Goran Dahl

Radical Conservatism And The Future Of Politics:

Radical Conservatism and the Future of Politics Goran Dahl, 1999-03-28 Over the last 30 years the post war centre ground which recognized the welfare state the funding of education protection of the environment and the management of capitalism as the proper business of the state has fragmented Emphasis on the freedom of the individual and the proper limitations of state power has changed the climate of everyday life This book locates the roots of radical conservatism in the writings of Nietzsche Dostoyevsky Heidegger Junger and Schmitt It documents the radical conservative worldview and points to limitations in its perspective Dahl asserts that we should be wary of considering radical conservatism as a singular phenomenon and discusses global divergences in belief and policy

Beyond Left and Right Anthony Giddens, 2013-08-23 How should one understand the nature and possibilities of political radicalism today The political radical is normally thought of as someone who stands on the left opposing backward looking conservatism In the present day however the left has turned defensive while the right has become radical advocating the free play of market forces no matter what obstacles of tradition or custom stand in their way What explains such a curious twist of perspective In answering this question Giddens develops a new framework for radical politics drawing freely on what he calls philosophic conservatism but applying this outlook in the service of values normally associated with the Left The ecological crisis is at the core of this analysis but is understood by Giddens in an unconventional way as a response to a world in which modernity has run up against its limits as a social and moral order The end of nature as an entity existing independently of human intervention and the end of tradition combined with the impact of globalization are the forces which now have to be confronted made use of and coped with This book provides a powerful interpretation of the rise of fundamentalism of democracy the persistence of gender divisions and the question of a normative political theory of violence It will be essential reading for anyone seeking a novel approach to the political challenges which we face at the turn of the twenty first century

Radical Conservatism and the Future of Politics Goran Dahl, 1999-03-30 Over the last 30 years the post war centre ground which recognized the welfare state the funding of education protection of the environment and the management of capitalism as the proper business of the state has fragmented Emphasis on the freedom of the individual and the proper limitations of state power has changed the climate of everyday life This book locates the roots of radical conservatism in the writings of Nietzsche Dostoyevsky Heidegger Junger and Schmitt It documents the radical conservative worldview and points to limitations in its perspective Dahl asserts that we should be wary of considering radical conservatism as a singular phenomenon and discusses global divergences in belief and policy

Reflections on Conservatism Doğançan Özsel, 2011-09-22 In comparison to other political doctrines conservatism is an understudied subject and there are few books that bring together works of scholars studying conservatism from different perspectives Reflections on Conservatism is among these few pieces and is written for those who are interested in conservative thinking and conservative movements in different countries In Reflections on Conservatism readers will find 13

articles covering a wide range of aspects on conservatism Six of these articles offer analyses of certain theoretical aspects of conservatism and focus on issues such as the definition of conservatism the theme of inequality in conservative thinking and the applicability of conservative principals to postcolonial politics Following these there are seven articles that focus on conservative movements or thinkers from different countries Here readers will find detailed discussions on the contemporary state of British and US conservatisms as well as Sarkozy s UMP There are also other articles that present the portrayal of post war cultural conservatism in Denmark Antall s conservatism in Hungary and radical conservative trends in Turkey

Liberalism Versus Conservatism François B. Gérard,2000 Everyone eschews labels yet we all seem to posses them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author

Gymnastics and politics Hans Bonde,2006 The first international biography of Niels Bukh 1880 1950 the charismatic founder of the special Danish school of modern gymnastics His team of young elite gymnasts travelled around the world demonstrating his gymnastics and in Japan his school is still attracting thousands of pupils Bukh s private life and his fascination with the German Nazi party makes him a very controversial figure even fifty years after his death

International Fascism, 1919-45 Robert Mallett,Gert Sorensen,2013-10-08 The essays that comprise this study of 20th century fascism shift the focus away from the German and Italian models and towards the influence of fascist ideology within other countries

