Michael Oakeshott An Introduction

Stephen A. Chavura

Michael Oakeshott An Introduction:

Michael Oakeshott Paul Franco,2004-01-01 In this book Paul Franco provides an authoritative introduction to the life and thought of Michael Oakeshott one of the most important philosophical voices of the twentieth century After sketching a brief biography of Oakeshott Franco then examines his most distinctive ideas including his early idealist theory of knowledge his influential critique of rationalism and central social planning and his liberal theory of civil association Though best known as a political philosopher Oakeshott also made significant contributions to the philosophy of history aesthetics the philosophy of religion and the philosophy of education Franco highlights Oakeshott's impressive achievements in each of these areas His book is an essential introduction to the whole range of Oakeshott's thought and it sets the philosopher's work in historical context while also demonstrating its relevance to contemporary debates in political philosophy Michael Oakeshott's

Skepticism Aryeh Botwinick,2010-11-01 The English philosopher Michael Oakeshott 1901-1990 is known as a conservative who rejected philosophically ambitious rationalism and the grand political ideologies of the twentieth century on the grounds that no human ideas have ultimately reliable foundations Instead he embraced tradition and habit as the guides to moral and political life In this book Aryeh Botwinick presents an original account of Oakeshott's skepticism about foundations an account that newly reveals the unity of his thought Botwinick argues that despite Oakeshott's pragmatic conservatism his rejection of all embracing intellectual projects made him a friend to liberal individualism and an ally of what would become postmodern antifoundationalism Oakeshott's skepticism even extended paradoxically to skepticism about skepticism itself and is better described as a generalized agnosticism Properly conceived and translated this agnosticism ultimately evolves into mysticism which becomes a bridge linking philosophy and religion Botwinick explains and develops this strategy of interpretation and then shows how it illuminates and unifies the diverse strands of Oakeshott's thought in the philosophy of religion metaphysics epistemology political theory philosophy of personal identity philosophy of law and philosophy of history

Political Philosophy in the Twentieth Century Catherine H. Zuckert,2011-08-29 This book demonstrates the rich diversity and depth of political philosophy in the twentieth century Catherine H Zuckert has compiled a collection of essays recounting the lives of political theorists connecting each biography with the theorist's life work and explaining the significance of the contribution to modern political thought The essays are organized to highlight the major political alternatives and approaches Beginning with essays on John Dewey Carl Schmitt and Antonio Gramsci representing the three main political alternatives liberal fascist and communist at mid century the book proceeds to consider the lives and works of migrants such as Hannah Arendt Eric Voegelin and Leo Strauss who brought a continental perspective to the United States after World War II The second half of the collection contains essays on recent defenders of liberalism such as Friedrich Hayek Isaiah Berlin and John Rawls and liberalism's many critics including Michel Foucault Jürgen Habermas and Alasdair MacIntyre The Fantastic Book of Everybody's Secrets Sophie Hannah,2020-01-01 Everybody has their secrets and in

Sophie Hannah's fantastic stories the curtains positively twitch with them Who for instance is the hooded figure hiding in the bushes outside a young man's house Why does the same stranger keep appearing in the background of a family's holiday photographs What makes a woman stand mesmerised by two children in a school playground children she's never met but whose names she knows well And which secret results in a former literary festival director sorting soiled laundry in a shabby hotel All will be revealed but at a cost As Sophie Hannah uncovers the dark obsessions and strange longings behind the most ordinary relationships life will never seem quite the same again

Oakeshott's Skepticism, Politics, and Aesthetics Eric

S. Kos, 2021-12-01 This collection engages the work of Michael Oakeshott predominantly on the themes of his skepticism politics and aesthetics An international set of authors engages and expands the analysis of Oakeshott's writings in often neglected areas and topics and in ways that brings Oakeshott into conversation with a surprisingly diverse set of thinkers

