Reits Building Profits With Real Estate Investment Trusts:

REITs John A. Mullaney, 1997-10-15 A timely and authoritative guide to today's hottest new investment vehicles Finally a book that covers REITs from A to Z that is understandable to both the layperson and the expert alike John Mullaney is one of the very few real estate analysts who can simplify this complex new asset class and make the compelling argument that securitized real estate will continue to have a bright future and belongs in everyone's portfolio Peter Wheeler President and COO Commonwealth Equity Services REITs Building Profits with Real Estate Investment Trusts is a well written and informative book not only on REITs but real estate in general It is a must read for financial advisors who want to help their clients benefit from some of the outstanding investment opportunities which currently exist in the REIT industry Ina Fritsch President Fritsch Financial Services This book is an excellent guide through the various sectors in the REIT industry and the leading companies in the business I would recommend it for any investor interested in learning about the industry and how to select the right real estate investment trusts for their portfolio Charles K Barbo Chairman and CEO Shurgard Storage Centers I firmly believe that investors who manage and choose their own investments should understand the product they are investing in John Mullaney's book is a great source for such investors to learn about real estate investments valuing REITs and making sound investment decisions Anne C Ravetti Meridian Industrial Trust

Real Estate Investment Trusts In Europe Wolfgang Speckhahn, 2016-04-24 It is well known that investments in real estate provide relatively stable yields compared with stock market volatility so it is not surprising that with globalisation investors have pursued such opportunities across borders especially where foreign countries offer beneficial tax regimes Nor it is surprising that states should fear erosion of their tax base in the presence of such investments This groundbreaking book the first in depth comparative analysis of taxation of real estate investment trusts REITs in different European Union EU Member States investigates the impact of EU law on direct taxation in the case of REITs and whether EU policies in this area have led national legislators to adjust their REIT regimes Presenting detailed case studies of three EU Member States France a well established REIT regime Bulgaria a new accession state and Spain a recent REIT regime this book explores the idea of a harmonised EU REIT and whether harmonisation among national REIT regimes may be possible Among the issues and topics arising in the course of the presentation are the following goodness of fit and adaptational soft pressure relevant case law from the European Court of Justice including both tax and company law REIT shopping noncompliance of REIT regimes with EU law and criteria for the misfit analysis of REIT regimes and potential infringements of EU law The analysis ultimately documents conditions and circumstances for the creation of a harmonised Euro REIT by assessing the level of change on the area of direct taxation within the Member States which would be needed for such a creation to become reality identifying common themes across different legal systems that could assist the harmonisation of laws Throughout a holistic view is taken linking tax and company law with considerations of sovereignty policy and culture In its structured framework comparing REIT regimes this

incomparable study takes a giant step towards overcoming resistance to a common REIT taxation regime in the EU As the first comparative study of REIT regimes to identify an emerging common understanding informed by European jurisprudence and Europeanisation policy and theory it is sure to be welcomed by practitioners academics and policymakers in European law and international taxation as well as European studies

Guide to Global Real Estate Investment Trusts Stefano Simontacchi,Ilona McElroy,Rosaleen Carey,2022-09-19 The global listed property sector has been characterized by a variety of noteworthy developments in recent times the proliferation of real estate investment trust type structures in countries around the world key among them Despite an uncertain economic environment REITs have proven their ability to promote institutional real estate investments in global financial markets This highly practical book features a comprehensive analysis

of both the legal and tax underpinnings of REIT friendly legislation in a variety of the world's most significant jurisdictions. With regard to the legal framework the structure and functioning of a REIT are carefully investigated and explained. In terms of tax issues the book focuses on such key issues as REIT formation, operation and liquidation, mergers, acquisitions and dispositions and planning for public and private REIT offerings and re-securitizations. REITs are inherently complex and their interplay with tax treaties further compounds the complexity. This highly accessible yet authoritative work is the perfect decision making tool for any professional looking for perspective and guidance on the challenges and opportunities REITs engender.
