Analyzing films such as *Vamamos con Pancho Villa* 1936 *El Grito* 1968 and *Corazon del Tiempo* 2008 the author uses the term political conflict to refer to those violent disturbances dramatic periods of confrontation injury and death which characterize particular historical events involving state and non state actors that may have a finite duration but have a long lasting legacy on the nation These conflicts have been an important component of Mexican film since its inception and include studio productions documentaries and independent films

The Lost Cinema of Mexico Olivia Cosentino, Brian Price, 2022-02-08 This volume challenges the dismissal of Mexican filmmaking during the 1960s through 1980s an era long considered a low budget departure from the nation s earlier Golden Age examining the critical implications of discovering uncovering and recovering forgotten or ignored films

The Zapatista Movement and Mexico's Democratic Transition María de la Luz Inclán, 2018 Transitions from authoritarian to democratic governments can provide ripe scenarios for the emergence of new insurgent political actors and causes During peaceful transitions such movements may become influential political players and gain representation for previously neglected interests and sectors of the population But for this to happen insurgent social movements need opportunities for mobilization success and survival This book looks at Mexico s Zapatista movement and why the movement was able to mobilize sympathy and support for the indigenous agenda inside and outside of the country yet failed to achieve their goals vis vis the Mexican state

War, Revolution and Remembrance in World Cinema Nancy J. Membrez, 2021-05-14 Two World Wars engulfed Europe Asia and the United States leaving indelible scars on the landscape and survivors The trauma of civil wars in Spain declared and Latin America tacit spanned decades yet contradictorily bind parties together even today Civil wars still haunt Africa where in more recent years ethnic cleansing has led to wholesale genocide Drawing on the emerging field of Memory Studies this book examines narrative and documentary films made far from Hollywood that address memory both traumatic and nostalgic surrounding these conflicts despite attempts by special interests to erase or manipulate history

Political Violence and the Construction of National Identity in Latin America Peter Lambert, 2006-11-27 This topical volume seeks to analyze the intimate but under studied relationship between the construction of national identity in Latin America and the violent struggle for political power that has defined Latin American history since independence The result is an original fascinating contribution to an increasingly important field of study

Tastemakers and Tastemaking Niamh Thornton, 2020-12-01 *Tastemakers and Tastemaking* develops a new approach to analyzing violence in Mexican films and television by examining the curation of violence in relation to three key moments the decade long centennial commemoration of the Mexican Revolution launched in 2010 the assaults and murders of women in Northern Mexico since the late 1990s and the havoc wreaked by the illegal drug trade since the early 2000s Niamh Thornton considers how violence is created mediated selected or categorized by tastemakers through the strategic choices made by institutions filmmakers actors and critics Challenging assumptions about whose and what kind of work merit attention and traversing normative boundaries between good and bad taste Thornton draws

attention to the role of tastemaking in both high and low media including film cycles and festivals adaptations of Mariano Azuela's 1915 novel *Los de Abajo* Amat Escalante's hyperrealist art films and female stars of recent genre films and the telenovela *La reina del sur* Making extensive use of videographic criticism Thornton pays particularly close attention to the gendered dimensions of violence both on and off screen *México insurgente* John Reed, 1985 **Latin American Cinema** Paul A. Schroeder, 2016-03-08 Conventional silent cinema Avant garde silent cinema Transition to sound Birth and growth of an industry Crisis and decline of studio cinema Neorealism and art cinema New Latin American cinema's militant phase New Latin American cinema's Neobaroque phase Collapse and rebirth of an industry Latin American cinema in the twenty first century Conclusion a triangulated cinema Appendix discourses of modernity in Latin America **Imagining the Mexican Revolution** Tilmann Altenberg, 2014-08-11 Mexico's 1910 Revolution engendered a vast range of responses from novels and autobiographies to political cartoons feature films and placards In the light of the centennial commemorations contributors to this original collection evaluate the cultural legacy of this landmark event in a series of engaging essays *Imagining the Mexican Revolution* is a rich resource for those interested in ways in which literary and visual culture mediate our understandings of this complex historical phenomenon Professor Andrea Noble Durham University This collection of essays by leading and emerging Mexicanists is a distinct and welcome contribution that enhances public and academic understanding of Mexico's rich revolutionary heritage It makes available some of the most cutting edge thinking from the field of Mexican cultural studies on the literary and visual representations produced over a period of one hundred years in Mexico and in other countries Dr Chris Harris University of Liverpool In fascinating detail the essays of this landmark book examine the complexity of the post revolutionary years in Mexico But the findings also have applications for other cultures of the world where ideologies of fascism and socialism have competed and media manipulation has existed Among the volume's many excellent features are its illustrations Professor Emeritus Nancy Vogeley University of San Francisco [The Zapatista Movement and Mexico's Democratic Transition](#) María Inclán, 2018-07-06 Transitions from authoritarian to democratic governments can provide ripe scenarios for the emergence of new insurgent political actors and causes During peaceful transitions such movements may become influential political players and gain representation for previously neglected interests and sectors of the population But for this to happen insurgent social movements need opportunities for mobilization success and survival What happens to insurgent social movements that emerge during a democratic transition but fail to achieve their goals How influential are they Are they able to survive their initial mobilizing boom To answer these questions María Inclán looks at Mexico's Zapatista movement whose emergence she argues was caught between sliding doors of opportunity The Zapatistas were able to mobilize sympathy and support for the indigenous agenda inside and outside of the country yet failed to achieve their goals vis à vis the Mexican state Nevertheless the movement has survived and sustained its autonomy despite lacking legal recognition Inclán examines the vitality of the movement during various tests of the emergent

democracy during more competitive elections under various political parties and amid various repressive measures She also looks at state responsiveness to movement demands and the role of transnational networks in the movement's survival Framing the relative achievements and failures of the Zapatista movement within Mexico's democratization is essential to understand how social movements develop and survive and how responsive an electoral democracy really is As such this book offers a test to the quality of Mexico's democracy and to the resilience of the Zapatista movement as it identifies the extent to which emerging political forces have failed to incorporate dissident and previously excluded political actors into the new polity

Constructing the Image of the Mexican Revolution Zuzana M. Pick, 2010-01-01 Katherine Singer Kovacs Book Award Society for Cinema and Media Studies 2011 With a cast ranging from Pancho Villa to Dolores del Río and Tina Modotti Constructing the Image of the Mexican Revolution demonstrates the crucial role played by Mexican and foreign visual artists in revolutionizing Mexico's twentieth century national iconography Investigating the convergence of cinema photography painting and other graphic arts in this process Zuzana Pick illuminates how the Mexican Revolution's timeline 1910 1917 corresponds with the emergence of media culture and modernity Drawing on twelve foundational films from *Que Viva Mexico* 1931 1932 to *And Starring Pancho Villa as Himself* 2003 Pick proposes that cinematic images reflect the image repertoire produced during the revolution often playing on existing nationalist themes or on folkloric motifs designed for export Ultimately illustrating the ways in which modernism reinvented existing signifiers of national identity Constructing the Image of the Mexican Revolution unites historicity aesthetics and narrative to enrich our understanding of Mexicanidad
