Reinventing Nationalism The Northern Leagues Of Italy:

Rethinking Nationalism and Ethnicity Hans-Rudolf Wicker, 2020-12-17 While there has been a spate of books concerned with race and ethnicity in Europe more specifically this timely volume offers a broader perspective and positions issues of identity ethnicity multiculturalism xenophobia regionalism and ethnonationalism within the wider contexts of trans and supranationalism With the weakening of welfare states and the homogenizing influences of globalization nations within both Eastern and Western Europe are discovering that the battlefield of political action is being redefined and as a result emotional alliances threaten to bypass the democratic systems of the past Offering fresh insights that are both empirically and theoretically informed this book illuminates the processes and consequences of these new developments In particular it reviews Marx s Durkheim s and Simmel s theories on nationalism and national identity and presents case studies of Belgium Italy s Northern League right wing intellectual production in Russia and much more **The Nationalism of the Rich**

Emmanuel Dalle Mulle, 2017-12-01 Based on rigorous analysis of the propaganda of five Western European separatist parties this book provides in depth examination of the nationalism of the rich defined as a type of nationalist discourse that seeks to end the economic exploitation suffered by a group of people represented as a wealthy nation and supposedly carried out by the populations of poorer regions and or by inefficient state administrations It shows that the nationalism of the rich represents a new phenomenon peculiar to societies that have set in place complex systems of wealth redistribution and adopted economic growth as the main principle of government legitimacy The book argues that the nationalism of the rich can be seen as a rhetorical strategy portraying independent statehood as a solution to the dilemma between solidarity and efficiency arisen in Western Europe since the end of the Glorious Thirties It further suggests that its formation can be best explained by the following combination of factors 1 the creation from the end of the Second World War of extensive forms of automatic redistribution to a scale previously unprecedented 2 the beginning from the mid 1970s of an era of permanent austerity exacerbated in specific contexts by situations of serious public policy failure 3 the existence of national cultural cleavages roughly squaring with uneven development and sharp income differentials among territorial areas of a given state

A World Without Meaning Zaki Laidi, 2005-08-10 This sophisticated book by internationally renowned theorist Zaki Laidi tackles the problem of individual identity in a rapidly changing global political environment He argues that it is increasingly hard to find meaning in our ever expanding world especially after the collapse of political ideologies such as communism With the breakup of countries such as the former Yugoslavia it is clear that people are now looking to old models like nationalism and ethnicity to help them forge an identity But how effective are these old certainties in a globalized world in a permanent state of flux *Nationalism in Italian Politics* Damian Tambini, 2012-12-06 This book is the first full length study available in English to trace the extraordinary history of the Italian Northern Leagues during the 1980s and 1990s At a time when the postwar First Republic entered a crisis amid corruption scandals the Leagues acted as one of the main protest

actors and grew at an unprecedented rate Drawing on electoral and survey data existing research eyewitness accounts of protest events and interviews with activists and leaders this book provides the definitive account of the movement Damian Tambini analyses why the movement was so successful in mobilising support and focuses on its most novel aspect its use of nationalism The new regionalist movements in Northern Italy which were unified into the Northern League in 1990 had a huge influence on Italian politics during the period Written for scholars interested in nationalism ethnicity and citizenship and for specialists in European Studies Italian and ethnic studies Nationalism in Italian Politics draws on the best Italian and international research to thoroughly analyse the movement and update classic studies of nationalism in the age of media spectacle

The Rise of the Capital-state and Neo-Nationalism Oleksandr Svitych, 2022-11-21 What explains the rise of populist nationalism in the contemporary phase of globalized development Drawing on Karl Polanyi's study of the great transformation The Rise of the Capital state and Neo nationalism argues that populist nationalism is a societal reaction to the pro market structural changes in the political economies of nation states conceptualized as the capital state transformation Oleksandr Svitych shows that there is an inextricable link between free market reforms declining state legitimacy and identity based mobilization Examining four case studies Australia France Hungary and South Korea through a mixed method approach the book finds that discontented voters gravitate toward populist neo national political forces and embrace identity based solutions often in exclusivist and scapegoating forms to harness their anxieties and insecurities triggered by the capital state restructuring Populist nationalism of both the left and the right has emerged to compensate for the real and perceived inability of the state to shield citizens from the corrosive effects of market fundamentalism The Rise of the Capital state and Neo nationalism contributes to our understanding of the dynamics of the interrelated nature of state capital and identity politicization through a broader social theoretical perspective The Rise of the Capital state and Neo Nationalism is now available in paperback for individual customers

Italy's Contemporary Politics James Newell, 2020-12-16 In early 2020 Italy was a country whose political parties stood as significant obstacles in the way of resolution of its social and economic problems The purpose of this book is to help the reader to understand how Italian politics had reached this point It does this by tracing the most significant processes of political economic and social change to have marked Italian history in recent years back to their roots in the Italian political system as it emerged at the end of the Second World War Starting with the restoration of democracy the volume discusses the post war party system and how it came under increasing pressure from the mid 1970s From there it discusses the political upheavals of the early 1990s and the transformations they led to the rise and fall of Silvio Berlusconi and the watershed election of 2018 In short the book provides a narrative Narratives tell us who we are where we have come from where we are now and where we are going Without them we cannot make sense of the world At the end of this narrative if it has done its job properly Italian politics and current affairs should make sense if before they seemed confusing

Agnew, 2001 **A World Without Meaning** Zaki Laïdi, 1998 In this provocative and incisive book Zaki Laidi argues that as our world becomes ever larger our ability to find meaning in it diminishes With the end of communism came the end of the intimate alliance between power and ideology No power in our globalised world can any longer claim to provide meaning In despair we look back to old models religious traditions nationalism ethnicity to give us a sense of identity But in a globalised world in a permanent state of flux just how effective are these old certainties **Forthcoming Books** Rose Arny, 2003-04
