Reichskommissariat Norwegen Robert Bohn,1996 **Industrial Collaboration in Nazi-Occupied Europe** Hans Otto Frøland,Mats Ingulstad,Jonas Scherner,2016-09-22 This book brings together leading experts to assess how and whether the Nazis were successful in fostering collaboration to secure the resources they required during World War II These studies of the occupation regimes in Norway and Western Europe reveal that the Nazis developed highly sophisticated instruments of exploitation beyond oppression and looting The authors highlight that in comparison to the heavy manufacturing industries of Western Europe Norway could provide many raw materials that the German war machine desperately needed such as aluminium nickel molybdenum and fish These chapters demonstrate that the Nazis provided incentives to foster economic collaboration hoping that these would make every mine factory and smelter produce at its highest level of capacity All readers will learn about the unique part of Norwegian economic collaboration during this period and discover the rich context of economic collaboration across Europe during World War II *The Construction of a National Socialist Europe during the Second World War* Raimund Bauer,2019-10-14 Throughout the Second World War the term Europe featured prominently in National Socialist rhetoric This book reconstructs what Europe stood for in National Socialist Germany analyses how the interplay of its defining elements changed dependent on the war and shows that the new European order was neither an empty phrase born out of propaganda nor was it anti European Tying in with long standing traditions of German European völkisch and economic thinking imaginations of a New Order became a central category in contemporary political and economic decision making processes justifying cooperation as well as exploitation violence and murder **Western and Northern Europe June 1942-1945** Katja Happe,Barbara Lambauer,Clemens Maier-Wolthausen,2022-08-01 Executive editors Katja Happe Barbara Lambauer and Clemens Maier Wolthausen with Maja Peers English language edition prepared by Elizabeth Harvey Johannes Gamm Georg Felix Harsch Dorothy Mas and Caroline Pearce In summer 1942 the Germans escalated the systematic deportations of Jews from Western and Northern Europe to the extermination camps In most of the countries under German control the occupying forces initially focused on arresting foreign and stateless Jews thereby securing the cooperation of local authorities However before long the entire Jewish population was targeted for deportation This volume documents the parallels and differences in the persecution of Jews in occupied Norway Denmark the Netherlands Belgium Luxembourg and France in the period from summer 1942 to liberation

it records the implementation of the systematic deportation and murder of Jews from Western and Northern Europe and it also records the rescue of more than 5 000 Danish Jews In letters and diary entries the persecuted Jews describe their attempts to flee life in hiding the transit camps and deportation transports that often took several days In Westerbork camp in the occupied Netherlands Bob Cahen himself an inmate recorded in his diary the arrival in the camp of 17 000 Jews from across the Netherlands in October 1942 People arrived here herded like livestock Some were buried beneath their luggage others without any possessions at all not even properly dressed Women in poor health who had been hauled out of bed in thin nightgowns children in undergarments and barefoot the elderly the ill the infirm more and more new people came to the camp The sources in the volume show how the perpetrators attempted to dupe their victims regarding the destination of the transports and how Jewish organizations attempted to alleviate the suffering of the deportees The documents additionally illustrate how the resistance movement gained momentum during this period Learn more about the PMJ on <https://pmjdocuments.org>

