The Secret War for China Panagiotis Dimitrakis, 2017-09-22 In 1927 Chiang Kai shek the head of China's military academy and leader of the Kuomintang KMT began the northern expeditions to bring China's northern territories back under the control of the state. It was during this period that the KMT purged communist activities, fractured the army and sparked the Chinese Civil War which would rage for over twenty years. The communists led by General Mao Tse Tsung were for much of the period forced underground and concentrated in the Chinese countryside. As the author argues, this resulted in China's war featuring unusually high levels of espionage and sabotage and increased the military importance of information gathering. Based on newly declassified material, Panagiotis Dimitrakis charts the double crossings, secret meetings and bloody assassinations which would come to define China's future. Uniquely *The Secret War for China* gives equal weighting to the role of foreign actors, the role of British intelligence in unmasking Communist International Comintern agents in China, for example, and the allies' attempts to turn nationalist China against the Japanese. *The Secret War for China* also documents the clandestine confrontation between Mao and Chiang and the secret negotiations between Chiang and the Axis Powers whose forces he employed against the CCP once the Second World War was over. In his turn, Mao employed nationalist forces who had defected during the last three years of the civil war: about 105 out of 869 KMT generals defected to the CCP. This book is an urgent and necessary guide to the intricacies of the Chinese Civil War, a war which decisively shaped the modern Asian world.

China at War Xiaobing Li, 2012-01-10 This comprehensive volume traces the Chinese military and its experiences over the past 2,500 years, describing clashes with other kingdoms and nations as well as internal rebellions and revolutions. As the first book of its kind, *China at War: An Encyclopedia* expands far beyond the conventional military history book that is focused on describing key wars, battles, military leaders and influential events. Author Xiaobing Li, an expert writer in the subjects of Asian history and military affairs, provides not only a broad chronological account of China's long military history but also addresses Chinese values, concepts and attitudes regarding war. As a result, readers can better understand the wider sociopolitical history of the most populous and one of the largest countries in the world and grasp the complex security concerns and strategic calculations often behind China's decision-making process. This encyclopedia contains an introductory essay written to place the reference entries within a larger contextual framework, allowing students to compare Chinese with Western and American views and approaches to war. Topics among the hundreds of entries by experts in the field include Sunzi's classic *The Art of War*, Mao Zedong's guerrilla warfare in the 20th century, Chinese involvement in the Korean War and Vietnam War, and China's nuclear program in the 21st century.

International Competition in China, 1899-1991 Bruce A. Elleman, 2015-04-10 China's recent economic reforms have opened its economy to the world. This policy, however, is not new: in the late nineteenth century, the United States put

forward the Open Door Policy as a counter to European exclusive spheres of influence in China This book based on extensive original archival research examines and re evaluates China s Open Door Policy It considers the policy from its inception in 1899 right through to the post 1978 reforms It relates these changes to the various shifts in China s international relations discusses how decades of foreign invasion civil war and revolution followed the destruction of the policy in the 1920s and considers how the policy when applied in Taiwan after 1949 and by Deng Xiaoping in mainland China after 1978 was instrumental in bringing about respectively Taiwan s economic miracle and mainland China s recent economic boom The book argues that although the policy was characterised as United States economic imperialism during the Cold War in reality it helped China retain its sovereignty and territorial integrity

Ming China, 1368-1644 John W. Dardess, 2012 This engaging deeply informed book provides the first concise history of one of China s most important eras Leading scholar John W Dardess offers a thematically organized political social and economic exploration of China from 1368 to 1644 He examines how the Ming dynasty was able to endure for 276 years illuminating Ming foreign relations and border control the lives and careers of its sixteen emperors its system of governance and the kinds of people who served it its great class of literati and finally the mass outlawry that in unhappy conjunction with the Manchu invasions from outside ended the once mighty dynasty in the mid seventeenth century The Ming witnessed the beginning of China s contact with the West and its story will fascinate all readers interested in global as well as Asian history

US-China Naval Co-operation Against the Soviet Union Bruce A. Elleman, 2025-07-25 This book discusses the key role of the transfer of naval technology from the U S to China in building up the Chinese Navy during the Cold War Revealing how this process began in the late 1970s under the Carter Administration when Deng Xiaoping was newly in power and how it accelerated under both the Reagan and Bush administrations moving from the transfer of simple technology to entire naval systems the book highlights how the policy was successful in helping make China a serious threat to the Soviet Union and how it thereby contributed to the collapse of the Soviet Union and the end of the Cold War The book also demonstrates how this same policy also enabled China now with the world s largest navy to become much more assertive in East Asia more widely resulting in the U S reversing its technology transfer policy following the Tiananmen Square massacre and in China turning to Russia and other former Soviet countries including Ukraine for the supply of Soviet era equipment Utilising disclosed and formerly secret documents this book will be a valuable resource to both students and scholars of international relations security studies and naval studies particularly in relation to Chinese U S USSR relations during the Cold War

