Reimagination Of The World A Critique Of The New Age Science And Popular Culture:

Reimagination of the World David Spangler, William Irwin Thompson, 1991 New Age Religion and Western Culture Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement

Soul Companions Karen Sawyer, 2012-11-01 You are never alone whatever your nationality religion or belief you have a spirit guide to assist your journey through life A spirit guide doesn't have to be dead everything that lives has a spirit that could potentially be a spiritual guide including pets and animals plants and elemental and otherworldly spirit allies We can also be our own guides and be guides to other people This collection of spirit guide encounters from around the world will inspire you in your own quest for spirit guide contact with practical how to advice Learn how to recognise the signs and talk with the spirit beings guiding your life This diverse collection of over 40 experiences united in one book will inspire you on your spiritual path to know that you are not alone but that we are all one **Astrology and Popular Religion in the Modern West** Nicholas Campion, 2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west **The Speech of the Grail** Linda Sussman, 1995 Storyteller and ceremonialist Linda Sussman explores how to speak in a new way that is one that heals and transforms She takes the epic story of the grail as told by Wolfram von Eschenbach in Parzival as her guide This tale weaves together Celtic Oriental Christian Arthurian and alchemical sources Linda Sussman sees Parzival as depicting the path of initiation to healing speech to doing the truth in word and deed First she tells the story in a beautiful way allowing the reader to reproduce within themselves the potent inner pictures of the text

Then she shows that it is not so much a path toward perfection as the recovery of a right relationship to our imperfections. She shows too that it is a path in which male and female aspects work together in the overcoming of evil. *Re-Imagining Nature* Alister E. McGrath, 2016-04-01. Reimagining Nature is a new introduction to the fast developing area of natural theology written by one of the world's leading theologians. The text engages in serious theological dialogue whilst looking at how past developments might illuminate and inform theory and practice in the present. This text sets out to explore what a properly Christian approach to natural theology might look like and how this relates to alternative interpretations of our experience of the natural world. Alister McGrath is ideally placed to write the book as one of the world's best known theologians and a chief proponent of natural theology. This new work offers an account of the development of natural theology throughout history and informs of its likely contribution in the present. This feeds in current debates about the relationship between science and religion and religion and the humanities. Engages in serious theological dialogue primarily with Augustine, Aquinas, Barth and Brunner and includes the work of natural scientists, philosophers of science and poets.

The Kingdom of God and the Yellow Barn Church Doug Hickerson, 2006. All his life author Doug Hickerson repeated 'Thy Kingdom come in the Lord's Prayer'. Yet God's kingdom seemed irrelevant to him even as a seminary student and a church layman. Hickerson was a liberal Protestant active in a mainline denominational church and in community causes. He became curious about spiritual paths to God beyond the Church. While in his midfifties and still active in his church he started a spiritual journey that included exploring other religions and spirituality. Steeped in the popular New Age spirituality of the 1990s he wrote about the coming new millennium. He felt that humankind was evolving spiritually and was headed for an enlightened utopia, the Age of Aquarius. His humanistic visions ended abruptly when he met families who belonged to the yellow barn church in his village. In their fellowship it became clear that God, not man, is in control and lovingly rules our destiny. He awakened to the Kingdom of God present now on earth with its fulfillment yet to come. At age sixty-eight Hickerson's life-changing experience in the evangelical Church and in God's kingdom is deeply personal and grounded in the Bible and solid theology. The warm and at times humorous narrative in *The Kingdom of God and the Yellow Barn Church* details God's providence and promptings over Hickerson's lifetime. [The New Age in the Modern West](#) Nicholas Campion, 2015-11-19. New Age culture is generally regarded as a modern manifestation of Western millenarianism, a concept built around the expectation of an imminent historical crisis followed by the inauguration of a golden age which occupies a key place in the history of Western ideas. *The New Age in the Modern West* argues that New Age culture is part of a family of ideas including utopianism which construct alternative futures and drive revolutionary change. Nicholas Campion traces New Age ideas back to ancient cosmology and questions the concepts of the Enlightenment and the theory of progress. He considers the contributions of the key figures of the 18th century: the legacy of the astronomer Isaac Newton and the Swedish visionary Emanuel Swedenborg as well as the theosophist H. P. Blavatsky, the psychologist C. G. Jung and the writer and artist

Jose Arguelles He also pays particular attention to the beat writers of the 1950s the counterculture of the 1960s concepts of the Aquarian Age and prophecies of the end of the Maya Calendar in 2012 Lastly he examines neoconservatism as both a reaction against the 1960s and as a utopian phenomenon *The New Age in the Modern West* is an important book for anyone interested in countercultural and revolutionary ideas in the modern West *The Oxford Handbook of New Religious Movements* James R Lewis,2008-07-17 The Oxford Handbook of New Religious Movements both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and religious studies are leading figures in the study of NRMs **The Cambridge Companion to New Religious Movements** Olav Hammer,Mikael Rothstein,2012-08-30 This volume addresses the key features of new religions such as Scientology the Moonies and Jihadist movements from a systematic comparative perspective
