Relational Justice Repairing The Breach:

Relational Justice Jonathan Burnside, Nicola Baker, 2003-10-31 The Relationships Foundation exists to foster relational approaches to social economic and other problems including justice issues This book presents a refreshing challenge and is suitable to people who prefer non adversarial non conflict and non argument laden solutions Prison Patter Angela Devlin, 1996 Rita Hayworth dancing by candlelight in a small Mexican village Elizabeth Taylor devouring homemade pasta and tenderly wrapping him in her pashmina scarf streaking for Sir Laurence Olivier in a drafty English castle terrifying a dozing Jackie Onassis carrying an unconscious Montgomery Clift to safety on a dark New York City street Captured forever in a unique memoir Frank Langella's myriad encounters with some of the past century's most famous human beings are profoundly affecting funny wicked sometimes shocking and utterly irresistible With sharp wit and a perceptive eye Mr Langella takes us with him into the private worlds and privileged lives of movie stars presidents royalty literary lions the social elite and the greats of the Broadway stage What for instance was Jack Kennedy doing on that coffee table Why did the Queen Mother need Mr Langella's help When was Paul Mellon going to pay him money owed How did Brooke Astor lose her virginity Why was Robert Mitchum singing Gilbert Sullivan patter songs at top volume and what did Marilyn Monroe say to him that helped change the course of his life Through these shared experiences we learn something too of Mr Langella's personal journey from the age of fifteen to the present day Dropped Names is like its subjects riveting and unforgettable

Restoring Justice Daniel W. Van Ness, Karen Heetderks Strong, 2014-02-01 Restoring Justice An Introduction to Restorative Justice offers a clear and convincing explanation of restorative justice a movement within criminal justice with growing worldwide influence It explores the broad appeal of this new vision and offers a brief history of its development The book presents a theoretical foundation for the principles and values of restorative justice and develops its four cornerpost ideas of encounter amends inclusion and reintegration After exploring how restorative justice ideas and values may be integrated into policy and practice it presents a series of key issues commonly raised about restorative justice summarizing various perspectives on each Handbook of Restorative Justice Gerry Johnstone, Daniel Van Ness, 2013-01-11 This book provides a comprehensive and authoritative account and analysis of restorative justice one of the most rapidly growing phenomena in the field of criminology and justice studies This book aims to meet the need for a comprehensive reliable and accessible overview of the subject It draws together leading authorities on the subject from around the world in order to elucidate and discuss the key concepts and principles of restorative justice explain how the campaign for restorative justice arose and developed into the influential social movement it is today describe the variety of restorative justice practices explain how they have developed in various places and contexts and critically examine their rationales and effects identify and examine key tensions and issues within the restorative justice movement brings a variety of disciplinary and interdisciplinary perspectives to bear upon the understanding and assessment of restorative justice The Handbook of

Restorative Justice is essential reading for students and practitioners in the field *Justice that Restores* Charles W. Colson, 2001 Something clearly is wrong with the current justice system in which repeat incarceration is high injustice is rampant and 25 percent of African American males can expect to spend time behind bars Colson's biblical ideas for reform have the potential to turn the system around keep innocent people out of prison and give victims some relief

Reimagining Restorative Justice David O'Mahony, Jonathan Doak, 2017-09-21 Restorative justice theory has largely failed to keep pace with the rapid expansion of restorative practices worldwide indeed it is remarkable how much support RJ has when so few advocates can even define what it is As such this insightful and comprehensive new contribution from two of the top scholars on the frontlines of restorative justice research is hugely welcome Professor Shadd Maruna Centre for Criminology and Criminal Justice University of Manchester *Reimagining Restorative Justice* is a reflective and balanced reconsideration of restorative justice It deftly sweeps across the large literature on the subject putting it in perspective seeing anew through its wide angle lens Empowerment and accountability provide a fertile framework for this richly reimagined justice Professor John Braithwaite Australian National University David O Mahony and Jonathan Doak have made a significant contribution to the confusing and over complicated field of restorative justice theory They do so through their use of empowerment theory to bring conceptual and operational clarity to the concepts of agency and accountability in restorative processes and outcomes As a result they develop a convincing argument for face to face dialogue between victim and perpetrator within the core of the criminal justice system Their emphasis upon ethical and skilful practice is a welcome riposte to the rapid spread of restorative justice lite driven by managerialism and the need to cut costs Tim Chapman Lecturer at the University of Ulster O Mahony and Doak convincingly argue that rapid developments in the practice of restorative interventions have outstripped restorative justice theory They provide both an outstandingly helpful review of the literature and a fresh theoretical approach based on empowerment theory Everyone seriously interested in restorative justice will want to reflect carefully on the authors conclusions Anthony Bottoms Emeritus Wolfson Professor of Criminology at the University of Cambridge In recent years restorative based interventions have expanded rapidly and are increasingly viewed as a legitimate and even superior means of delivering justice The result of this swift but piecemeal development has been that restorative justice practice has outpaced the development of restorative justice theory This book takes up this challenge by reimagining a new framework for the operation of restorative justice within criminal justice In essence it is contended that the core empowering values of agency and accountability provide a lens for reimagining how restorative justice works and the normative goals it ought to encompass

Perceptions of Criminal Justice Vicky De Mesmaecker, 2014-03-05 In recent decades research into the legitimacy of criminal justice has convincingly demonstrated the importance of procedural justice to citizens sense of trust and confidence in legal authorities and their resulting willingness

to conform to the law and cooperate with the legal authorities Reversing the age old question why do people break the law theories of procedural justice have provided insight into the factors that encourage people to abide by the law suggesting that experiences of procedural fairness are crucial to achieving compliance with the law and to enhancing the legitimacy of criminal justice While these studies are important in showing that legal authorities need to pay attention to the fairness judgements of the people involved in legal procedures the focus on showing the importance of procedural justice has had the ironic consequence of distracting researchers from studying the equally important question of what fairness means to the people involved in legal proceedings In one of the first studies on procedural justice to use a qualitative research design the author provides the reader with detailed and insightful descriptions of the elements that determine how victims and defendants assess the fairness of their contact with the police and the courts Focusing on both the pre trial and the post trial phases this book will be of interest to academics and students engaged in the study of the psychology of law procedural justice and the legitimacy of criminal justice *Victims of Crime and Community Justice* Brian Williams, 2005-05-15 Dr Brian Williams lays bare the assumptions about victims and offenders that currently restrict efficient policy making He evaluates proposed solutions including restorative justice and informal community justice and draws on evidence and experiences from the UK and around the world to investigate which measures have proved effective **Criminal Justice 2000** Mick Cavadino, Iain Crow, 1999-06-30 A comprehensive outline of criminal justice in the UK at the turn of the century by three of the UK's leading exponents and that contains suggestions for restorative justice approaches for the future