Rebels and Renegades Neil A. Hamilton,2002-10-11 Rebels and Renegades examines 350 years of history through the eyes of the uncompromising Presented in nine clearly written chronological chapters this comprehensive reference covers the major events and personalities in the history of extremism in the U S Besides chronicling the event itself entries ranging from 500 to 1000 words include background information and historic effects In addition to the chronology sidebars highlight historical biographical cultural and ethical aspects of the story tying the past to the present Topics include the influence of radical idea on the mainstream the role of violence in radicalism and the evolving relationship between radicals and the media An extensive appendix of excerpts transcripts and full source documents round out the work To see the Introduction a list of detailed contents a generous selection of sample pages and more visit the Rebels and Renegades website

International Bibliography of Political Science Compiled by the British Library of Political and Economic Science,2000-02 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences

Right-Wing Critics of American Conservatism George Hawley, 2017-07-31 The American conservative movement as we know it faces an existential crisis as the nation's demographics shift away from its core constituents older white middle class Christians It is the American conservatism that we don't know that concerns George Hawley in this book During its ascendancy leaders within the conservative establishment have energetically policed the movement's boundaries effectively keeping alternative versions of conservatism out of view Returning those neglected voices to the story *Right Wing Critics of American Conservatism* offers a more complete complex and nuanced account of the American right in all its dissonance in history and in our day The right wing intellectual movements considered here differ both from mainstream conservatism and from each other when it comes to fundamental premises such as the value of equality the proper role of the state the importance of free markets the place of religion in politics and attitudes toward race In clear and dispassionate terms Hawley examines localists who exhibit equal skepticism toward big business and big government paleoconservatives who look to the distant past for guidance and wish to turn back the clock radical libertarians who are not content to be junior partners in the conservative movement and various strains of white supremacy and the radical right in America In the Internet age where access is no longer determined by the select few the independent right has far greater opportunities to make its many voices heard This timely work puts those voices into context and historical perspective clarifying our understanding of the American right past present and future

Contemporary Far-Right Thinkers and the Future of Liberal Democracy A. James McAdams, Alejandro Castrillon, 2021-09-27 This book is the first systematic analysis of the efforts of a broad range of contemporary far right thinkers to popularize their critiques of liberal democratic norms and institutions and make their ideas the subjects of sustained political and academic debate The book focuses on outspoken thinkers in western and eastern Europe Russia the United States Canada and Australia They include Alain de Benoist Guillaume Faye G tz Kubitschek Pat Buchanan Fr i Midjord Jason Jorjani contributors to the online magazine Quillette and the elusive personality known as the Bronze Age Pervert The book explores the diverse intellectual foundations of these thinkers positions the similarities and differences in their ideas and their prospects for influencing attitudes about democratic politics within their respective countries It examines diverse movements and schools of thought including the European New Right Paleoconservatism the Alt right Identitarianism White nationalism and antifeminism Providing a much needed global perspective this book will be of considerable interest to students and scholars of populism right wing extremism identity politics fascism racism and conservatism

America Right or Wrong : An Anatomy of American Nationalism Anatol Lieven Senior Associate for Foreign and Security Policy Carnegie Endowment for International Peace, 2004-10-15 America keeps a fine house Anatol Lieven writes but in its cellar there lives a demon whose name is nationalism In this controversial critique of America's role in the world Lieven contends that U S foreign policy since 9 11 has been shaped by the special character of our national identity which embraces two contradictory features One The American Creed is a civic nationalism which espouses liberty democracy

and the rule of law It is our greatest legacy to the world But our almost religious belief in the Creed creates a tendency toward a dangerously messianic element in American nationalism the desire to extend American values and American democracy to the whole world irrespective of the needs and desires of others The other feature populist or what is sometimes called Jacksonian nationalism has its roots in an aggrieved embittered and defensive White America centered largely in the American South Where the Creed is optimistic and triumphalist Jacksonian nationalism is fed by a profound pessimism and a sense of personal social religious and sectional defeat Lieven examines how these two antithetical impulses have played out in recent US policy especially in the Middle East and in the nature of U S support for Israel He suggests that in this region the uneasy combination of policies based on two contradictory traditions have gravely undermined U S credibility and complicated the war against terrorism It has never been more vital that Americans understand our national character This hard hitting critique directs a spotlight on the American political soul and on the curious mixture of chauvinism and idealism that has driven the Bush administration

