Benson Professor of Philosophy University of Oklahoma,2000-01-05 While the early Platonic dialogues have often been explored and appreciated for their ethical content this is the first book devoted solely to the epistemology of Plato s early dialogues Author Hugh H Benson argues that the characteristic features of these dialogues Socrates method of questions and answers elenchos his fascination with definition his professions of ignorance and his thesis that virtue is knowledge are decidedly epistemological In this thoughtful study Benson uncovers the model of knowledge that underlies these distinctively Socratic views What emerges is unfamiliar yet closer to a contemporary conception of scientific understanding than ordinary knowledge **Almost Home** Roy J. Greenberg,2011-11 Is there anything more we can do Is entry into God s world possible Is conscious contact with God Himself possible Is our world but a shadow of the world as God would have it be We all ask these questions on our spiritual journey Most of us seek things that promote our wellbeing We want to love and we want to be loved We want to be appreciated We want to be safe We want to be free from worry and other turmoil We want to be content To these ends we devote our lives To these ends we devote our prayers Fortunately a creator is never far from his creation Deep inside many people have asked why it has to be this way Maybe it doesn t Maybe we are Almost Home after all *What Happened on the Cross* Nick Peros,2020-08-07 What Happened on the Cross offers a new and biblical understanding of how salvation was accomplished upon the cross showing that the Penal Substitution view common since the 1500s does not have a biblical basis and also showing that the Christus Victor understanding is inadequate The book is founded upon the understanding that Jesus Christ is the Second Adam and that is the foundation of how we are to understand how salvation was accomplished Both the shedding of blood and death were essential in the accomplishment of salvation and What Happened on the Cross shows why these were essential Using over 740 Scripture verses to make its argument the book gives a comprehensive picture from Genesis to Revelation of the many aspects involved in the accomplishment of salvation above all showing clearly that the cross had nothing to do with punishment for sins our sins were never punished upon the cross rather our sins were forgiven Understanding how salvation was accomplished upon the cross and that it was about forgiveness not punishment both exalts God and his greatness demonstrates his perfect love and justice as well as liberates our hearts towards him **Law, Religion and Love** Paul Babie,Vanja-Ivan Savić,2017-09-01 Increasingly the modern neo liberal world marginalises any notion of religion or spirituality leaving little or no room for the sacred in the public sphere While this process advances the conservative and harmful behaviours associated with some

religions and their adherents exacerbate this marginalisation by driving out those who remain religious or spiritual And all of this is seen through the lens of social science which seems to agree that religion remains important if not in spiritual sense at least as a source of folklore and a means of identification religions remain rooted in the societies from which they emerged and the legal systems of many of those societies emerged from religious sources even if those societies remain unwilling to admit that fact In the modern materialistic world of conformity religion is less a source of guidance than a label of identification The world therefore faces two issues First the decreasing level of spirituality in the West widens the gap between worshippers and those who have left their faith eg agnostics and atheists or those who look at religion as a matter of picking and choosing from a range of options And second the strong connections to religion which remain in many nations but which are often misused in the secular public sphere both in the West and internationally In such divided worlds both religious and secular forces tend to lock themselves into closed groupings of pure truth and in so doing increase the level of disagreement in turn producing radicalism In short the modern world is divided in two ways between religious and non religious although some have argued that the non religious secular is itself a form of civil religion and between those subscribing to divergent understandings of the same religious tradition While hyperbolic and histrionic the term culture wars nonetheless best captures what we see happening in the public sphere today The question emerges then how best to accommodate the democratic principle which posits that the majority should feel that it lives in a society of its own with the human rights principle holding that is necessary to ensure the full protection of the minority's rights How to balance these seemingly opposed principles We are very familiar with the differences that appear between secular and sacred in the modern world yet what of the similarities amongst scriptures and laws which seek to encourage mutual understanding cooperation and even cohabitation Because religion itself is a source of law a set of exhortations or commands as much as a set of rights every major religion offers an approach to encountering the Other in a positive constructive affirming way and it is here that religions reveal much that they have in common This book draws together the work of scholars engaged in exploring the possibilities for a utopian world in the sense fostered by St Thomas More The essays explore those dimensions of religious and civil law where love however that is defined by relevant texts fosters and encourages acceptance of the Other and will offer perspectives on the ways in which religious or civil state law command one to act in the spirit of love

Parting Knowledge James Wetzel, 2013-08-08 There are forms of knowing that seem either to come from a parting or to require one Paradigmatically in Genesis Adam parts from God in order to join in knowledge with his partner the flesh of his flesh and the result is a bereft but not unpromising knowledge looking like a labor of love Saint Augustine famously some would say infamously reads the Genesis paradigm of knowing as a story of original sin where parting is both damnable and disfiguring and reuniting a matter of incomprehensible grace Roughly half the essays in this collection engage directly with Augustine s theological animus and follow his thinking into self division

perversity of will grief conversion and the aspiration for transcendence The remaining ones more concerned with grace than with sin bring an animus more distantly Augustinian to the preemption of forgiveness and the persistence of hell morality and its limits sexual piety strange beauty and a philosophy that takes in confession The common pull of all the essays is towards the imperfection in self knowledge a place of disfigurement perhaps but also a nod to transformation

Frank Anthony Grandison,2008-11-18 **Redeemed to the Utmost** Sijil Oommen,2009-09 Redeemed to the Utmost is a simple logical philosophical book that addresses two important topics of Evil and Security of Salvation in a unique way Even though there are several books on these topics not many are written by a layperson It would not come as a surprise to know that many thinking laypersons have in their own way wrestled with such hard issues The book contains the insights and thoughts of a layperson who took a long and arduous journey to find the answers to difficult questions using the Word of God as the foundation To say that many difficult questions have been answered in a fresh and unique way is not an overstatement Hopefully this book will usher in a fresh debate and lead many Christians to return to the Reformation roots and make Salvation by Grace alone as the victory cry once again Sijil Oommen was born and raised in India in a non Christian culture giving him a unique perspective from which to formulate his views He moved to the United States ten years ago and is active among the large Indian Diaspora in the country being a board member of Galilee Ministries International a group involved in missionary work in India In 1998 he portrayed the leading character in an hour long documentary by CNN International about a person moving from India to an offshore software development company in Barbados A successful software engineer he has served large and small corporations both in U S and abroad Since moving to the U S he has worked in various capacities for several large and small software companies Plato's Ethics Terence Irwin,1995-01-12 This exceptional book examines and explains Plato s answer to the normative question How ought we to live It discusses Plato s conception of the