Appropriating Hobbes David Boucher, 2018-03-09 This book explores how Hobbes's political philosophy has occupied a pertinent place in different contexts and how his interpreters see their own images reflected in him or how they define themselves in contrast to him Appropriating Hobbes argues that there is no Hobbes independent of the interpretations that arise from his appropriation in these various contexts and which serve to present him to the world There is no one perfect context that enables us to get at what Hobbes really meant despite the numerous claims to the contrary He is almost indistinguishable from the context in which he is read This contention is justified with reference to hermeneutics and particularly the theories of Gadamer Koselleck and Ricoeur contending that through a process of distancing Hobbes's writings have been appropriated and commandeered to do service in divergent contexts such as philosophical idealism debates over the philosophical versus historical understanding of texts as well as in ideological disputations and emblematic characterisations of him by various disciplines such as law politics and international relations This volume illustrates the capacity of a text to take on the colouration of its surroundings by exploring and explicating the importance of contexts in reading and understanding how and why particular interpretations of Hobbes have emerged such as those of Carl Schmitt and Michael Oakeshott or the international jurists of the seventeenth eighteenth and nineteenth centuries

The Activity of Politics and Related Essays Wendell John Coats, 1989 Animated by the single theme of the nature of politics this collection of ten essays addresses such diverse topics as liberalism education arms control the relation of politics to armed force the theories of Michael Oakeshott Karl Marx John Dewey and Alberto Moravia and the challenges to politics in a republic

International Handbook of Philosophy of Education Paul Smeyers, 2018-06-09 This handbook presents a comprehensive introduction to the core areas of philosophy of education combined with an up to date selection of the central themes It includes 95 newly commissioned articles that focus on and advance key arguments each essay incorporates essential background material serving to clarify the history and logic of the relevant topic examining the status quo of the discipline with respect to the topic and discussing the possible futures of the field The book provides a state of the art overview of

philosophy of education covering a range of topics Voices from the present and the past deals with 36 major figures that philosophers of education rely on Schools of thought addresses 14 stances including Eastern Indigenous and African philosophies of education as well as religiously inspired philosophies of education such as Jewish and Islamic Revisiting enduring educational debates scrutinizes 25 issues heavily debated in the past and the present for example care and justice democracy and the curriculum New areas and developments addresses 17 emerging issues that have garnered considerable attention like neuroscience videogames and radicalization The collection is relevant for lecturers teaching undergraduate and graduate courses in philosophy of education as well as for colleagues in teacher training Moreover it helps junior researchers in philosophy of education to situate the problems they are addressing within the wider field of philosophy of education and offers a valuable update for experienced scholars dealing with issues in the sub discipline Combined with different conceptions of the purpose of philosophy it discusses various aspects using diverse perspectives to do so

Contributing Editors Section 1 Voices from the Present and the Past Nuraan Davids Section 2 Schools of Thought Christiane Thompson and Joris Vlieghe Section 3 Revisiting Enduring Debates Ann Chinnery Naomi Hodgson and Viktor Johansson Section 4 New Areas and Developments Kai Horsthemke Dirk Willem Postma and Claudia Ruitenberg **Political**

Thinking, Political Theory, and Civil Society Steven M DeLue, Timothy Dale, 2015-09-04 A comprehensive overview of the Western tradition of political thought that approaches concepts with the aim of helping readers develop their own political thinking and critical thinking skills This text is uniquely organized around the theme of civil society what is the nature of a civil society why is it important that will engage students and help make the material relevant Major thinkers discussed in the text are explored not only with the goal of understanding their views but also with an interest in understanding the relationship of their ideas to the notion of a civil society DeLue contends that a civil society is important for securing the way of life that most of us value and want to preserve a way of life that allows people to live freely and place significance on their own lives

Tudor Protestant Political Thought 1547-1603 Stephen A. Chavura, 2011-05-23 The Reformation of the sixteenth century is commonly seen as the transitional period between the medieval and the modern worlds This study examines the political thought of England during its period of religious reform from the reign of Edward VI to the death of Elizabeth I The political thought of Tudor ecclesiastics was heavily informed by the institutional and intellectual upheavals in England and on the continent producing tensions between traditional ways of conceptualising politics and new religious and political realities This book offers a study of natural law providentialism cosmic order political authority and government by consent in Protestant political thought during a transitional period in English history It shows how the Reformation was central to the birth of modern political thought