The Future Of Democratic Equality Joseph M. Schwartz, 2008-10-31 2011

David Easton Award presented for the best book by the Foundations of Political Theory section of APSA The Future of Democratic Equality by Joseph Schwartz takes on three tasks and accomplishes all brilliantly Any one of these tasks well fulfilled would have been a laudable achievement First Schwartz argues for the centrality of the question of equality to democratic politics Second he critically analyzes and explains the shocking rise in inequality in the United States over the last three decades This he does with conceptual clarity rich interdisciplinary analysis and a thorough examination of hard socioeconomic data Third he assails the near absence of concern for this soaring inequality among contemporary political theorists and offers a cogent and stinging explanation that takes to task the discipline's preoccupation with difference and identity severed from the pragmatics of democratic equality The Future of Democratic Equality is a courageous and disciplined effort to tackle a hugely important political problem and intellectual puzzle It well embodies the spirit of the Easton Book Award by providing well grounded normative theory targeted to an urgent matter of contemporary concern It is a must read for anyone who cares about democracy Respectfully submitted by Leslie Paul Thiele University of Florida chair and Cary J Nederman Texas A M University Why has contemporary radical political theory remained virtually silent about the stunning rise in inequality in the United States over the past thirty years Schwartz contends that since the 1980s most radical theorists shifted their focus away from interrogating social inequality to criticizing the liberal and radical tradition for being inattentive to the role of difference and identity within social life This critique brought more awareness of the relative autonomy of gender racial and sexual oppression But as Schwartz argues it also led many theorists to forget that if difference is institutionalized on a terrain of radical economic inequality unjust inequalities in social and political power will inevitably persist Schwartz cautions against a new radical theoretical orthodoxy that universal norms such as equality and solidarity are inherently repressive and homogenizing whereas particular norms and identities are truly emancipatory Reducing inequality

among Americans as well as globally will take a high level of social solidarity a level far from today's fragmented politics. In focusing the left's attention on the need to reconstruct a governing model that speaks to the aspirations of the majority, Schwartz provocatively applies this vision to such real world political issues as welfare reform, race relations, childcare, and the democratic regulation of the global economy.

Research Handbook on the Future of Work and Employment Relations Keith Townsend, Adrian Wilkinson, 2011-01-01 This is an enlightening text on the subject of employment and work relations that will be useful for students in economics specifically those studying labor relations. Lucy Heckman, American Reference Books Annual 2012 The broad field of employment relations is diverse and complex and is under constant development and reinvention. This Research Handbook discusses fundamental theories and approaches to work and employment relations and their connection to broader political and societal changes occurring throughout the world. It provides comprehensive coverage of work and employment relations theory and practice. This up to date research compendium has drawn together a range of international authors from diverse disciplinary backgrounds. There are chapters from labour historians, theoreticians, more mainstream industrial relations scholars, sociologists, organizational psychologists, geographers, policy advisors, economists, and lawyers. At the heart of each chapter is the notion that the world of work and employment relations has changed substantially since the halcyon days of IR throughout the Dunlop Era of the 1950s. However, many areas of enquiry remain and more questions have developed with society and technology. This Handbook reflects this view. As the field of study and practice continues to evolve throughout the twenty first century, what lessons have we learnt from the past and what can we expect in the future? Academics and postgraduate students researching industrial relations, human resource management, employment relations, industrial sociology, and sociology of work will find this important resource invaluable.

