# Radical Perspectives On The Rise Of Fascism In Germany 1919 1945

**Michael N. Dobkowski**

## **Radical Perspectives On The Rise Of Fascism In Germany 1919 1945:**

Radical Perspectives Germany Michael N. Dobkowski, 1989-01-01      **Radical Perspectives on the Rise of Fascism in Germany, 1919-1945** Michael N. Dobkowski, Isidor Wallimann, 1989      **Radical Perspectives on the Rise of Fascism in Germany, 1919 - 1945** Michael N. Dobkowski, 2003      **The Routledge Companion to Nazi Germany** Roderick Stackelberg, 2007-12-12 The Routledge Companion to Nazi Germany combines a concise narrative overview with chronological bibliographical and tabular information to cover all major aspects of Nazi Germany This user friendly guide provides a comprehensive survey of key topics such as the origins and consolidation of the Nazi regime the Nazi dictatorship in action Nazi foreign policy the Second World War the Holocaust the opposition to the regime and the legacy of Nazism Features include detailed chronologies a discussion of Nazi ideology succinct historiographical overview with more detailed information on more than sixty major historians of Nazism biographies of 150 leading figures of Nazi Germany a glossary of terms concepts and acronyms maps and tables a concise thematic bibliography of works on the Third Reich This indispensable reference guide to the history and historiography of Nazi Germany will appeal to students teachers and general readers alike      Hitler's Germany Roderick Stackelberg, 2002-01-22 Hitler's Germany provides a comprehensive narrative history of Nazi Germany and sets it in the wider context of nineteenth and twentieth century German history Roderick Stackelberg analyzes how it was possible that a national culture of such creativity and achievement could generate such barbarism and destructiveness This second edition has been updated throughout to incorporate recent historical research and engage with current debates in the field It includes an expanded introduction focusing on the hazards of writing about Nazi Germany an extended analysis of fascism totalitarianism imperialism and ideology a broadened contextualisation of antisemitism discussion of the Holocaust including the euthanasia program and the role of eugenics new chapters on Nazi social and economic policies and the structure of government as well as on the role of culture the arts education and religion additional maps tables and a chronology a fully updated bibliography Exploring the controversies surrounding Nazism and its afterlife in historiography and historical memory Hitler's Germany provides students with an interpretive framework for understanding this extraordinary episode in German and European history      *Polyculturalism and Discourse*, 2007-01-01 This volume gathers together research by ten scholars engaging with multicultural discourse in Australia and Germany The term polyculturalism rather than multiculturalism is employed deliberately to re open a space in which the workings of discourse on culturally diverse societies both as archive or practice and as intervention can be considered in greater depth The inter cultural perspective and wide range of disciplinary affiliations exhibited by the essays in this volume contribute to this goal whereas the majority of discourse analytical work addresses the diversity of speaking positions as well as the arbitrariness of ascribed meanings within a historical framework delimited by national boundaries and disciplinary boundaries the texts collected here transgress this perspective in working comparatively between Australia and Germany

*Regulating the Social* George Steinmetz, 1993-08-09 Why does the welfare state develop so unevenly across countries regions and localities What accounts for the exclusions and disciplinary features of social programs How are elite and popular conceptions of social reality related to welfare policies George Steinmetz approaches these and other issues by exploring the complex origins and development of local and national social policies in nineteenth century Germany Generally regarded as the birthplace of the modern welfare state Germany experimented with a wide variety of social programs before 1914 including the national social insurance legislation of the 1880s the Elberfeld system of poor relief protocorporatist policies and modern forms of social work Imperial Germany offers a particularly useful context in which to compare different programs at various levels of government Looking at changes in welfare policy over the course of the nineteenth century differences between state and municipal interventions and intercity variations in policy Steinmetz develops an account that focuses on the specific constraints on local and national policymakers and the different ways of imagining the social question Whereas certain aspects of the pre 1914 welfare state reinforced social divisions and even foreshadowed aspects of the Nazi regime other dimensions actually helped to relieve sickness poverty and unemployment Steinmetz explores the conditions that led to both the positive and the objectionable features of social policy The explanation draws on statist Marxist and social democratic perspectives and on theories of gender and culture

**From Liberal Democracy to Fascism** Peter Caldwell, William Scheuerman, 2021-10-01 The Weimar Republic from 1919 until 1933 when Hitler came into power witnessed crucial debates on law and politics These debates are reexamined in this book Were for example democratic rules and procedures an adequate basis for democracy as Hugo Preuss and Hans Kelsen suggested Or should constitutional law elaborate the deeper basic principles embedded in the democratic constitution itself as Hermann Heller argued Was the president the immediate guardian of the constitution as Carl Schmitt s concept of representation suggested Or was Schmitt s concept itself subject to Walter Benjamin s critique of the aura of authenticity These and other typical Weimar era debates helped shape West German constitutionalism The former labor lawyer on the left Ernst Fraenkel for example began to develop a general theory of dictatorship mass democracy while in exile which influenced the new discipline of political science after the war Similarly Gerhard Leibholz an anti positivist lawyer in Weimar served on the first Constitutional Court of the Federal Republic of Germany helping to consolidate its new constitutional culture