Chinese had by the end of the 20th century regained control of their own country Out of China uses a brilliant array of unusual strange and vivid sources to recreate a now fantastically remote world the corrupt lurid modernity of pre War Shanghai the often tiny patches of extra territorial land controlled by European powers one of which unnoticed had mostly toppled into a river the entrep ts of Hong Kong and Macao and the myriad means through armed threats technology and legal chicanery by which China was kept subservient Today Chinese nationalism stays firmly rooted in memories of its degraded past the quest for self sufficiency a determination both to assert China s standing in the world and its outstanding territorial claims and never to be vulnerable to renewed attack History matters deeply to Beijing s current rulers and Out of China explains why

allied with the Soviet Union which was the common enemy of both China and the USA Overall the book demonstrates how the presence of the US Navy in the South China Sea is a crucial element in much wider global US strategy

Truman and MacArthur Michael D. Pearlman,2008-03-12 Truman and MacArthur offers an objective and comprehensive account of the very public confrontation between a sitting president and a well known general over the military's role in the conduct of foreign policy In November 1950 with the army of the Democratic Peoples Republic of Korea mostly destroyed Chinese military forces crossed the Yalu River They routed the combined United Nations forces and pushed them on a long retreat down the Korean peninsula Hoping to strike a decisive blow that would collapse the Chinese communist regime in Beijing General Douglas MacArthur the commander of the Far East Theater pressed the administration of President Harry S Truman for authorization to launch an invasion of China across the Taiwan straits Truman refused MacArthur began to argue his case in the press a challenge to the tradition of civilian control of the military He moved his protest into the partisan political arena by supporting the Republican opposition to Truman in Congress This violated the President's fundamental tenet that war and warriors should be kept separate from politicians and electioneering On April 11 1951 he finally removed MacArthur from command Viewing these events through the eyes of the participants this book explores partisan politics in Washington and addresses the issues of the political power of military officers in an administration too weak to carry national policy on its own accord It also discusses America's relations with European allies and its position toward Formosa Taiwan the long standing root of the dispute between Truman and MacArthur

Taiwan Straits Bruce A. Elleman,2014-12-16 In Taiwan Straits Crisis in Asia and the Role of the U S Navy historian Bruce Elleman surveys the situation that has led to the current tensions between China and Taiwan Starting in 1949 the final phase of the civil war in China which ended with Communist rule of the mainland and nationalist control of Taiwan this work explores how the 100 mile wide passage of water known as the Taiwan Strait has served as the geographic

flashpoint between the two nations Even though U S Navy destroyers have patrolled this body of water from 1950 to 1979 it has seen four crises 1954 55 1958 1962 and after the withdrawal of the U S Navy 1995 96 that threatened to push Taiwan and China to the brink of war Notwithstanding the role of the United States in defusing cross strait tensions for some three decades and the cold peace that has settled in since then the Taiwan Strait continues to be a major source of anxiety for the region and the world Taiwan Straits Crisis in Asia and the Role of the U S Navy traces the evolution of this tension between the two nations details the history of the crises between them and brings this story forward into the present by considering continuing sources of conflict present diplomatic efforts by the aggrieved nations and other key interests from the United States and Europe to other regional powers and future possible outcomes in the ongoing struggle between China and Taiwan relations Simply written and cogently argued it is the ideal source for military personnel diplomats and scholars and student of the modern Far East

High Seas Buffer Bruce A. Elleman, 2012 Following its defeat on the mainland in 1949 the Nationalist government retreated to Taiwan Although the Nationalist navy was comparatively large to many it seemed almost certain that the People s Republic of China PRC would attack and take Taiwan perhaps as early as summer 1950 The Korean War began on 25 June 1950 however and the possibility of a PRC invasion of Taiwan was countered when on 27 June President Harry S Truman ordered the Seventh Fleet to neutralize the Taiwan Strait Mao Zedong at first postponed and eventually canceled altogether his planned invasion of Taiwan The U S Navy s Taiwan Patrol Force operation lasted from summer 1950 until at least 1979 arguably even sporadically after that date Lasting twenty nine years the Taiwan Patrol Force was one of the longest naval operations in modern history It was also one of the most successful since as the most obvious symbol of American power it ensured that friction over the Taiwan Strait did not escalate into a full blown war In fact the Taiwan Patrol Force did its job so well that virtually nothing has been written about it U S Navy ships acted both as a buffer between the two antagonists and as a trip wire in case of aggression The force fulfilled the latter function twice in the 1950s during the first 1954 55 and second 1958 Taiwan Strait crises and a third time in the next decade 1962 at which point additional U S Navy vessels were called in to assist Even after the Taiwan Patrol Force was terminated in 1979 it continued in spirit as shown by a fourth Taiwan Strait crisis During the PRC missile tests of 1995 96 two U S aircraft carriers were deployed to the area and in 2001 during the ten days of negotiations over the EP 3 incident of 1 April a carrier was almost sent As recently as 2009 when maritime tensions between an American survey ship and Chinese vessels threatened to escalate into a larger conflict a U S Navy destroyer was sent to the scene Thus the patrolling functions that began in 1950 have continued largely unchanged to this day as U S Navy vessels act to influence China s military economic and political relations with its maritime neighbors
