Mythologies of Violence in Postmodern Media Christopher Sharrett, 1999 This anthology examines a number of issues related to violence within the media landscape Violence has been a topic of continued concern within American culture and society Although there have been numerous sociological and historical studies of violence and its origins there is relatively little systematic analysis of violence within media representation even as this issue becomes preeminent within public discourse This anthology examines a number of issues related to violence within the media landscape using various methodologies to suggest the implications of the increasing obsession with violence for postmodern civilization **The Freedom Writers Diary (20th Anniversary Edition)** The Freedom Writers, Erin Gruwell, 2007-04-24 1 NEW YORK TIMES BESTSELLER The twentieth anniversary edition of the classic story of an incredible group of students and the teacher who inspired them featuring updates on the students' lives new journal entries and an introduction by Erin Gruwell Now a public television documentary Freedom Writers Stories from the Heart In 1994 an idealistic first year teacher in Long Beach

Historical Dictionary of Boxing John Grasso, 2013-11-14 Boxing is one of the oldest sports in the world reaching back to the Ancient Greeks although it has become popular only in the past century or so But in some ways it is a rather complicated sport since to avoid unnecessary harm it has been endowed with rules to keep it clean referees to see the rules are obeyed and organizations to regulate the sport Boxing was once largely amateur although the professional bouts attracted the most attention but now it is also an Olympic sport And over the years there has been one champion after another who symbolized what boxing was all about such Joe Louis Mohammad Ali and Cassius Clay Naturally these champions are the focus of the *Historical Dictionary of Boxing* as well and they have the biggest entries in the dictionary section but they had to fight against someone and there are dozens and dozens of other boxers with smaller entries More of these boxers come from the United States than elsewhere but there are others from Europe Asia and Latin America and there are also entries on the major boxing countries as well Plus entries on the rules on the organizations and on the technical terminology and jargon you have to know just to follow the bouts The introduction provides a broad view of boxing's history while the chronology traces events from 688 B C to 2012 A D Not all that much has been written on boxing that is not ephemeral but much of that literature can be found in the bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the sport of boxing

Jazz June Clifford Thompson, 2025-10 *Jazz June A Self Portrait in Essays* traces a life not by recounting its major events but by going deep into its representative moments the moments of wonder hope fear uncertainty humor love and epiphany that make up human experience Along the way as a son of a widowed mother as a young man in the big city as a husband and father as an aging empty nester and as an artist the author discovers with each new role more of who he is A lover of the arts he offers creative reflections on literature music and film a Black American whose life is informed but not defined by race he embraces Black culture while remaining

defiantly himself **Boxing in America** David L. Hudson Jr.,2012-06-21 This book presents a sweeping view of boxing in the United States and the influence of the sport on American culture Boxing has long been a popular fixture of American sport and culture despite its decidedly seedy side the fact that numerous boxing champions acquired their skills in prison or reform schools the corruption and greed of certain boxing promoters and the involvement of the mob in fixing the outcome of many big fights Yet boxing remains an iconic and widely popular spectator sport even in light of its decline as a result of the recent burgeoning interest in mixed martial arts MMA contests What had made this sport so enthralling to our nation for such a long period of time This book contains much more than simple documentation of the significant dates people and bouts in the history of American boxing It reveals why boxing became one of America s leading spectator sports at the turn of the century and examines the factors that have swayed the public s perception of it thereby affecting its popularity In *Boxing in America* the author provides a compelling view of not only the pugilist sport but also of our country our sources of entertainment and ourselves Objects and Materials Penny Harvey,Eleanor Conlin Casella,Gillian Evans,Hannah

Knox,Christine McLean,Elizabeth B. Silva,Nicholas Thoburn,Kath Woodward,2014-07-16 There is broad acceptance across the Humanities and Social Sciences that our deliberations on the social need to take place through attention to practice to object mediated relations to non human agency and to the affective dimensions of human sociality This Companion focuses on the objects and materials found at centre stage and asks what matters about objects *Objects and Materials* explores the field providing succinct summary accounts of contemporary scholarship along with a wealth of new research investigating the capacity of objects to shape unsettle and exceed expectations Original chapters from over forty international interdisciplinary contributors address an array of objects and materials to ask what the terms of collaborations with objects and materials are and to consider how these collaborations become integral to our understandings of the complex relational dynamics that fashion social worlds *Objects and Materials* will be of interest to students and scholars across the social sciences and humanities including in sociology social theory science and technology studies history anthropology archaeology gender studies women s studies geography cultural studies politics and international relations and philosophy

assumptions which the author argues inevitably reinforce the very violence they critique He explains how violent images work upon the world

A Year of Movies Ivan Walters, 2015-11-12 While watching a movie how many viewers notice some of the finer details of the film such as the time of day during a scene or even the date itself For instance does anyone remember what day detention is served by the high schoolers in *The Breakfast Club* or can guess when aliens first make their presence known in *Independence Day* And perhaps only history buffs or fanatics of Leonardo DiCaprio can cite the exact date the Titanic sunk In *A Year of Movies 365 Films to Watch on the Date They Happened* Ivan Walters provides a selection for every day on the calendar in which at least some of the events in the film take place For some films the entire drama occurs on a very specific day For other films such as *The Right Stuff* the date in question is represented in a key scene or two or even for just a few pivotal seconds Certain films to be sure are obvious candidates for inclusion in this book What other movie would make sense to watch on February 2nd than *Groundhog Day* Is there a more appropriate film to consider for June 6th than *The Longest Day* Representing a variety of genres from comedies and dramas to westerns and film noir these films offer fans a unique viewing opportunity While helping viewers decide what to watch on a given day this book will also introduce readers to films they may not have otherwise considered Aimed at film buffs and casual viewers alike *A Year of Movies* is also an ideal resource for librarians who want to offer creative programming for their patrons
