Reiner Kunze Materialien Und Dokumente:

Beyond 1989 K. Bullivant, 1997-09-01 With the fall of the Berlin Wall in November 1989 four decades of separation seemed to have been brought to an end In the literary arena as in many others this seemed to be the surprising but ultimately logical end to the situation in which after the extreme separation of the two Germanies literatures during most of the period up to 1980 an increasing closeness could be observed during the 1980s as relations between the two German states normalized With the opening up of the East in the Autumn of 1989 claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era This volume examines these claims and other aspects of literary life in the two Germanies since 1945 with the hindsight born of unification in 1990 as well as looking at certain aspects of developments since the fall of the Wall when as on East German put it in 1996 rapprochement came to an end *Reiner Kunze* Jürgen Peter Wallmann, 1977 Deutsch-deutsches Literaturexil Walter Schmitz, Jörg Bernig, 2009 Handbuch der Kunstzitate Konstanze Fliedl, Marina Rauchenbacher, Joanna Wolf, 2011-12-23 This handbook provides a documentation of art quotations in modern literary texts An art quotation is defined as a reference to a real art work either by naming description or allusion Lexicon like contributions present the individual galleries of 250 German language authors Exemplary text passages are specified the corresponding art works are depicted and the primary and secondary literature is listed An index provides information about the frequency with which specific art quotations were used in literary history This book makes a wealth of empirical material systematically available for the first time both for literary and art scholarship Published with support of the Fonds zur Förderung der wissenschaftlichen Forschung **Das Spektrum der modernen Poesie** Hans Hiebel, 2005 **Composing the Canon in the German Democratic Republic** Elaine Kelly, 2014-09-01 When the German Democratic Republic GDR was founded in 1949 its leaders did not position it as a new state Instead they represented East German socialism as the culmination of all that was positive in Germany's past The GDR was heralded as the second German Enlightenment a society in which the rational ideals of progress Bildung and revolution that had first come to fruition with Goethe and Beethoven would finally achieve their apotheosis Central to this founding myth was the Germanic musical heritage Just as the canon had defined the idea of the German nation in the nineteenth century so in the GDR it contributed to the act of imagining the collective socialist state Composing the Canon in the German Democratic Republic uses the reception of the Germanic musical heritage to chart the changing landscape of musical culture in the German Democratic Republic Author Elaine Kelly demonstrates the nuances of musical thought in the state revealing a model of societal ascent and decline that has implications that reach far beyond studies of the GDR itself The first book length study in English devoted to music in the GDR Composing the Canon in the German Democratic Republic is a seminal text for scholars of music in the Cold War and in Germany more widely **Selecta**, 1982 *Die Sprache, die die Sprache spricht* Johannes Benjamin