Goebbels Peter Longerich, 2015-05-05 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE TELEGRAPH From renowned German Holocaust historian Peter Longerich comes the definitive one volume biography of Adolf Hitler's malevolent minister of propaganda In life and in the grisly manner of his death Joseph Goebbels was one of Adolf Hitler's most loyal acolytes By the end no one in the Berlin bunker was closer to the Führer than his devoted Reich minister for public enlightenment and propaganda But how did this clubfooted son of a factory worker rise from obscurity to become Hitler's most trusted lieutenant and personally anointed successor In this ground breaking biography Peter Longerich sifts through the historical record and thirty thousand pages of Goebbels's own diary entries to provide the answer to that question Longerich the first historian to make use of the Goebbels diaries in a biographical work engages and challenges the self serving portrait the propaganda chief left behind Spanning thirty years the diaries paint a chilling picture of a man driven by a narcissistic desire for recognition who found the personal affirmation he craved within the virulently racist National Socialist movement Delving into the mind of his subject Longerich reveals how Goebbels's lifelong search for a charismatic father figure inexorably led him to Hitler to whom he ascribed almost godlike powers This comprehensive biography documents Goebbels's ascent through the ranks of the Nazi Party where he became a member of the Führer's inner circle and launched a brutal campaign of anti Semitic propaganda Though endowed with near dictatorial control of the media film radio press and the fine arts Longerich's Goebbels is a man dogged by insecurities and beset by bureaucratic infighting He feuds with his bitter rivals Hermann Göring and Alfred Rosenberg unsuccessfully advocates for a more radical line of total war and is thwarted in his attempt to pursue a separate peace with the Allies during the waning days of World War II This book also reveals as never before Goebbels's twisted personal life his mawkish sentimentality manipulative nature and voracious sexual appetite A harrowing look at the life of one of history's greatest monsters Goebbels delivers fresh insight into how the Nazi message of hate was conceived nurtured and disseminated This complete portrait of the man behind that

message is sure to become a standard for historians and students of the Holocaust for decades to come Praise for Goebbels Peter Longerich has delved into rarely accessed material from his subject's diaries which span thirty years to paint a remarkable portrait of the man who became one of Hitler's most trusted lieutenants The Daily Telegraph Praise for Heinrich Himmler There have been several studies of this enigmatic man but Peter Longerich's massive biography grounded in exhaustive study of the primary sources is now the standard work and must stand alongside Ian Kershaw's Hitler Ulrich Herbert's Best and Robert Gerwarth's Hitler's Hangman The Life of Heydrich as one of the landmark Nazi biographies As the author of a celebrated study of the Holocaust Longerich is better able than his predecessors to situate Himmler within the vast machinery of genocide And he brings to his task a gift for capturing those mannerisms that are the intimate markers of personality London Review of Books An excellent and comprehensive biography The New York Review of Books *Supreme Courts Under Nazi Occupation* Derk Venema,2025-10-01 This is the first extensive treatment of leading judicial institutions under Nazi rule in WWII It focusses on all democratic countries under German occupation and provides the details for answering questions like how can law serve as an instrument of defence against an oppressive regime Are the courts always the guardians of democracy and rule of law What role was there for international law How did the courts deal with dismissals new appointees new courts forced German ordinances versus national law How did judges justify their actions help citizens appease the enemy protest against injustice Experts from all democracies that were occupied by the Nazis paint vivid pictures of oppression collaboration and resistance The results are interpreted in a socio legal framework introducing the concept of moral hygiene to explain the clash between normative and descriptive approaches in public opinion and scholarship concerning officials behaviour in war time [Paying for Hitler's War](#) Jonas Scherner,Eugene N. White,2016-03-21 Paying for Hitler's War is a comparative economic study of twelve Nazi occupied countries during World War II **Northern European Overture to War, 1939-1941** ,2013-05-24 While the German invasion of Poland in September 1939 was a pivotal moment in European history and precipitated the outbreak of the Second World War western historiography has largely neglected Northern Europe Two questions dominated the course of events the Anglo German contest for control of the access to the Atlantic Ocean and the Soviet German contest for control of their former territories as a precursor to the future Total War they expected to wage against each other This anthology of 23 essays considers both these issues collectively and provides a new international perspective on the region's transition from the relative peace of the interwar era to the all out war following the German invasion of the Soviet Union in 1941 Contributors are Azar Gat Michael Epkenhans Andrew Lambert Tom Kristiansen Rolf Hobson Gunnar selius J rg Hillmann Werner Rahn S awomir D bski Ole Kristian Grimnes eslovas Laurinavi ius Alfred Erich Senn Lars Ericson Wolke Karl Erik Haug Boris Vadimovich Sokolov Toomas Hiio Magnus Ilmj rv Palle Roslyng Jensen Hans Christian Bjerg Valters erbinskis Michael H Clemmesen and Marcus Faulkner **Builders of the Third Reich** Charles Dick,2020-11-12 This is the first comprehensive critical study of the

