Michael Young:

Michael Young, Social Science, and the British Left, 1945-1970 Lise Butler, 2020-09-02 In post war Britain left wing policy maker and sociologist Michael Young played a major role in shaping British intellectual political and cultural life using his study of the social sciences to inform his political thought In the mid twentieth century the social sciences significantly expanded and played a major role in shaping British intellectual political and cultural life Central to this intellectual shift was the left wing policy maker and sociologist Michael Young As a Labour Party policy maker in the 1940s Young was a key architect of the Party's 1945 election manifesto *Let Us Face the Future* He became a sociologist in the 1950s publishing a classic study of the East London working class *Family and Kinship in East London* with Peter Willmott in 1957 which he followed up with a dystopian satire *The Rise of the Meritocracy* about a future society in which social status was determined entirely by intelligence Young was also a prolific social innovator founding or inspiring dozens of organisations including the Institute of Community Studies the Consumers Association Which magazine the Social Science Research Council and the Open University Moving between politics social science and activism Young believed that disciplines like sociology psychology and anthropology could help policy makers and politicians understand human nature which in turn could help them to build better political and social institutions This book examines the relationship between social science and public policy in left wing politics between the end of the Second World War and the end of the first Wilson government through the figure of Michael Young Drawing on Young's prolific writings and his intellectual and political networks it argues that he and other social scientists and policy makers drew on contemporary ideas from the social sciences to challenge key Labour values like full employment and nationalisation and to argue that the Labour Party should put more emphasis on relationships family and community Showing that the social sciences were embedded in the project of social democratic governance in post war Britain it argues that historians and scholars should take their role in British politics and political thought seriously **Artist File** Michael Young, 2019 *The Solidarity Economy* Tehila Sasson, 2024-05-28

Histories of the economy often characterize the post war era as one of demoralization in which the rise of monetarism and neoliberalism marked a moral decline in public life The story Tehila Sasson tells here by contrast uncovers the humanitarian moral and popular origins of a new form of cultural capitalism one which promised that commerce could offer ethical progress after empire Unlike the more common story about the neoliberal and conservative right it focuses on the role of the British left and the nonprofit sector in particular in this transformation It follows economists MPs campaigners activists and journalists of the British left all of whom turned away from state led development towards a vision of decentralized fair trade markets For the key actors in this story it was the state not the marketplace that was morally vacant Haunted by the specter of imperial political economy they sought to bypass the state as the primary organizer of economic life Provided by publisher

Handbook of Equality of Opportunity, 2024-07-12 This Handbook provides an authoritative exposition of equality of opportunity It presents the different concepts most commonly associated with equality of opportunity and discusses the many problems dominating the controversies on equality of opportunity at the theoretical policy or practical level The chapters give a concise exposition of the different conceptions and basic concepts of equal opportunities They clarify variables that are part of the algorithm of equal opportunities e g opportunity equality non discrimination fairness responsibility chance and choice excellence qualifications effort talent merit desert inequality and risk The idea of equality of opportunity has traditionally been associated with a set of largely unquestioned ideals and over the last 50 years it has been at the very centre of the major progressive social changes and firmly entrenched in political rhetoric Yet the idea of equality of opportunity is far from unquestionable or unproblematic as the only solid assumption different conceptions have in common is their rejection of fixed

social relations but not hierarchy itself Disagreements over the fundamental principles criticism over the inefficiency of policies aiming to ensure equal opportunities and objections to their unfairness all pose questions that current conceptions answer in different ways This Handbook examines a wide variety of questions about issues of motivation procedures genealogy taxonomy and compensation Register of Commissioned and Warrant Officers of the United States Naval Research and Marine Corps Reserve United States. The Histories of Raphael Samuel Sophie Scott-Brown,2017-05-12 In the first integrated biographical study of his work this book situates British historian Raphael Samuel 1934 1996 in relation to his distinctive form of activist politics as they developed from youthful Cold War communism to the first British New Left 1960s radicalism to the 1980s history wars As the catalyst behind the History Workshop movement Samuel championed the democratisation of history making and practised an eclectic form of people s history in his own work His unique approach was controversial drawing impassioned responses from across the ideological spectrum the most sustained critique often coming from his left wing contemporaries It is argued here that this compelling figure has been unjustly neglected and that he continues to offer important insights into the politics of history making in a post Marxist world

The Failure of Competence-Based Education and the Demand for Bildung Luca Moretti,Alessia Marabini,2025-07-24 This book contrasts two prominent models of education Competence Based Education CBE which is the dominant model in most school systems of the world and Bildung Oriented Education BOE once the basis of school systems of Northern Europe CBE interprets learning as the acquisition of clearly definable and allegedly measurable competences and it is supported by supranational organisations such as the OECD BOE characterises learning holistically aimed at the progressive articulation of a meaningful big picture in the student s mind Moretti and Marabini argue that in spite of its

celebrated scientificity CBE is incoherent and unreliable and contributes to structural forms of oppression and injustice fosters social pathologies and fails to provide students with the kind of intellectual autonomy they need in our complex post industrial societies They defend BOE from objections made by critical theorists poststructuralists and postcolonial thinkers and argue that it is a coherent and flexible model of education that endows students with autonomy and responsibility and can help heal social pathologies The book builds analytical bridges and explores connections between philosophy of education and important issues currently debated in critical theory political philosophy and social epistemology

Urban Theory and the Urban Experience Simon Parker, 2003-11-06 For the first time Urban Theory and the Urban Experience brings together classic and contemporary approaches to urban research in order to reveal the intellectual origins of urban studies and the often unacknowledged debt that empirical and theoretical perspectives on the city owe to one another Both students and urban scholars will appreciate the critical way in which classical and contemporary debates on the nature of the city are presented Extensive use is made throughout of documentary literary and cultural sources to bring the different theoretical perspectives to life Discussion points introduce and explain key concepts and intellectual histories in a jargon free manner End of chapter further readings have also been annotated to encourage additional study