The Invisible Origins of Legal Positivism W.E. Conklin, 2012-12-06 Conklin's thesis is that the tradition of modern legal positivism beginning with Thomas Hobbes postulated different senses of the invisible as the authorising origin of humanly posited laws Conklin re reads the tradition by privileging how the canons share

a particular understanding of legal language as written. Leading philosophers who have espoused the tenets of the tradition have assumed that legal language is written and that the authorising origin of humanly posited rules/norms is inaccessible to the written legal language. Conklin's re-reading of the tradition teases out how each of these leading philosophers has postulated that the authorising origin of humanly posited laws is an unanalysable externality to the written language of the legal structure. As such, the authorising origin of posited rules/norms is inaccessible or invisible to their written language. What is this authorising origin? Different forms include an originary author, an a priori concept and an immediacy of bonding between person and laws. In each case, the origin is unwritten in the sense of being inaccessible to the authoritative texts written by the officials of civil institutions of the sovereign state. Conklin sets his thesis in the context of the legal theory of the polis and the pre-polis of Greek tribes. The author claims that the problem is that the tradition of legal positivism of a modern sovereign state excises the experiential or bodily meanings from the written language of the posited rules/norms, thereby forgetting the very pre-legal authorising origin of the posited norms that each philosopher admits as offering the finality that legal reasoning demands if it is to be authoritative.

H.G. Wells and the Twenty-First Century Bill

Cooke, 2023-09-15. H.G. Wells has been branded as a novelist who betrayed his vocation. But Wells saw himself as what we would today call a public intellectual. How credible is this claim? And what happens when we look at him in this way? So typecast has Wells's reputation become that neither of these questions has been previously asked, but when we look at Wells as a thinker, we find a whole new quality to his later works which have invariably been dismissed by literary scholars as of low quality or even not worth reading. In particular, Wells's prescience as a prophet of our current environmental problems stands out. For example, he foresaw anthropogenic climate change as early as 1931. Popular conceptions of Wells as racist imperialist and eugenicist are also challenged. What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty-first century.

The Moral, Social and Political Philosophy of the British Idealists

William Sweet, 2017-03-17. The British idealists of the late 19th and early 20th century are best known for their contributions to metaphysics, logic and political philosophy. Yet they also made important contributions to social and public policy, social and moral philosophy and moral education, as shown by this volume. Their views are not only important in their own right but also bear on contemporary discussion in public policy and applied ethics. Among the authors discussed are Green, Caird, Ritchie, Bradley, Bosanquet, Jones, McTaggart, Pringle, Pattison, Webb, Ward, Mackenzie, Hetherington, Muirhead, Collingwood and Oakeshott. The writings of idealist philosophers from Canada, South Africa and India are also examined. Contributors include Avital, Simhony, Darin, Nesbitt, Carol, A. Keene, Stamatoula, Panagakou, David, Boucher, Leslie, Armour, Jan, Olof, Bengtsson, Thom, Brooks, James, Connelly, Philip, MacEwen, Efraim, Podoksik, Elizabeth, Trott and William Sweet.

Sword and Scales Martin

Loughlin, 2000-07-24. This short and accessible book provides a provocative re-assessment of the various tangled relationships between law and politics and in so doing examines legal and political thinking on such critical areas as justice, the state

constitutionalism and rights It introduces lawyers especially to certain important themes in some of the key texts in political thought and introduces political scientists to the legal dimensions of a number of central themes of political studies Written by one of the leading theorists in constitutional law the book should prove to be an indispensable companion for any student or teacher interested in law and politics Contents I Law and Politics in the Conversation of Mankind II Justice III The State IV Constitutionalism V Conclusions

Surviving the Future David Fleming, Shaun Chamberlin, 2016 *Surviving the Future* is a story drawn from the fertile ground of the late David Fleming's extraordinary *Lean Logic: A Dictionary for the Future and How to Survive It* That hardback consists of four hundred and four interlinked dictionary entries inviting readers to choose their own path through its radical vision Recognizing that *Lean Logic*'s sheer size and unusual structure can be daunting Fleming's long time collaborator Shaun Chamberlin has selected and edited one of these potential narratives to create *Surviving the Future* The content rare insights and uniquely enjoyable writing style remain Fleming's but are presented here at a more accessible paperback length and in conventional read it front to back format The subtitle *Culture Carnival and Capital in the Aftermath of the Market Economy* hints at Fleming's vision He believed that the market economy will not survive its inherent flaws beyond the early decades of this century and that its failure will bring great challenges but he did not dwell on this We know what we need to do We need to build the sequel to draw on inspiration which has lain dormant like the seed beneath the snow *Surviving the Future* lays out a compelling and powerfully different new economics for a post growth world One that relies not on taut competitiveness and eternally increasing productivity putting the grim into reality but on the play humor conversation and reciprocal obligations of a rich culture Building on a remarkable breadth of intellectual and cultural heritage from Keynes to Kumar Homer to Huxley Mumford to MacIntyre Scruton to Shiva Shakespeare to Schumacher Fleming describes a world in which as he says there will be time for music This is the world that many of us want to live in yet we are told it is idealistic and unrealistic With an evident mastery of both economic theory and historical precedent Fleming shows that it is not only desirable but actually the only system with a realistic claim to longevity With friendliness humor and charm *Surviving the Future* plucks this vision out of our daydreams and shows us how to make it real

