Reinscribing Moses Heine Kafka Freud And Schoenberg In A European Wilderness:

Reinscribing Moses Bluma Goldstein, 1992 Examines problems of German Jewish and Austrian Jewish identity through analysis of the figure of Moses in the works of Heine Kafka Freud and Schoenberg Discusses the view of Moses as the liberator of oppressed Jewry on the background of antisemitism in 19th 20th century Europe See especially pp 69 77 Freud and Antisemitism **Reinscribing Moses** Bluma Goldstein, 1992 *Freud and the Legacy of Moses* Richard J. Bernstein, 1998-10-08 Freud's last book *Moses and Monotheism* was published in 1939 during one of the darkest periods in Jewish history This difficult book has frequently been vilified and dismissed because Freud claims that Moses was not a Hebrew but an Egyptian and that the Jews murdered Moses in the wilderness Richard Bernstein argues that a close reading of *Moses and Monotheism* reveals an underlying powerful coherence in which Freud seeks to specify the distinctive character and contribution of the Jewish people It is this character that has enabled the Jewish people to survive despite persecution and virulent anti-Semitism and Freud proudly identifies himself with it In his analysis of Freud's often misunderstood last work Bernstein goes on to show how Freud expands and deepens our understanding of a religious tradition by revealing its unconscious dynamics Moses among the Moderns, 2024-04-30 A historic lawgiver and founder of an ancient nation Moses was powerful and pivotal in the imagination of modern Germany The late eighteenth to early twentieth century was an intense period of religious controversy especially on the Jewish question with new models for understanding faith science and the past This volume focuses on the identification of Jewish law both Pentateuch and Talmud with the figure of Moses to trace the fascinations and anxieties of the Bible in modern culture Through diverse perspectives it examines the representations and appropriations of Moses as a father of Judaism and framer of European civilization

Canonization and Alterity Gilad Sharvit, Willi Goetschel, 2020-07-06 This volume offers an examination of varied forms of expressions of heresy in Jewish history thought and literature Contributions explore the formative role of the figure of the heretic and of heretic thought in the development of the Jewish traditions from antiquity to the 20th century Chapters explore the role of heresy in the Hellenic period and Rabbinic literature the significance of heresy to Kabbalah and the critical and often formative importance the challenge of heresy plays for modern thinkers such as Spinoza Freud and Derrida and literary figures such as Kafka Tchernikhovsky and I B Singer Examining heresy as a boundary issue constitutive for the formation of Jewish tradition this book contributes to a better understanding of the significance of the figure of the heretic for tradition more generally **Freud and Monotheism** Gilad Sharvit, Karen S. Feldman, 2018-06-05 Over the last few decades vibrant debates regarding post secularism have found inspiration and provocation in the works of Sigmund Freud A new interest in the interconnection of psychoanalysis religion and political theory has emerged allowing Freud's illuminating examination of the religious and mystical practices in *Obsessive Neurosis* and *Religious Practices* and the exegesis of the origins of ethics in religion in *Totem and Taboo* to gain currency in recent debates on modernity In that context the pivotal

role of Freud's masterpiece *Moses and Monotheism* is widely recognized. Freud and *Moses and Monotheism* brings together fundamental new contributions to discourses on Freud and Moses as well as new research at the intersections of theology, political theory and history in Freud's psychoanalytic work. Highlighting the broad impact of *Moses and Monotheism* across the humanities, the contributors hail from such diverse disciplines as philosophy, comparative literature, cultural studies, German studies, Jewish studies and psychoanalysis. Jan Assmann and Richard Bernstein whose books pioneered the earlier debate that initiated the Freud and Moses discourse, seize the opportunity to revisit and revise their groundbreaking work. Gabriele Schwab, Gilad Sharvit, Karen Feldman and Yael Segalovitz engage with the idiosyncratic, eccentric and fertile nature of the book as a *Spätstil* and explore radical interpretations of Freud's literary practice, theory of religion and therapeutic practice. Ronald Hendel offers an alternative history for the Mosaic discourse within the biblical text. Catherine Malabou reconnects Freud's theory of psychic phylogenesis in *Moses and Monotheism* to new findings in modern biology and Willi Goetschel relocates Freud in the tradition of works on history that begins with Heine, while Joel Whitebook offers important criticisms of Freud's main argument about the advance in intellectuality that Freud attributes to Judaism. *Prosaic*

