical empathy to bring to life the men and women of her story. She shows how Mexico's government today owes much of its subtlety to the peasants of Michoacán. ***Pistoleros and Popular Movements*** Benjamin T. Smith, 2009-01-01. The post-revolutionary reconstruction of the Mexican government did not easily or immediately reach all corners of the country. At every level, political intermediaries negotiated, resisted, appropriated, or ignored the dictates of the central government. National policy reverberated through Mexico's local and political networks in countless different ways and resulted in a myriad of regional arrangements. It is this process of diffusion, politicking, and conflict that Benjamin T. Smith examines in *Pistoleros and Popular Movements*. Oaxaca's urban social movements and the tension between federal, state, and local governments illuminate the multivalent contradictions, fragmentations, and crises of the state-building effort at the regional level. A better understanding of these local transformations yields a more realistic overall view of the national project of state building. Smith places Oaxaca within this larger framework of post-revolutionary Mexico by comparing the region to other states and linking local politics to state and national developments. Drawing on an impressive range of regional case studies, this volume is a comprehensive and engaging study of post-revolutionary Oaxaca's role in the formation of modern Mexico. ***Political Culture and Constitutionalism*** Daniel P. Franklin, Michael J. Baun, 1995. Contributors discuss the societal factors necessary for building a democratic state. Essays address subjects such as political culture and constitutionalism in Britain and America; constitutionalism in remade democracies such as Japan and Germany; and constitutionalism and modernization in the semiperiphery and in post-colonial states. Paper edition, unseen. 2000. Annotation copyright by Book News, Inc., Portland, OR.

Agrarian Crossings Tore C. Olsson, 2017-08-02. In the 1930s and 1940s, rural reformers in the United States and Mexico waged unprecedented campaigns to remake their countryside in the name of

agrarian justice and agricultural productivity Agrarian Crossings tells the story of how these campaigns were conducted in dialogue with one another as reformers in each nation came to exchange models plans and strategies with their equivalents across the border Dismantling the artificial boundaries that can divide American and Latin American history Tore Olsson shows how the agrarian histories of both regions share far more than we realize He traces the connections between the US South and the plantation zones of Mexico places that suffered parallel problems of environmental decline rural poverty and gross inequities in land tenure Bringing this tumultuous era vividly to life he describes how Roosevelt s New Deal drew on Mexican revolutionary agrarianism to shape its program for the rural South Olsson also looks at how the US South served as the domestic laboratory for the Rockefeller Foundation s green revolution in Mexico which would become the most important Third World development campaign of the twentieth century and how the Mexican government attempted to replicate the hydraulic development of the Tennessee Valley Authority after World War II Rather than a comparative history Agrarian Crossings is an innovative history of comparisons and the ways they affected policy moved people and reshaped the landscape *Economic Development Strategies and the Evolution of Violence in Latin America* W. Forsaken Harvest Luis G. Cueva,2013-12-18 This historical monograph examines the decline of the hacienda estates within Jalisco Mexico during the early decades of the 20th century The book also explores the impact of the land reform program of President Lázaro Cárdenas in transforming the agrarian economic structure of the region This study contributes to an ongoing lively debate about the hacienda system and the meaning of the Cárdenas reforms This is an important work because it explores the evolution of a regional socio economic system that promoted urban industrial growth at the expense of the rural poor The model of regional development described is applicable to other areas of Mexico and underdeveloped Third World nations with extensive peasant populations The research for this investigation has wider implications regarding issues of global hunger and malnutrition **Revolution** Rosemary H.
