Relational Remembering:

Relational Remembering Sue Campbell, 2003 Tracing the impact of the memory wars on science and culture Relational Remembering offers a vigorous philosophical challenge to the contemporary skepticism about memory that is their legacy Campbell's work provides a close conceptual analysis of the strategies used to challenge women's memories particularly those meant to provoke a general social alarm about suggestibility Sue Campbell argues that we cannot come to an adequate understanding of the nature and value of memory through a distorted view of rememberers The harmful stereotypes of women's passivity and instability that have repopulated discussions of abuse have led many theorists to regard the social dimensions of remembering only negatively as a threat or contaminant to memory integrity Such models of memory cannot help us grasp the nature of harms linked to oppression as these models imply that changed group understandings of the past are incompatible with the integrity of personal memory Campbell uses the false memory debates to defend a feminist reconceptualization of personal memory as relational social and subject to politics Memory is analyzed as a complex of cognitive abilities and social narrative activities where one's success or failure as a rememberer is both affected by one's social location and has profound ramifications for one's cultural status as a moral agent *Relational Remembering* Sue Campbell, 2003-10-28 Tracing the impact of the memory wars on science and culture Relational Remembering offers a vigorous philosophical challenge to the contemporary skepticism about memory that is their legacy Campbell's work provides a close conceptual analysis of the strategies used to challenge women's memories particularly those meant to provoke a general social alarm about suggestibility Sue Campbell argues that we cannot come to an adequate understanding of the nature and value of memory through a distorted view of rememberers The harmful stereotypes of women's passivity and instability that have repopulated discussions of abuse have led many theorists to regard the social dimensions of remembering only negatively as a threat or contaminant to memory integrity Such models of memory cannot help us grasp the nature of harms linked to oppression as these models imply that changed group understandings of the past are incompatible with the integrity of personal memory Campbell uses the false memory debates to defend a feminist reconceptualization of personal memory as relational social and subject to politics Memory is analyzed as a complex of cognitive abilities and social narrative activities where one's success or failure as a rememberer is both affected by one's social location and has profound ramifications for one's cultural status as a moral agent *Being Relational* Jocelyn Downie, Jennifer J. Llewellyn, 2011-11-10 At the heart of relational theory lies the idea that the human self is fundamentally constituted in terms of its relations to others For relational theorists the self not only lives in relationship with and to others but also owes its very existence to such relationships In this groundbreaking collection leading relational theorists explore core moral and metaphysical concepts while health law and policy scholars respond by analyzing how such considerations might apply to more practical areas of concern Innovative and self reflexive *Being Relational* brings a powerful theoretical

framework to health law and policy studies In so doing it makes a bold contribution to scholarship and will appeal to a broad range of thinkers especially those with an interest in social justice and who seek to understand the complex ways in which power is created and sustained relationally **Relational Theory** Christine M. Koggel, Ami Harbin, Jennifer J.

Llewellyn, 2025-04-18 Relational theory starts from the ontological fact of our being in networks of relationships and draws out what this means for theories of knowledge and for moral and political theory This book uses insights from feminist relational theory to outline the ontological epistemological and moral political implications of this theoretical approach The chapters in this volume focus on relationships of power and oppression how these relationships shape who is taken to have knowledge and who is dismissed or ignored and what all of this means for theories of equality justice and moral and political theory more generally A focus on relationships of power and oppression opens up an examination into structures such as colonialism and capitalism that shape interconnected networks of relationships between humans and human and non human entities and ecosystems This volume which now includes eight additional chapters published both before and after the original special issue offers a significant step forward in the development of feminist relational theory Following early forays in identifying and criticizing mainstream liberal theory in the Western tradition chapters in this collection draw on approaches by anti oppression theorists found in critical disability critical race anti colonial decolonial and non Western theories to further broaden the descriptions and analyses of relationships and networks of relationships and to extend and advance feminist relational theory and its applications The chapters in this book were originally published in the Journal of Global Ethics **Our Faithfulness to the Past** Sue Campbell, 2014 This volume brings together essays three of them previously unpublished on the epistemology ethics and politics of memory by the late feminist philosopher Sue Campbell The essays in Part I diagnose contemporary skepticism about personal memory and develop an account of good remembering that is better suited to contemporary reconstructive theories of memory Campbell argues that being faithful to the past requires both accuracy and integrity and is both an epistemic and an ethical achievement The essays in Part II focus on the activities and practices through which we explore and negotiate the shared significance of our different recollections of the past and the importance of sharing memory for constituting our identities Views about self identity relation and responsibility all influenced by traditions in feminist philosophy are examined through the lens of Campbell's relational conception of memory She argues that remaining faithful to our past sometimes requires us to re negotiate the boundaries between ourselves and the collectives to which we belong In Part III Campbell uses her relational theory of memory to address the challenges of sharing memory and renewing selves in contexts that are fractured by moral and political difference especially those arising from a history of injustice and oppression She engages in detail Canada's Indian Residential Schools Truth and Reconciliation Commission where survivor memories have the potential to illuminate the significance of the past for a shared future The study of memory brings together philosophers psychologists historians anthropologists legal theorists and political theorists