**Art as Politics in the Third Reich** Jonathan Petropoulos, 1999-02-01 The political elite of Nazi Germany perceived itself as a cultural elite as well In *Art as Politics in the Third Reich* Jonathan Petropoulos explores the elite s cultural aspirations by examining both the formulation of a national aesthetic policy

**Genocide and the Modern Age** Isidor Wallimann, Michael N. Dobkowski, 2000-03-01 In the preface to this 2000 edition the authors point out that with the advent of the millennium it is important to take stock of the 20th century which has been labelled as the Age of Genocide

**The Sanctity of Rural Life** Shelley Baranowski, 1995 This study identifies the contributions of the rural elite in the eastern Prussian provinces namely Junker landlords and the

Protestant clergy to the rise of National Socialism in a region where the rural electorate's attraction to the Hitler movement became critical to the Nazi takeover in 1933 **Geography, History and Social Sciences** Georges B. Benko, Ulf

Strohmayer, 2013-06-29 Georges Benko Societies are much messier than our theories of them Michael Mann The Sources of Social Power 1 Towards a unified social theory Why are there communication problems between the different disciplines of the social sciences And why should there be so much misunderstanding Most probably because the encounter of several disciplines is in fact the encounter of several different histories and therefore of several different cultures each interpreting the other according to the code dictated by its own culture Inevitably geographers view other disciplines through their own cultural filter and even a benevolent view remains ethnocentric It was in order to avoid such ethnocentricity that Fernand Braudel called for more unity among the social sciences in 1958 I wish the social sciences would stop discussing their respective differences so much and instead look for common ground on which to reach their first agreement Personally I would call these ways quantification spatial awareness and *longue duree* In its place at the center of the social sciences geography reduces all social reality to its spatial dimensions Unfortunately as a discipline it considers itself all too often to be in a world of its own There is a need in France for a figure like Vidal de la Blanche who could refocus attention away from issues of time and space towards space and social reality Geographic research will only take a step forward once it learns to address the problems facing all the sciences **Disruptions in Economic and Social Polity** Arup Baisya, 2019-11-25

Capitalism is in crisis today while the neoliberal economic model that has been pursued in order to move out of the crisis has also not succeeded There are also major disruptions in both economic and social polity and uncertainties due to change and conflict within social relations This book analyses these issues from a global perspective with particular reference to India in order to determine what can be done to provide this transitory situation with a direction of change The essays gathered here counter the neo liberal myth built on the premise that this is an era free of ideology and reconstruct the concept of ideology and its various ramifications The book also delves into how the dynamics of the overall economic situation today give rise to various possibilities for change and details holistic plans of possible future actions The Coming Age of Scarcity Michael N. Dobkowski, Isidor Wallimann, 1998-03-01 Michael Dobkowski and Isidor Wallimann have edited a book that although ominous is not a fatalistic look at the future The Coming Age of Scarcity lays out the perils of not recognizing the reality of genocide or of acknowledging the full implications of warfare Showing how scarcity and surplus populations can lead to disaster The Coming Age of Scarcity is about evil It tells of ethnic cleansing and excavates the world's expanding killing fields The writers in this volume are all too aware that the future suggests that present day population growth land resources energy consumption and per capita consumption cannot be sustained without leading to greater catastrophes The essays in this volume ask What is the solution in the face of mass death and genocide As philosopher John K Roth says in the Foreword The essays can sensitize us against despair and indifference because history shows that human made mass death and

genocide are not inevitable and no events related to them will ever be      **Behind the Mask of Chivalry** Nancy K. MacLean, 1995-07-13 On Thanksgiving night 1915 a small band of hooded men gathered atop Stone Mountain an imposing granite butte just outside Atlanta With a flag fluttering in the wind beside them a Bible open to the twelfth chapter of Romans and a flaming cross to light the night sky above William Joseph Simmons and his disciples proclaimed themselves the new Knights of the Ku Klux Klan named for the infamous secret order in which many of their fathers had served after the Civil War Unsure of their footing in the New South and longing for the provincial patriarchal world of the past the men of the second Klan saw themselves as an army in training for a war between the races They boasted that they had bonded into an invisible phalanx to stand as impregnable as a tower against every encroachment upon the white man's liberty in the white man's country under the white man's flag Behind the Mask of Chivalry brings the invisible phalanx into broad daylight culling from history the names the life stories and the driving passions of the anonymous Klansmen beneath the white hoods and robes Using an unusual and rich cache of internal Klan records from Athens Georgia to anchor her observations author Nancy MacLean combines a fine grained portrait of a local Klan world with a penetrating analysis of the second Klan's ideas and politics nationwide No other right wing movement has ever achieved as much power as the Ku Klux Klan of the 1920s and this book shows how and why it did MacLean reveals that the movement mobilized its millions of American followers largely through campaigns waged over issues that today would be called family values Prohibition violation premarital sex lewd movies anxieties about women's changing roles and worries over waning parental authority Neither elites nor poor white trash most of the Klan rank and file were married middle aged and middle class Local meetings or klonklaves featured readings of the minutes plans for recruitment campaigns and Klan barbecues and distribution of educational materials Christ and Other Klansmen was one popular tome Nonetheless as mundane as proceedings often were at the local level crusades over morals always operated in the service of the Klan's larger agenda of virulent racial hatred and middle class revanchism The men who deplored sex among young people and sought to restore the power of husbands and fathers were also sworn to reclaim the white man's country striving to take the vote from blacks and bar immigrants Comparing the Klan to the European fascist movements that grew out of the crucible of the first World War MacLean maintains that the remarkable scope and frenzy of the movement reflected less on members power within their communities than on the challenges to that power posed by African Americans Jews Catholics immigrants and white women and youth who did not obey the Klan's canon of appropriate conduct In vigilante terror the Klan's night riders acted out their movement's brutal determination to maintain inherited hierarchies of race class and gender Compellingly readable and impeccably researched The Mask of Chivalry is an unforgettable investigation of a crucial era in American history and the social conditions cultural currents and ordinary men that built this archetypal American reactionary movement      **Handbook of Culture and Social Networks** Nick Crossley, Paul Widdop, 2025-01-09 This forward thinking Handbook explores two major research strands in the fast

