Haywood, 2015-07-09 We were aware of a dreamlike quality to our trip. There was something far fetched about it, something out of this world. Austerity might be getting everyone else down, but Steve is waving his worries goodbye on another of his light hearted trips around the picturesque English waterways. This time it's a bit different though. This time he's not just cruising with his cat Kit but with his long suffering wife Em who's given up work and wants her share of easy living too. They've rented out their home for the ups and downs of a life afloat and there's no going back now as they cruise from the historic River Thames through the Midlands and westward into the hills of Wales meeting a familiar cast of eccentrics and oddballs along the way and experiencing one of the hottest summers of recent years. But how after life in a four bedroom house do they manage to survive together squeezed into a space the size of a potting shed. Other books pretend to tell you about life afloat, this one shows you what it's really like. **Jungian and Interdisciplinary Analyses of Emotions** Elizabeth

Brodersen, Isabelle Meier, Valeria Céspedes Musso, 2025-04-09 This comprehensive collection of chapters concentrates on the multifaceted theme of emotions and deepens our understanding of the role emotions play within the psyche. Leading international psychoanalysts and academics offer broad interdisciplinary dimensions using their own unique perspectives on the topic of emotions. Delineating into five parts, this volume focuses on key themes such as emotions, imagination and method, the emotional basis of archetypes and complexes, relational trauma, mapping contagion across cultures, the contribution from neuroscience and finally dreams and the transcendent. Clinical cases presented underline the important role unconscious disassociated emotions play in the formation of symptomatology and how wholeness is facilitated through their acceptance. This collection offers a timely contribution to the interdisciplinary study of emotions, placing Jungian psychology firmly within that framework. It will be of great interest to Jungian analysts, trainees and psychotherapists as well as interdisciplinary academic researchers interested in methodology, unconscious processes, transference and dreams. [The Justice of Visual Art](#) Eliza Garnsey, 2020 Drawing on novel case studies, this book provides the first substantive theoretical framework for