and activists Sue Campbell demonstrates a singular ability to put these many different areas of scholarship and activism into fruitful conversation with each other while also adding an original and powerful voice to the discussion **Women's**

Narratives and the Postmemory of Displacement in Central and Eastern Europe Simona Mitroiu, 2018-10-15 This volume explores the different mechanisms and forms of expression used by women to come to terms with the past focusing on the variety and complexity of women's narratives of displacement within the context of Central and Eastern Europe The first part addresses the quest for personal post memory from the perspective of the second and third generations The touching collaboration established in reconstructing individual and family post memories offers invaluable insights into the effects of displacement coping mechanisms and resilience Adopting the idea that the text itself becomes a site of post memory the second part of the volume brings into discussion different sites and develops further this topic in relation to the creative process and visual text The last part questions the past in relation to trauma and identity displacement in the countries where abusive regimes destroyed social bonds and had a lasting impact on the people's lives The Jesus Legend

Paul Rhodes Eddy, Gregory A. Boyd, 2007-08 Confronts the legendary Jesus case showing how the Synoptic Gospels are the most historically probable representation of the actual Jesus of history **Gender Justice and Development:**

Vulnerability and Empowerment Eric Palmer, 2017-10-02 Vulnerability and empowerment are central concepts of contemporary development theory and ethics Vulnerability associated with human interdependence is a wellspring of values in care ethics while vulnerability arising from social problems demands remedy of which empowerment is frequently the just form Development planners and aid providers focus upon improving the wellbeing of the most vulnerable especially women by empowering them economically socially and politically Both vulnerability and empowerment are considered in this volume Drydyk argues that empowerment is necessarily relational not simply a matter of expanding choices Koggel reviews Drydyk's discussion through the lens of feminist relational theory considering how norms structures and institutions shape delimit and promote empowerment Presbey examines empowerment in East African women's lives through the writings and biography of Wangari Maathai Kosko considers indigenous self governance and participation in shared governance Khader reflects upon postcolonial feminist criticism of the concept of adaptive preference Panitch discusses the economic vulnerability that surrounds the global market in surrogate birth Pandey provides a review of third world eco feminist activism and literature Cudd envisions international humanitarian intervention to support female autonomy against oppressive state and social institutions This book was originally published as a special issue of the Journal of Global Ethics **Confidential**

Relationships, 2022-02-22 This book focuses the collective attention of psychotherapists the legal community social scientists and ethicists on the moral legal and clinical problems of confidentiality in psychotherapeutic practice By providing timely and important interdisciplinary contributions the book opens the way to understanding if not resolving the conflicting interests and values at stake in the debate on confidentiality **Discursive Remembering** Lucas M. Bietti, 2014-10-14 This

book aims at building a bridge between the social and political aspects of remembering and the cognitive and discourse processes driving such activities By analyzing these cognitive and discursive processes Bietti explores practices of individual and collective remembering in institutional and private settings in relation to periods of political violence in Argentina This books begins to fill the conceptual gap between cognitive oriented approaches to remembering that draw conclusions about how memory functions in the mind without a detailed discourse analysis of the communicative interaction in which this process unfolds and the discourse and pragmatic oriented approaches that are mainly interested in analyzing the rhetorical features of conversational remembering in some cases disregarding that there are underlying cognitive mechanisms that drive the construction of discourses about past experiences The empirical analysis shows that individual and collective remembering in relation to periods of political violence in Argentina vary in pragmatic ways due to the fact that these accounts of the past were constructed with reference to the communicative situation Thus this book also aims at shedding new light on the current practices of commemoration and remembrance related to periods of political violence in Argentina in public and private settings
