Michael Todd's Around the World in 80 Days Art Cohn,1957* **The Moviegoing Experience, 1968-2001** Richard W. Haines,2010-06-28 The experience of going to the movies be it a single screen theater twin multiplex or drive in is affected by many different factors that have shifted over the years Just as movies emerged from silent to talking black and white to color there has invariably been change in the way movies are made copied distributed and viewed This change in the moviegoing experience for better or for worse is worth studying This work examines the American moviegoing experience from 1968 to 2001 the way in which movies are made and regulated including the demise of the Production Code and the emergence of the ratings system as well as changes in lighting cinematography and coloring techniques The projection practices of the past and present during and after the presence of the Projectionists Union and the advent of the platter which allowed for automated projection are discussed How home video and cable affected the content of films after the eighties and the history of computerized special effects leading to the development of digital cinema projection are included The work also covers the changing types of venues over the last third of a century and other aspects that affect positively or negatively the entire moviegoing experience *Off Broadway Musicals, 1910-2007* Dan Dietz,2010-03-10 Despite an often unfair reputation as being less popular less successful or less refined than their bona fide Broadway counterparts Off Broadway musicals deserve their share of critical acclaim and study A number of shows originally staged Off Broadway have gone on to their own successful Broadway runs from the ever popular *A Chorus Line* and *Rent* to more off beat productions like *Avenue Q* and *Little Shop of Horrors* And while it remains to be seen if other popular Off Broadway shows like *Stomp* *Blue Man Group* and *Altar Boyz* will make it to the larger Broadway theaters their Off Broadway runs have been enormously successful in their own right This book discusses more than 1 800 Off Broadway Off Off Broadway showcase and workshop musical productions It includes detailed descriptions of Off Broadway musicals that closed in previews or in rehearsal selected musicals that opened in Brooklyn and in New Jersey and American operas that opened in New York along with general overviews of Off Broadway institutions such as the Light Opera of Manhattan The typical entry includes the name of the host theater or theaters the opening date and number of performances the production s cast and creative team a list of songs a brief plot synopsis and general comments and reviews from the New York critics Besides the individual entries the book also includes a preface a bibliography and 21 appendices including a discography filmography a list of published scripts and lists of musicals categorized by topic and composer *Hollywood Presents Jules Verne* Brian Taves,2015-05-26 An illuminating look at how filmmakers have taken us around the world under the sea and to the center of the earth over the

course of a century Milwaukee Express Even for those who have never read Jules Verne the author's very name conjures visions of the submarine in *Twenty Thousand Leagues Under the Sea* the epic race in *Around the World in Eighty Days* the spacecraft in *From the Earth to the Moon* and the daring descent in *Journey to the Center of the Earth* One of the most widely translated authors of all time Verne has inspired filmmakers since the early silent period and continues to fascinate audiences more than a century after his works were first published His riveting plots and vivid descriptions easily transform into compelling scripts and dramatic visual compositions In *Hollywood Presents Jules Verne* Brian Taves investigates the indelible mark that the author has left on English language cinema Adaptations of Verne's tales have taken many forms early movie shorts serials feature films miniseries and television shows and have been produced as both animated and live action films Taves illuminates how as these stories have been made and remade over the years each new adaptation looks back not only to Verne's words but also to previous screen incarnations He also examines how generations of actors have portrayed iconic characters such as Phileas Fogg and Captain Nemo and how these figures are treated in pastiches such as *Journey 2: The Mysterious Island* Investigating the biggest box office hits as well as lower budget productions this comprehensive study will appeal not only to fans of the writer's work but also to readers interested in the ever-changing relationship between literature theater and film

The Future Revisited Francoise Schiltz, 2012-05-04 *The Future Revisited* examines Hollywood adaptations of Jules Verne stories and is an interdisciplinary study that offers a fresh perspective on film history French literature science fiction and America in the 1950s It is a fascinating and authoritative account of how the stories of Jules Verne a distinguished French novelist better known around the world as the father of science fiction and an accurate predictor of much of the twentieth century found particular resonance with US filmmakers in the 1950s Schiltz looks at four of the most popular films *Around the World in 80 Days* *20,000 Leagues Under the Sea* *Journey to the Center of the Earth* and *Mysterious Island* and argues that there were many parallels between Verne's technological adventures and postwar America with its theme parks shopping malls Levittowns and plethora of consumer goods Just as nineteenth century readers of Verne's books could experience travel from the comfort of their seats viewers of these films could be swept away on an imaginary flight a voyage in a submarine or a trek to the earth's core all in spectacular widescreen and with ground-breaking special effects Yet the pleasures offered were ambivalent encounters with exotic places and cultures might have led the audience to question common assumptions such as gender roles seeing futuristic domestic spaces could highlight the confusion of attitudes to private and public life in suburbia and the films blending of nostalgia and progress might draw attention to society's tug of war between innovation and conformity