developing field of culture and network analysis the underlying social networks of culture and the cultural bases of social networks      The Conditions of Democracy in Europe 1919-39 D. Berg-Schlosser,J. Mitchell,2016-01-08 Why did democracy survive in some European countries between the wars while fascism or authoritarianism emerged elsewhere This innovative study approaches this question through the comparative analysis of the inter war experience of eighteen countries within a common comprehensive analytical framework It combines social and economic structure and political actor related aspects to provide detailed historical accounts of each case which serve as background information for the systematic testing of major theories of fascism and democracy      **Cultures of Darkness** Bryan D. Palmer,2019-02-15 Peasants religious heretics witches pirates runaway slaves prostitutes and pornographers frequenters of taverns and fraternal society lodge rooms revolutionaries blues and jazz musicians beats and contemporary youth gangs those who defied authority choosing to live outside the defining cultural dominions of early insurgent and later dominant capitalism are what Bryan D Palmer calls people of the night These lives of opposition or otherness were seen by the powerful as deviant rejecting authority and consequently threatening to the established order Constructing a rich historical tapestry of example and experience spanning eight centuries Palmer details lives of exclusion and challenge as the night travels of the transgressors clash repeatedly with the powerful conventions of their times Nights of liberation and exhilarating desire sexual and social are at the heart of this study But so too are the dangers of darkness as marginality is coerced into corners of pressured confinement or the night is used as a cover for brutalizing terror as was the case in Nazi Germany or the lynching of African Americans Making extensive use of the interdisciplinary literature of marginality found in scholarly work in history sociology cultural studies literature anthropology and politics Palmer takes an unflinching look at the rise and transformation of capitalism as it was lived by the dispossessed and those stamped with the mark of otherness      *In the Valley of Historical Time* Abhinav Sinha,2024-04-22 The descent of working class movements that began with neoliberal globalization is nearing completion However the ascent is yet to begin This period is witnessing novel forms of organization and resistance For students activists and academics it is imperative to understand changes in the modus operandi of capital since the 1970s to explain the crisis of conventional trade unionism as well as the spontaneous outbursts of creativity in movements of informal workers in recent times Delhi has been a centre of such innovative experiments In the Valley of Historical Time attempts to understand these new forms and strategies and possibilities of resurgence of working class movements      *The Routledge History of the Holocaust* Jonathan C. Friedman,2010-12-15 The genocide of Jewish and non Jewish civilians perpetrated by the German regime during World War Two continues to confront scholars with elusive questions even after nearly seventy years and hundreds of studies This multi contributory work is a landmark publication that sees experts renowned in their field addressing these questions in light of current research A comprehensive introduction to the history of the Holocaust this volume has 42 chapters which add important depth to the academic study of the Holocaust both geographically and topically The chapters address such diverse

issues as continuities in German and European history with respect to genocide prior to 1939 the eugenic roots of Nazi anti-Semitism the response of Europe's Jewish Communities to persecution and destruction the Final Solution as the German occupation instituted it across Europe rescue and rescuer motivations the problem of prosecuting war crimes gender and Holocaust experience the persecution of non Jewish victims the Holocaust in postwar cultural venues This important collection will be essential reading for all those interested in the history of the Holocaust

### **Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 has opened up a world of possibilities. Downloading Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Radical Perspectives On The Rise Of Fascism In Germany 1919 1945. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Radical Perspectives On The Rise Of Fascism In Germany 1919 1945. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates

copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Radical Perspectives On The Rise Of Fascism In Germany 1919 1945, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 Books**

1. Where can I buy Radical Perspectives On The Rise Of Fascism In Germany 1919 1945 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
