*Meyerhold on Theatre* Edward Braun, 2016-01-28 Meyerhold on Theatre brings together in one volume Vsevolod Meyerhold's most significant writings and utterances and covers his entire career as a director from 1902 to 1939. It contains a comprehensive selection from all published material unabridged and translated from the original Russian, updated and supplemented with a critical commentary relating Meyerhold to his period and eye witness accounts describing all his productions. The book is illustrated with photographs of Meyerhold's designs and productions. Within this diverse collection of sometimes dense, sometimes lyrical and always fascinating writings, Meyerhold emerges from this book as a forerunner of such directors as Brecht, Piscator, Planchon and Brook, a relentless enemy of naturalism and a supreme exponent of total theatre whose influence continues to be felt throughout the theatre of today. This fourth edition features a new introduction by Prof Jonathan Pitches which helps to demystify some of the terminology Meyerhold and his associates used and indicates the fundamental connection between culture and politics represented in his life and art.

Leach describes in detail Meyerhold's system of theatre, his attitude to the audience, the place of the fore stage, biomechanics and actor training and the importance of the mise en scène.
