Homes Greta Friedemann-Sánchez,2006-03-30 Colombia is a major exporter of fresh cut flowers As in other global assembly line industries women constitute a majority of Colombia s floriculture workforce This ethnographic study explores the links between agro industrial employment in the context of economic adjustment programs and the individual experience of employment and economic change at the household level Author Greta Friedemann S nchez s challenges the current academic consensus that transnational assembly line industries reinforce patriarchal ideologies of reproduction and the exploitation of women What from a global perspective may be perceived as exploitation can be seen from the local perspective as an opportunity within the community Specifically the study focuses on how the interrelated factors of formal employment wage income property ownership social capital and self esteem articulate with women s resistance to male

dominated households and domestic violence Expertly combining qualitative and quantitative methodologies *Assembling Flowers and Cultivating Homes* contributes greatly to the study of gender and power household economics and structure and Latin American society **One River** Wade Davis, 2010-05-11 The story of two generations of scientific explorers in South America Richard Evans Schultes and his protégé Wade Davis an epic tale of adventure and a compelling work of natural history In 1941 Professor Richard Evan Schultes took a leave from Harvard and disappeared into the Amazon where he spent the next twelve years mapping uncharted rivers and living among dozens of Indian tribes In the 1970s he sent two prize students Tim Plowman and Wade Davis to follow in his footsteps and unveil the botanical secrets of coca the notorious source of cocaine a sacred plant known to the Inca as the Divine Leaf of Immortality A stunning account of adventure and discovery betrayal and destruction *One River* is a story of two generations of explorers drawn together by the transcendent knowledge of Indian peoples the visionary realms of the shaman and the extraordinary plants that sustain all life in a forest that once stood immense and inviolable **The Christian Statesman**, 1907 **Buena Idea**, **Palenquero and Spanish in Contact** John M. Lipski, 2020-03-15 Bilingual speakers are normally aware of what language they are speaking or hearing there is however no widely accepted consensus on the degree of lexical and morphosyntactic similarity that defines the psycholinguistic threshold of distinct languages This book focuses on the Afro Colombian creole language Palenquero spoken in bilingual contact with its historical lexifier Spanish Although sharing largely cognate lexicons the languages are in general not mutually intelligible For example Palenquero exhibits no adjective noun or verb subject agreement uses pre verbal tense mood aspect particles and exhibits unbounded clause final negation The present study represents a first attempt at mapping the psycholinguistic boundaries between Spanish and Palenquero from the speakers own perspective including traditional native Palenquero speakers adult heritage speakers and young native Spanish speakers who are acquiring Palenquero as a second language The latter group also provides insights into the possible cognitive cost of deactivating Spanish morphological agreement as well as the relative efficiency of pre verbal vs clause final negation In this study corpus based analyses are combined with an array of interactive experimental techniques demonstrating that externally imposed classifications do not always correspond to speakers own partitioning of language usage in their communities **By the Rivers of Babylon** Robert P. Hoch, 2013-12-01 The language of exile focused with theological and biblical narratives and coupled with depictions of real life exilic communities can equip church leaders as agents in the creation of new communities Robert Hoch reads the larger North American tradition of Christian worship and mission through the prism of visibly marginalized communities Through this lens leaders may come to see diversity as an indication of mission vitality and focus less on assimilating people and more on the future promises of God and the manifold textures of incarnation **The Regents questions and answers in Spanish**, 1923 **A War that Can't Be Won** Tony Payan, Kathleen Staudt, Z. Anthony Kruszewski, 2013-10-17 Forty years after Richard Nixon declared a War on Drugs this sobering book offers views of the narco

wars from scholars on both sides of the US Mexico border With evidence newly obtained through freedom of information inquiries in Mexico it proposes practical solutions to a seemingly intractable crisis Discursive Remembering Lucas M. Bietti, 2014-10-14 This book aims at building a bridge between the social and political aspects of remembering and the cognitive and discourse processes driving such activities By analyzing these cognitive and discursive processes Bietti explores practices of individual and collective remembering in institutional and private settings in relation to periods of political violence in Argentina This book begins to fill the conceptual gap between cognitive oriented approaches to remembering that draw conclusions about how memory functions in the mind without a detailed discourse analysis of the communicative interaction in which this process unfolds and the discourse and pragmatic oriented approaches that are mainly interested in analyzing the rhetorical features of conversational remembering in some cases disregarding that there are underlying cognitive mechanisms that drive the construction of discourses about past experiences The empirical analysis shows that individual and collective remembering in relation to periods of political violence in Argentina vary in pragmatic ways due to the fact that these accounts of the past were constructed with reference to the communicative situation Thus this book also aims at shedding new light on the current practices of commemoration and remembrance related to periods of political violence in Argentina in public and private settings *New dictionary of the Spanish and English languages* José M. Lopes, 1891 **North American Borders in Comparative Perspective** Guadalupe Correa-Cabrera, Victor

Konrad, 2020-04-07 The northern and southern borders and borderlands of the United States should have much in common instead they offer mirror articulations of the complex relationships and engagements between the United States Mexico and Canada In *North American Borders in Comparative Perspective* leading experts provide a contemporary analysis of how globalization and security imperatives have redefined the shared border regions of these three nations This volume offers a comparative perspective on North American borders and reveals the distinctive nature first of the overportrayed Mexico U S border and then of the largely overlooked Canada U S border The perspectives on either border are rarely compared Essays in this volume bring North American borders into comparative focus the contributors advance the understanding of borders in a variety of theoretical and empirical contexts pertaining to North America with an intense sharing of knowledge ideas and perspectives Adding to the regional analysis of North American borders and borderlands this book cuts across disciplinary and topical areas to provide a balanced comparative view of borders Scholars policy makers and practitioners convey perspectives on current research and understanding of the United States borders with its immediate neighbors Developing current border theories the authors address timely and practical border issues that are significant to our understanding and management of North American borderlands The future of borders demands a deep understanding of borderlands and borders This volume is a major step in that direction Contributors Bruce Agnew Donald K Alper Alan D Bersin Christopher Brown Emmanuel Brunet Jailly Irasema Coronado Guadalupe Correa Cabrera Michelle Keck Victor Konrad Francisco Lara