Barack Obama and the Future of American Politics Paul Street, 2015-12-22 Many Americans believe Barack Obama represents a hopeful future for America. But does he also reflect the American politics of the past? This book offers the broadest and best informed understanding on the meaning of the Obama phenomenon to date. Paul Street was on the ground throughout the Iowa campaign and his stories of the rising Obama phenomenon are poignant. Yet the author's background in American political history allows him to explore the deeper meanings of Obama's remarkable political career. He looks at Obama in relation to contemporary issues of class, race, war, and empire. He considers Obama in the context of our nation's political history with comparisons to FDR, JFK, Bill Clinton, and other leaders. Street finds that the Obama persona crafted by campaign consultants and filtered through dominant media trends masks the candidate's adherence to long prevailing power structures and party doctrines. He shows how American political culture has produced misperceptions by the electorate of Obama's positions and values. Obama is no magical exception to the narrow spectrum electoral system and ideological culture that have done so much to define and limit the American political tradition. Yet the author suggests key ways in which Obama potentially advances democratic transformation. Street makes recommendations

on how citizens can productively respond to and act upon Obama's influence and the broader historical and social forces that have produced his celebrity and relevance. He also lays out a real agenda for change for the new presidential administration one that addresses the recent failures of democratic politics.

The Other Side of the Sixties John A. Andrew, 1997
Contains primary source documents
It Did Happen Here: The Rise of Fascism in Contemporary Society Milan Zafirovski, 2023-04-12
This book argues and demonstrates that fascism did happen in contemporary society such as especially America as during post 2016. It classifies and discusses the main elements of fascism to see if these reveal and replicate themselves in America post 2016. It discovers the specific syndromes of fascism in America post 2016 that reveal and replicate universal fascist features. It detects the main social causes of fascism in America post 2016. It identifies primary counterforces to fascism in America and elsewhere. Lastly, the book constructs a composite fascism index and calculates fascism indexes for Western and comparable societies like OECD countries. These indexes provide suggestive evidence that fascism happened in America and other OECD countries even if not in Western Europe especially Scandinavia.

Wittgenstein and the Study of Politics Michael Temelini, 2015-01-01
In *Wittgenstein and the Study of Politics* Michael Temelini outlines an innovative new approach to understanding the political implications of Wittgenstein's philosophy. Most political philosophers who have approached Wittgenstein have done so through the idea of therapeutic skepticism implying politics that privilege conservatism or non-interference. Temelini interprets Wittgenstein differently, emphasizing his view that we come to understand the meanings of words and actions through a dialogue of comparison with other cases. Examining the work of Charles Taylor, Quentin Skinner, and James Tully, Temelini highlights the ways in which all three, despite their differences, share a common debt to that dialogical approach. A cogent explanation of how Wittgenstein's epistemology and ontology can shed light on political issues and offer a solution to political challenges. *Wittgenstein and the Study of Politics* highlights the importance of Wittgensteinian thinking in contemporary political science, political theory, and political philosophy.

The Future of America's Political Parties Andrew Busch, 2007-01-01
The *Future of America's Political Parties* tackles a question certain to occupy citizens and students of politics for years to come: Where do the parties stand in relation to their historic ideals, the voters, and each other? Specific issues include Democratic vulnerabilities on moral values and national security, Republican disillusionment with compassionate conservatism, the challenges of the new campaign finance regimen, the future of party organization, and the role of cultural issues in the parties.
Conservatism and American Political Development Brian J. Glenn, Steven M. Teles, 2009
Through a sustained historical analysis of three of the most important issues in American politics—Social Security, environmental regulation, and federal education policy—*Conservatism and American Political Development* explores how conservatives have helped shape U.S. domestic policy and how the growth of the American state has in turn shaped conservatism. Featuring leading scholars of American political development, the book traces the evolution of each issue over the course of three epochs: the New Deal, the Great Society era, and the Reagan era.

Throughout it emphasizes the ironic role of conservatism in the expansion of the American state As conservatives increased their presence in the federal apparatus they were frequently co opted into maintaining or even expanding regulatory and public fiscal power At times conservatives also came to accept the existence of the liberal state but attempted to use it to achieve conservative policy ends Despite conservatives power in U S politics and governance over the last quarter century big government remains As Conservatism and American Political Development shows conservatism has not only helped shape the state but has been shaped by it as well

Radical Conservatism And The Future Of Politics Book Review: Unveiling the Power of Words