Conditions Na'ama Rokem, 2013. In this book, the author observes that prose writing, more than poetry, drama or other genres, came to signify a historic rift that resulted in loss and disenchantment. The author treats prose as a signifying practice that is a practice that creates meaning. During the nineteenth and twentieth centuries, prose emerges in competition with other existing practices, specifically the practice of performance. Using Zionist literature as a test case, the author examines the ways in which Zionist authors put prose to use both as a concept and as a literary mode. Writing prose enables these authors to grapple with historical, political and spatial transformations and to understand the interrelatedness of all of these changes.

A Space of Anxiety Anne Fuchs, 2024-08-26. *A Space of Anxiety* engages with a body of German Jewish literature that from the beginning of the century onwards explores notions of identity and kinship in the context of migration, exile and persecution. The study offers an engaging analysis of how Freud, Kafka, Roth, Drach and Hilsenrath employ, to varying degrees, the travel paradigm to question those borders and boundaries that define the space between the self and the other. *A Space of Anxiety* argues that from Freud to Hilsenrath, German Jewish literature emerges from an ambivalent space of enunciation which challenges the great narrative of an historical identity authenticated by an originary past. Inspired by postcolonial and psychoanalytic theories, the author shows that modern German Jewish writers inhabit a Third Space which poses an alternative to an understanding of culture as a homogeneous tradition based on national unity. By endeavouring to explore this third space in examples of modern German Jewish literature, the volume also aims to contribute to recent efforts to rewriting literary history. In retracing the inherent ambivalence in how German Jewish literature situates itself in cultural discourse, this study focuses on how this literature subverts received notions of identity and racial boundaries. The study is of interest to students of German literature, German Jewish literature and Cultural Studies. *Sigmund Freud and Oskar Pfister*

on Religion Carlos Domínguez-Morano, 2023-07-24 Sigmund Freud and Oskar Pfister on Religion examines the dialogue between psychoanalysis and religion through the encounters of two men the unfaithful Jew who founded psychoanalysis and a pastor of profound religious faith and proven psychoanalytic conviction Carlos Domínguez Morano analyses the original encounters between Freud and Pfister and their respective positions noting the incidences impasses and progress of their discussions The complex interactions between psychoanalysis and religion over time are considered and Domínguez Morano assesses the fundamental parameters of each perspective with reference to Catholicism The book explores the relationship between psychoanalysis and religion as a rich ongoing and unending dialogue and sheds new light on the origins of psychoanalysis Sigmund Freud and Oskar Pfister on Religion will be of great interest to academics and scholars of psychoanalytic studies religion the history of psychology and the history of ideas **The Cambridge Companion to**

Schoenberg Jennifer Shaw, Joseph Auner, 2010-05-13 Arnold Schoenberg composer theorist teacher painter and one of the most important and controversial figures in twentieth century music This Companion presents engaging essays by leading scholars on Schoenberg's central works writings and ideas over his long life in Vienna Berlin and Los Angeles Challenging monolithic views of the composer as an isolated elitist the volume demonstrates that what has kept Schoenberg and his music interesting and provocative was his profound engagement with the musical traditions he inherited and transformed with the broad range of musical and artistic developments during his lifetime he critiqued and incorporated and with the fundamental cultural social and political disruptions through which he lived The book provides introductions to Schoenberg's most important works and to his groundbreaking innovations including his twelve tone compositions Chapters also examine Schoenberg's lasting influence on other composers and writers over the last century