Jewish Exiles and European Thought in the Shadow of the Third Reich David Weinstein, Avihu Zakai, 2017-07-06 Hans Baron Karl Popper Leo Strauss and Erich Auerbach were among the many German speaking Jewish intellectuals who fled Continental Europe with the rise of Nazism in the 1930s Their scholarship though not normally considered together is studied here to demonstrate how despite their different disciplines and distinctive modes of working they responded polemically in the guise of traditional scholarship to their shared trauma For each the political calamity of European fascism was a profound intellectual crisis requiring an intellectual response which Weinstein and Zakai now contextualize ideologically and politically They exemplify just how extensively and sometimes how subtly 1930s and 1940s scholarship was used not only to explain but to fight the political evils that had infected modernity victimizing so many An original perspective

on a popular area of research this book draws upon a mass of secondary literature to provide an innovative and valuable contribution to twentieth century intellectual history Hobbes and the Law David Dyzenhaus, Thomas Poole, 2012-08-30 Hobbes's political thought provokes a perennial fascination. It has become particularly prominent in recent years with the surge of scholarly interest evidenced by a number of monographs in political theory and philosophy. At the same time there has been a turn in legal scholarship towards political theory in a way that engages recognisably Hobbesian themes for example the relationship between security and liberty. However there is surprisingly little engagement with Hobbes's views on legal theory in general and on certain legal topics despite the fact that Hobbes devoted whole works to legal inquiry and gave law a prominent role in his works focused on politics. This volume seeks to remedy this gap by providing the first collection of specially commissioned essays devoted to Hobbes and the law **Philosophical Foundations of Tax Law** Monica Bhandari, 2017-02-09 Tax law changes at a startling rate not only does societal change bring with it demands for change in the tax system but changes in the political climate will force change as will many other competing pressures. With this pace of change it is easy to focus on the practical and forget the core underpinnings of the tax system and their philosophical justifications. Taking a pause to remind ourselves of those principles and how they can operate in the modern tax system is crucial to ensuring that the tax system does not diverge too far from what it should be or could be. It is essential to understand the answers to some of the seemingly basic questions that surround tax before we can even begin to think about what a tax system should look like. This collection brings together major themes and difficult questions in the philosophical foundations of tax law. The chapters consider practical issues such as justification, enforcement, design and mechanics and provide a full and coherent analysis of the basis for tax law. **Philosophical Foundations of Tax Law** allows the reader to consider how tax systems should move forward in the modern world with a sound philosophical basis to provide the practical tax system that the state requires and citizens deserve The Afterlife of Idealism Admir Skodo, 2016-06-01 This book examines the legacy of philosophical idealism in twentieth century British historical and political thought. It demonstrates that the absolute idealism of the nineteenth century was radically transformed by R. G. Collingwood, Michael Oakeshott and Benedetto Croce. These new idealists developed a new philosophy of history with an emphasis on the study of human agency and historicist humanism. This study unearths the impact of the new idealism on the thought of a group of prominent revisionist historians in the welfare state period focusing on E. H. Carr, Isaiah Berlin, G. R. Elton, Peter Laslett and George Kitson Clark. It shows that these historians used the new idealism to restate the nature of history and to revise modern English history against the backdrop of the intellectual, social and political problems of the welfare state period, thus making new idealist revisionism a key tradition in early postwar historiography **The Necessity of Nature** Mónica García-Salmones Rovira, 2023-02-23 A study of the natural law ideas of the seventeenth century Scientific Revolution and their impact on the philosophy of law.

The Enigmatic Realm of **Michael Oakeshott An Introduction**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Michael Oakeshott An Introduction** a literary masterpiece penned by way of a renowned author, readers attempt a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of those that partake in its reading experience.