Organisation Todt OT a key institution which oversaw the Third Reich's vast slave labour programme together with the SS Wehrmacht and industry The book breaks new ground by revealing the full extent of the organisation's brutal and murderous operations across occupied Europe and in the Reich For the first time Charles Dick provides a strong voice for camp survivors overseen by the OT drawing on an extensive collection of personal accounts and analysing the violence they endured Builders of the Third Reich shows Hitler used the OT which had a labour force of around 1.5 million people in 1944 as an instrument of subjugation and occupation to project German imperial power Drawing on a broad range of primary sources it demonstrates how the organisation participated in the plunder of Europe's raw materials and manpower greatly boosting the German war economy The book reveals how OT staff shot beat or worked tens of thousands of prisoners to death both within the SS run concentration camp system and outside it with analysis of OT operations showing that where it had sole or very high levels of control over camps prisoner death rates were extremely high Examining how engineers and builders individuals who fitted the category of ordinary men as precisely as any other group so far examined by historians perpetrated war crimes this volume reflects on how few OT personnel were interrogated or came to trial and how the organisation passed largely under the radar of post war prosecutors researchers and the general public **Hitler's**

culminating work on the commanding figure of the Third Reich **Nazi Steel** Marcus O Jones, 2012-07-15 This study explores an exemplary instance of the close interaction between private and official interests in planning and executing the programs of the Nazi government namely the acquisition in 1941 of the Rombach steel works by the German industrialist Friedrich Flick The industrial concern headed by Flick was among the largest and most influential steel producers and manufacturers of war material in the German economy during World War II Its activities in the occupied territories of western Europe centered on control of the Rombach works a large operation established in Lorraine in the late nineteenth century by German industrialists and expropriated by France along with the entire region in the aftermath of the First World War After successful military operations against France in 1940 the Nazi regime actively sought the collusion of the German

industrial community in mobilizing the productive capacity of occupied territories for the war effort and numerous private German businessmen advanced claims on the lucrative assets in Lorraine and adjacent regions In his bid to gain control of the Rombach works Flick was successful for reasons specific to his position within the Nazi German economic system and the character of his interests This account of his activities then serves as a fine example of Nazi economic and occupation policy and its response to party business and bureaucratic influences

The Gestapo Carsten Dams, Michael Stolle, 2014-05-22 The Gestapo was the most feared instrument of political terror in the Third Reich brutally hunting down and destroying anyone it regarded as an enemy of the Nazi regime socialists Communists Jews homosexuals and anyone else deemed to be an anti social element Its prisons soon became infamous many of those who disappeared into them were never seen again and it has been remembered ever since as the sinister epitome of Nazi terror and persecution But how accurate is it to view the Gestapo as an all pervasive all powerful all knowing instrument of terror How much did it depend upon the cooperation and help of ordinary Germans And did its networks extend further into the everyday life of German society than most Germans after 1945 ever wanted to admit Answering all these questions and more this book uses the very latest research to tell the true story behind this secretive and fearsome institution Tracing the history of the organization from its origins in the Weimar Republic through the crimes of the Nazi period to the fate of former Gestapo officers after World War II Carsten Dams and Michael Stolle investigate how the Gestapo really worked and question many of the myths that have long surrounded it

European Dictatorships Gerhard Besier, Katarzyna Stokłosa, 2014-01-03 How could it happen that continental Europe became a Europe of the Dictatorships in the twentieth century It requires some effort to understand such processes It is insufficient to observe merely the dictatorships and their mechanisms one must also incorporate the seemingly harmless history leading up to that time and above all the transitions that took place The book begins with a description of the historical situation after the First World War Europe's brutalization through colonial wars and inter European conflicts carried out using means of mass extermination led to fractures in civilized cultures What follows in the second section is another state by state organized design of the transition from countries that were fascist and countries that were made fascist into communist states established in accordance with the Soviet model The third part of the book is devoted to the history of the Eastern Bloc states from 1953 to 2013
